

**Minutes of the 89th Meeting of State Level Task Force on Solid Waste Management for discussion on
several issues of solid waste management**

In the Chair: Director, SUDA

Meeting Date: 8th September, 2026

Meeting Venue: Conference Hall of SUDA (2nd Floor)

Meeting Time: 12.00 Noon

Meeting Attendees:

➤ List of Members and participants : Annexed

Director, State Urban Development Agency (SUDA) chaired the meeting.

At the outset, he welcomed all the members present and explained the discussion points of the meeting. After threadbare discussion the following decisions were arrived at:

1. The Committee perused that SUDA floated e-tender for engagement of operator for fresh waste processing plant of Barasat Municipality. In the Pre-bid meeting, the prospective bidders raised some queries. Reply of the queries are placed below:

PRE-BID REPLY FOR ESTABLISHMENT, OPERATION AND MAINTENANCE OF 200 TPD FRESH WASTE PROCESSING FACILITY AT BARASAT MUNICIPALITY			
REF: Memo No.: SUDA-15014(17)/18/2026/6490 dated: 13.08.2026 & e-Tender ID: 2026_MAD_5018617_1 dated: 13.08.2026			
S/ N	Name of the Prospective Bidder	Clarification Sought	Response of SUDA
1	Rohini Fire Safety Pvt. Ltd.	Delete or suitably relax the condition restricting participation of agencies having two or more running/ongoing/incomplete/not-started Legacy Waste or Fresh Waste projects in the State of West Bengal.	Bid conditions shall prevail
2	i) NORTH INDIA CONSTRUCTION (P) LTD. ii) Eco Recyclize Management , iii) LORD SHIVA ENTERPRISES , iv) MONDAL CONSTRUCTION v) PINAKI ENTERPRISE vi) POOJA CONSULATION CO. vii) Tansam	1) Delete or suitably relax the condition restricting participation of agencies having two or more running/ongoing/incomplete/not-started Legacy Waste or Fresh Waste projects in the State of West Bengal. 2) Ensure that Startup/MSME companies are not indirectly prevented from participating merely because experienced technical agencies, with whom they intend to form Joint Ventures, are already successfully executing projects in West Bengal. 3) Reconsider the adoption of the CQCCBS evaluation methodology, particularly where all bidders are already required to satisfy detailed	Bid conditions shall prevail

	Engineering & Construction Company & viii) CIVELEMECH	and stringent mandatory technical eligibility requirements. 4) Consider adopting the Least Cost Selection (LCS) methodology, whereby all technically eligible and responsive bidders are allowed to compete financially and the lowest eligible responsive bidder is considered for award as per the applicable tender procedure.	
3	Aavartan Sustainability Pvt. Ltd.	Accept the issuance of MSME Certificate before the bid submission end date instead of bid publishing date.	MSME / Start-up Certificate issued on or before the last date of submission of bids shall be accepted.
4	Swadesh Tech Pvt. Ltd.	i) SUDA to permit an eligible newly incorporated Startup/ MSME to bid as a Sole bidder without prior corporate operational credentials ii) SUDA to permit a newly incorporated company, for which three years financial statement do not exist.	Not accepted. Bid conditions shall prevail.
5	N M CONBUILD LLP	1. Scope of Work: Is the civil infrastructure (Tipping Floor, Compost Pads, Sheds, Godowns, Compound Wall, etc.) included in the Bidder's scope? If yes, where in the Financial Bid (Fin-2 BOQ) should the CAPEX cost for these civil structures be quoted? 2. Land & Site Details: What is the exact area of land to be provided for the 200 TPD facility? Is the site demarcated and does it have existing civil infrastructure? Are there any lease/rental charges for the land, and what is the handover process? Is land provided for the development of a Scientific Landfill (SLF) for safe disposal? 3. Legacy & Guaranteed Waste: Is there existing legacy waste at the site that the Concessionaire must treat, or will only "fresh waste" be supplied? What is the Minimum Guaranteed Waste quantity to be supplied by the Authority at the start and throughout the concession period? Is there an annual increase in waste quantity expected, requiring capacity upgrades during the 10+5 year period? 4. Nature of Waste: What is the expected composition of the MSW (e.g., mixed, horticultural, C&D, road-sweeping debris, domestic biomedical waste)? 5. Machinery & Equipment: Is the list of machinery in the RFP fixed, or can the Bidder propose changes/additional equipment? The estimated equipment cost in the RFP appears low. Does it exclude civil works, foundations, and sheds (which seem to be the	1. Scope of Work: It is not in the bidder's scope. 2. Land & Site Details: The infrastructure for processing 200 TPD of Fresh Waste, along with the boundary wall, already exists at the site. 3. Legacy & Guaranteed Waste: No existing legacy waste exists at the site. Minimum quantity of 100 TPD of Fresh Waste i.e. 50% of the plant capacity, shall be guaranteed throughout the contract period. 4. Nature of Waste: The concerned ULB shall provide the maximum possible quantity of segregated Fresh Waste to the Agency throughout the contract period. 5. Machinery & Equipment: Bid condition shall prevail. 6. Technology Flexibility: Bid condition shall prevail.

		Bidder's responsibility)? 6. Technology Flexibility: Besides Window Composting & MRF, is the Bidder allowed to propose alternative/advanced technologies (e.g., Bio-methanation, Compressed Biogas, RDF) to improve financial viability?	
5	N M CONBUILD LLP	7. Licenses & Approvals: Have any necessary approvals/licenses already been initiated by the Authority? In whose name (Authority or Concessionaire) should statutory licenses be obtained? Please provide a list of required approvals. 8. Carbon Credits: Is there a mechanism for the Concessionaire to claim 100% of the Carbon Credit benefits? 9. Bidder Eligibility (JV/Consortium): Can a Startup Company that doesn't meet the technical/financial criteria individually be a Lead Member in a JV if the other partner meets 100% of the criteria? 10. Tipping Fee & Escalation: Is the tipping fee payable on the quantity of waste received or processed? For long-term projects, can escalation be considered annually based on WPI/CPI instead of a fixed 3% every five years? 11. Utilities (Power & Water): Will the Authority provide the required Power and Water supply connections at the project site near the main gate? 12. Costing in Financial Bid: Since the Financial Bid (Fin-2 BOQ) only asks for a single tipping fee value, where should the Bidder quote the CAPEX cost for machinery and civil works separately? 13. Bid Deadline: Can the bid submission deadline be extended by at least 3 weeks after the pre-bid meeting to allow adequate time for studying ground conditions and finalizing the RFP response?	7. Licenses & Approvals: Bid condition shall prevail. 8. Carbon Credits: 50% of the benefits accruing from Carbon Credits generated under the project shall be shared with the Authority/SUDA. 9. Bidder Eligibility (JV/Consortium): Bid condition shall prevail. 10. Tipping Fee & Escalation: Bid condition shall prevail. 11. Utilities (Power & Water): Bid condition shall prevail. 12. Costing in Financial Bid: Bid condition shall prevail. 13. Bid Deadline: Bid condition shall prevail.
6	Rollz India	Delete or suitably relax the condition restricting participation of agencies having two or more running/ongoing/incomplete/not-started Legacy Waste or Fresh Waste projects in the State of West Bengal.	Bid conditions shall prevail
7	Aakansha Enterprise	1. Request for minimum Waste guarantee and also escalate it yearly basis 2. Request for reducing Net worth from RS.8.76 crore to Rs. 5.0 crore for better participation 3. Assessment of quality and quantity of Fresh Waste at site. 4. Request from CQCCBS to LCM	1. Minimum quantity of 100 TPD of Fresh Waste i.e. 50% of the plant capacity, shall be guaranteed throughout the contract period. 2. Net Worth: The bidder should have a Net Worth of not less than Rs.5.00 crore in the

			immediate preceding financial year (i.e. FY 2024-25) instead of Rs.8.76 crore. 3 & 4: Bid conditions shall prevail.
--	--	--	--

After threadbare discussion, the Committee recommended the above-mentioned responses for uploading in the portal.

- The Committee noted that SUDA has floated 11 tenders for disposal of legacy waste through Bio-remediation and Bio-mining process to reclaim the land of 21 dump site(s) of 20 ULBs utilizing scientific method under Swachh Bharat Mission (U). In the Pre-bid meeting, the prospective bidders raised some queries. Reply of the queries are placed below:

Pre-Bid Reply for Disposal of legacy waste through Bio-remediation and Bio-mining process to reclaim the land of different dump site(s) utilizing scientific method located at various locations under Swachh Bharat Mission (U). [11 Nos. Tender].			
S/N	Name of the Prospective Bidder	Clarification Sought	Response of SUDA
1	Rohini Fire Safety Pvt. Ltd.	1. Applicability to works outside West Bengal: Kindly clarify whether only legacy waste/fresh waste works being executed within the State of West Bengal shall be considered for determining eligibility under Clause 6.12. In case an agency has two or more running/ongoing/incomplete/not started legacy waste/fresh waste projects outside West Bengal, but does not have two or more such projects in West Bengal, whether such agency shall remain eligible to participate in the present e-RFP. 2. Effect of long-term fresh waste contracts: Kindly clarify whether the restriction under Clause 6.12 is to be assessed based on the number of running/ongoing/incomplete/not started works as on the date of submission of the bid, or whether the restriction shall continue throughout the entire contractual period of the existing projects. In particular, if an agency is awarded two fresh Municipal Solid Waste processing contracts having a 15-year contractual period, whether such agency shall remain ineligible to participate in any further legacy waste/fresh waste tender in West Bengal throughout the entire 15-year contractual period. 3. Interpretation of “Not Started” work: Kindly clarify whether a work which has been awarded to an agency but has not commenced due to non-handover of site, non-issuance of commencement instruction, pending statutory approvals or other reasons attributable to the Client/Authority shall be considered a “not started” work under Clause 6.12. 4. Interpretation of “Ongoing/Incomplete” work: Kindly clarify whether a project for which the contractual completion period has expired but the work is continuing under an extension granted by the competent authority shall be	Bid conditions shall prevail

		considered as a “running/ongoing/incomplete” work for Clause 6.12. Further, kindly clarify whether a project which has physically achieved 100% completion but is awaiting a formal completion certificate, final measurement, final bill settlement, or other administrative closure shall also be treated as an “incomplete/ongoing” work under Clause 6.12.	
2	EASTERN ORGANIC FERTILIZER PRIVATE LIMITED	1. "No agency with 2 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate.": This clause severely restricts healthy competition by disqualifying established, experienced SWM contractors currently operating in West Bengal for long, thereby hindering wide and open participation. To ensure maximum competition and optimal pricing from qualified bidders, we request the tender authority to delete/waive this restriction, or relax it to allow agencies with satisfactory progress in their ongoing projects to participate. 2. The mobilization advance @10% of tendered amount at 10% simple interest may be sanctioned to the contractor on specific request... released only after submission of an unconditional Bank Guarantee...: Kindly state the exact timeline (number of working days) for the disbursing the mobilization advance to the agency once the unconditional Bank Guarantee is submitted and verified. 3. Agency to obtain applicable permits and approvals: Kindly provide a clear list of statutory approvals/permissions required from SUDA, MC, WPCB, CPCB or other authorities and specify which approvals shall be obtained by the Authority/ULB and which shall be obtained by the Contractor. 4. Medical unit, ambulance and life-support facility: Kindly clarify whether the requirement for a dedicated ambulance with life support and medical team/doctor is mandatory throughout the contract period and whether any existing municipal medical/ambulance facility can be utilized. 4. Joint contour survey and boreholes: 2 boreholes per acre, minimum 3: Kindly clarify the approximate site area and whether the cost of contour survey, borehole investigation, laboratory testing and density determination shall be included in the quoted rate or treated as a separately payable item. 5. 80% payment against first RA Bill and balance 20% after documentary evidence: Kindly clarify whether the 80% + 20% mechanism applies only to the first RA Bill or to each subsequent RA Bill, and whether payment shall be released within a specified number of days after submission of a complete bill.	Bid conditions shall prevail

2	EASTERN ORGANIC FERTILIZER PRIVATE LIMITED	6. No further payment if RDF is not disposed within 30 days: Considering external market conditions and availability of end users, kindly extend the disposal period and clarify that delay attributable to non-availability of authorized end users, regulatory restrictions, force majeure or Authority/ULB-related issues shall not result in withholding of payment or penalty. 7. Penalty for failure to process minimum average daily quantity: Kindly clarify how the monsoon period, rainfall, extreme weather, site constraints, disposal-market restrictions, statutory restrictions and force majeure will be accounted for while calculating the monthly target. 8: Quantity may increase up to 50%: Kindly confirm that any additional quantity beyond the tender quantity shall be awarded only through written instruction/approval, with proportionate extension of time and no change in the quoted rate. 9. H2/H3/H4 may be offered to match H1 rate: Kindly clarify whether the subsequent bidder will be required to match the H1 evaluated rate or H1 quoted rate, and whether the bidder will have the option to accept or reject such offer without any adverse consequence. 10. Quantity may increase up to 50%: Kindly confirm that any additional quantity beyond the tender quantity shall be awarded only through written instruction/approval, with proportionate extension of time and no change in the quoted rate.	Bid conditions shall prevail
3	1. CIVELEMECH 2. Tansam Engineering & Construction Company 3. Eco Recyclate Management 4. LORD SHIVA ENTERPRISES 5. MONDAL CONSTRUCTION 6. PINAKI ENTERPRISE 7. POOJA CONSULATION CO. 8. Multiserve Solutions	1. As per Tender RFP Clause 6 Eligible Bidders, sub clause 6.12 says "No agency with 2 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate.": We respectfully submit that this condition may lead to an unfair and unintended consequence whereby an agency which is performing successfully and receiving further work or extensions on account of its satisfactory performance may actually be penalised and prevented from participating in future tenders. Our organisation is presently associated with multiple waste management projects under KMDA. And previously we had successfully completed a legacy waste site under SUDA. However, the circumstances of these projects clearly demonstrate why the mere number of projects should not be treated as a ground for disqualification. a) In the Chandernagore dumping ground project, we have completed the original tender quantity successfully. Our performance and execution have been satisfactory, and due to the work performed by us, the Authority has further extended the scope by an additional quantity of approximately 25% as per the tender provisions. (Therefore, this project should not be viewed as an example of lack of capacity or inability to complete work. On the contrary, the extension itself reflects that the inability to complete work. On the contrary, the extension itself reflects	Bid conditions shall prevail

		that the agency has successfully executed the assigned work and has been entrusted with additional work). b) In Howrah Belgachia dumping ground Project the work order was received in December 2025. The progress of the work has been affected by certain departmental and disposal-related issues, which are beyond our control. The delay is therefore not attributable to any failure, negligence or lack of capacity on our part. Further, the project is still within its contractual execution period. (Accordingly, the fact that a project is progressing slowly due to departmental or disposal- related constraints should not automatically be treated as a negative factor against the contractor. It would be unfair if an agency is disqualified from future opportunities because of circumstances beyond its control while the project itself remains within the contractual execution period.)	
3	1. CIVELEMECH 2. Tansam Engineering & Construction Company 3. Eco Recyclate Management 4. LORD SHIVA ENTERPRISES 5. MONDAL CONSTRUCTION 6. PINAKI ENTERPRISE 7. POOJA CONSULATION CO. 8. Multiserve Solutions	c) The Bally dumping ground work order was received only towards the end of May 2026. This is a newly awarded project. (Merely because a work order has recently been issued, the project should not automatically be treated in the same manner as a long- running operational project for the purpose of restricting participation in all future tenders. An agency which has recently been awarded a project should not lose the opportunity to participate in every subsequent tender simply because the new project is technically categorised as "ongoing" from the date of award) In view of the above, we respectfully request that the restriction relating to agencies having two or more running/ongoing/incomplete/not- started legacy waste or fresh waste works in West Bengal be deleted OR CHANGE THE CLAUSE AS "No agency more than 4 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate" 2. Consider adopting the Least Cost Selection (LCS) methodology, whereby all technically eligible and responsive bidders are allowed to compete financially and the lowest eligible responsive bidder is considered for award as per the applicable tender procedure instead of CQCCBS evaluation methodology. 3. Mobilization Advance up to 10% of the tendered amount may be released without requirement of Bank Guarantee. The advance shall carry 10% simple interest and the principal amount together with interest shall be recovered proportionately from the Running Account Bills of the Agency. 4. We respectfully request the Authority to kindly delete the restriction of maximum 12 Lakh MT stipulated under Clause No. 51. Alternatively, the maximum permissible award quantity may kindly be restored/amended from 12 Lakh MT to 20 Lakh MT in a financial year, in line with	Bid conditions shall prevail

		the provisions adopted in the previously floated tenders.	
4	King Security Guards Services Pvt. Ltd.	1. Kindly amend the relevant clause to provide that: "Where the Lead Member of the JV independently meets 100% of the technical experience / credential criteria stipulated in Clause 6.2, the requirement of minimum 25% technical experience from the other Member shall stand waived / exempted. The JV partners shall continue to be jointly and severally liable for the contract." 2. Kindly extend the exemption from technical experience, average annual turnover and networth criteria (as presently available) to: "any start- up registered under DPIIT (Department for Promotion of Industry and Internal Trade) or any MSME registered under the MSME Act in the waste-management / solid- waste processing sector, irrespective of the state of registration, provided they are bidding as the non-lead member with an experienced Lead Member who independently meets 100% of the technical qualification criteria, and the partners remain jointly and severally liable."	1. Bid conditions shall prevail. 2. Any Micro, Small or Medium Enterprise (MSME) registered under the applicable MSME/Udyam Registration framework of the Government of India, having a valid MSME/Udyam Registration Certificate issued from any State/Union Territory of India, and engaged in the Waste Management / Solid Waste Management / Solid Waste Processing sector, shall be eligible to participate. Registration in the State of West Bengal shall not be mandatory for claiming eligibility under this provision.
5	3R Management Limited	1. Technical Experience criteria primarily require experience related to Bio-remediation/Bio-mining: We request the Authority to kindly allow experience in similar Municipal Solid Waste (MSW) processing projects involving fresh waste, on an equivalent capacity basis. The RFP itself recognizes fresh MSW processing/disposal experience as similar experience for eligibility; hence, such experience may also kindly be considered under the technical evaluation criteria. 2. The average annual turnover requirement is Rs.26.24 crore.: We request the Authority to kindly rationalize/reduce the average annual turnover requirement to a reasonable and proportionate percentage of the estimated project value, in line with the nature and scale of the project. This would facilitate wider participation by technically and financially capable MSMEs and specialized waste-management agencies, thereby promoting healthy competition and value-based procurement. 3. Net Worth requirement of Rs.26.24 Crore has been specified under the technical evaluation criteria: We	Clarification for S/N- 1, 2,3,4: Bid conditions shall prevail.

		request the Authority to kindly review the Net Worth requirement of Rs.26.24 Crore, as the specified Net Worth threshold appears to be aligned with the Average Annual Turnover requirement, resulting in substantially similar financial parameters for evaluation. We request that the Net Worth criteria may kindly be rationalized/revised to an appropriate and proportionate threshold, in order to encourage wider participation and healthy competition while ensuring adequate financial capability of the bidders. 4. In case, the applicant is a JV, the required credentials criteria are to be fulfilled jointly, provided minimum 60% of the criteria is fulfilled by the Lead Member and minimum 25% of the criteria is fulfilled by the other Member: We request the Authority to kindly consider allowing the required technical and financial eligibility criteria to be fulfilled by either the Lead Member or any other Member of the JV, individually, rather than mandating a minimum contribution of 60% by the Lead Member and 25% by the other Member. This would provide greater flexibility for qualified entities to participate through a JV and encourage wider competition while ensuring that the overall eligibility requirements of the RFP are duly met.	
5	3R Management Limited	5. Quantity Guarantee: The estimated quantity of legacy waste is approx. 4.77 lakh MT; however, no claim is permitted in case of shortfall: Considering the substantial mobilization, manpower, machinery and equipment investment required for the project, we request the Authority to kindly provide a minimum assured quantity and/or corresponding minimum payment commitment to mitigate the risk arising from any substantial shortfall in the estimated quantity. 6. Measurement & Payment: Payment is linked to actual output/processed quantity based on weighbridge/contour survey: We request the Authority to kindly clarify the single, definitive and mutually verifiable basis for measurement and payment, so as to avoid discrepancies between input waste quantity, processed/recovered fractions and contour survey measurements 7. Processing Capacity: The RFP requires a minimum capacity of 2,500 MT/day. Considering the total estimated quantity and site conditions: Considering the estimated quantity, site conditions and operational constraints, kindly clarify whether the stipulated 2,500 MT/day capacity is required to be maintained continuously throughout the contract period. We further request that reasonable consideration may be given to seasonal and monsoon-related operational interruptions 8. 50% Additional Quantity: The RFP permits enhancement of quantity by up to 50% at the quoted rate: We request that, in case of such additional quantity, proportionate additional time and corresponding adjustment in mobilization and operational costs may kindly be provided, considering the	Clarification for S/N- 5,6,7,8: Bid conditions shall prevail.

		additional deployment of machinery, manpower and resources required.	
5	3R Management Limited	9. Security Deposit: EMD is converted into Security Deposit and an additional 8% is deducted from each running bill. Considering the significant working-capital requirement: We request the Authority to kindly reduce the overall security deduction or permit an equivalent Bank Guarantee in lieu of such deductions, to facilitate efficient cash-flow management. 10. Disposal Responsibility: Since disposal/utilization certificates are required for recovered fractions: Kindly clarify whether the Authority/ULBs will facilitate or identify approved disposal/reuse destinations for inert and other non-saleable fractions, particularly in circumstances where suitable authorized facilities are not readily available. 11. Site & Encumbrances: The Data Sheet states that the Authority will provide an encroachment-free dump site: Kindly confirm that the project sites shall be handed over fully encumbrance-free, accessible and suitable for installation and operation of the required machinery prior to commencement of the contractual timeline. Any delay in site handover/access may kindly be treated as a corresponding extension of time.	Clarification for S/N- 9,10,11: Bid conditions shall prevail.
5	3R Management Limited	12. Daily Fresh Waste: Kindly confirm that any fresh waste deposited within the operational area during execution, contrary to the designated arrangement, shall be the responsibility of the concerned ULB and shall not adversely affect the Agency's completion timeline, processing capacity or performance obligations. 13. Penalties and cumulative damages may extend up to 10% of the Contract Price: We request the Authority to kindly provide a clear, objective and measurable penalty matrix, with appropriate exclusions for delays attributable to the Authority/ULB, delayed site handover, monsoon, force majeure, statutory approvals, obstruction and other circumstances beyond the Agency's reasonable control. 14. Bio-mining operations are subject to weather and site conditions, particularly during the monsoon period.: Considering the nature of bio-mining operations and weather dependency, we request the Authority to kindly provide for proportionate extension of time without imposition of penalty for periods during which processing/disposal activities are materially affected by heavy rainfall, flooding, waterlogging or other adverse weather conditions. 15. Various statutory permissions / approvals may be required for execution of the project: Kindly clarify the specific statutory permissions, approvals and consents to be obtained by the Authority/ULB and those to be obtained by the Agency, so that responsibilities, dependencies and timelines are clearly defined prior to commencement of the work.	Clarification for S/N- 12,13,14,15: Bid conditions shall prevail.

6	QUESTQUEEN PROPERTIES LLP	Requested Amendment: Allow participating firms/JV partners to submit valid DPIIT Startup Recognition Certificates or West Bengal MSME Registration Certificates issued on or before the Bid Due Date (21.09.2026), rather than restricting the cut-off strictly to the tender publishing date (28.08.2026).	MSME / Start-up Certificate issued on or before the last date of submission of bids shall be accepted.
7	NACOF	Tender clause 6.12 states “No agency with 2 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate.” Kindly delete the condition so that we can participate in the tender.	Bid conditions shall prevail
8	Earthera Agro Green Private Limited	1. Request for relaxation of the threshold. Clause 6.12 presently provides: “No agency with 2 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate.” We respectfully request that the clause be amended to read: “No agency with 3 or more running/ongoing/incomplete/not started legacy waste/fresh waste works in the state of West Bengal is eligible to participate.” The proposed amendment preserves the intent of the clause while widening the pool of technically capable and financially sound bidders, thereby improving competition and price outcomes for SUDA. 2. Request for exemption for DPIIT-recognised startups participating in a Joint Venture. We further request that clause 6.12 be made inapplicable to startups recognised by DPIIT, Government of India, under the “Green Technology” industry and the “Waste Management” sector, and only where such a startup participates as part of a Joint Venture. In a Joint Venture the capacity and existing commitments of the lead partner already safeguard SUDA’s interest, and the exemption would align this tender with the Government of India’s policy of relaxing eligibility conditions for startups in public procurement.	Clarification for S/N- 1,2: Bid conditions shall prevail.

After threadbare discussion, the Committee recommended the above-mentioned responses for uploading in the portal.

- The Committee perused that as per approval of UD & MA Department, e-RfP for selection of bidder for preparation of DPR for the Used Water Management Project, under Swachh Bharat Mission-Urban 2.0 for 56 ULBs in the State of West Bengal floated by SUDA in 4 Packages. Package-1 comprising of 14 ULBs - Alipurduar, Falakata, Kalimpong, Maynaguri, Mal, Dinhata, Haldibari, Cooch Bihar, Mathabhanga, Mekliganj, Tufanganj, Dhupguri, Mirik and Kurseong; Package-2 comprising of 14 ULBs -Islampur , Dalkhola, Kaliaganj, Buniadpur, Gangarampur, Kandi, Domkal, Beldanga, Bolpur, Dubrajpur, Nalhati , Rampurhat , Sainthia and Suri; Package-3 comprising of 14 ULBs -Taherpur , Haringhata, Cooper's Camp , Birnagar, Taki , New Barrackpore , Gobardanga , Baduria, Jaynagar Mazilpur , Baruipur, Memari , Guskara, Tarakeswar and Arambag; and Package-4 comprising of 14

ULBs - Raghunathpur, Jhalda, Tamralipta, Panskura , Egra , Contai , Ramjibanpur ,Khirpai , Kharar, Ghatal , Chandrakona , Jhargram , Sonamukhi and Bishnupur.

During Technical Evaluation after opening of the Technical Bids, the Committee noted that in all the four packages, more than 3 bidders participated, and the observation of the Committee and recommendations are placed at table below:

Packag e No.	No. of Bidders Participate d	Name of Bidders	Observation	Recommendation
01	7	Choice Consultancy Services Pvt Ltd	1. Submitted the credential issued by NABCONS/ WAPCOS 2. Specialization requested in RfP for Process Design Expert is mismatching. 3. Technical qualification requested in RfP for Electro Mechanical Specialist is mismatching.	1. Not to accept the credential issued by NABCONS/ WAPCOS. For 2 & 3 points, no shortfall documents will be requested.
		Fortress Infracon Ltd	1. 3CB & 3CD format not submitted 2. Age proof required for Electro Mechanical Specialist, Economists and Procurement Specialist 3. Technical qualification requested in RfP for Process Design Expert is mismatching. 4. Shortage in experience in case of Civil Estimation Specialist.	1. As shortfall document may be requested to submit 3CB & 3CD format 2. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card etc. For 3 & 4 points, no shortfall documents will be requested.
		HRP INFRA PRIVATE LIMITED	1. 3CB & 3CD format not submitted 2. Mentioned in the CV that Hydraulic Design Engineer is Team Leader. 3. Educational details wrongly entered in CV of Procurement Specialist.	1. As shortfall document may be requested to submit 3CB & 3CD format 2. As shortfall document may be requested to submit the corrected CV against Hydraulic Design Engineer not mentioning Team Leader. 3. As shortfall document may be requested to submit the corrected CV against Procurement Specialist.

Package No.	No. of Bidders Participated	Name of Bidders	Observation	Recommendation
		MARS PLANNING & ENGINEERING SERVICES PVT LTD	1. 3CB format not submitted 2. Year of Passing not mentioned in the CV in case of Process Design Expert. 3. In case of Finance Expert, experience is not matching. 4. In case of Civil Estimation Specialist, year of passing is 2015 and work started on October, 2017. 5. Age proof required for Economist.	1. As shortfall document may be requested to submit 3CB format. 2. As shortfall document may be requested to submit the corrected CV along with educational certificate against Process Design Expert. 3. No shortfall document will be requested against Finance Expert. 4. Against Civil Estimation Specialist, as shortfall document may be requested to submit the proof whether any work done between 2015 to October, 2017. 5. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card etc. Against Economist.
		NCPE Infrastructure India Private Limited	1. 3CB & 3CD format not submitted 2. Form of Affidavit duly affirmed before the 1st class Judicial Magistrate/ Notarised that the prospective Bidders should not have been Black Listed and any conflict of interest not submitted. 3. In case of Electro Mechanical Specialist, educational qualification is mismatching.	1. As shortfall document may be requested to submit 3CB & 3CD format 2. As shortfall document may be requested to submit the Form of Affidavit duly affirmed before the 1st class Judicial Magistrate/ Notarised that the prospective Bidders should not have been Black Listed and any conflict of interest. 3. No shortfall documents will be

Package No.	No. of Bidders Participated	Name of Bidders	Observation	Recommendation
				requested against Electro Mechanical Specialist.
		Radiant	1. 3CB, 3CD, Balance Sheet and Profit & Loss statement submitted for 22-23, 23-24 & 24-25 but not readable. 2. Civil Estimation Specialist passed from JRN University of Rajasthan but not mentioning through distance or regular course.	1. As shortfall document may be requested to submit 3CB, 3CD, Balance Sheet and Profit & Loss statement submitted for 22-23, 23-24 & 24-25. 2. As shortfall document may be requested to submit the required documents against distance or regular course.
		Samarth Infra Tech Services Pvt. Ltd	1. 3CB & 3CD format not submitted 2. Age proof required for Team Leader 3. Year of Experience of Finance Expert is shorter than required year of experience	1. As shortfall document may be requested to submit 3CB & 3CD format. 2. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card etc. 3. No shortfall document will be requested against Finance Expert.
02	6	Choice Consultancy Services Pvt Ltd	1. Submitted the credential issued by NABCONS/ WAPCOS.	1. Not to accept the credential issued by NABCONS/ WAPCOS.
		Ecometrix Consultants Pvt Ltd	1. 3CB & 3CD format not submitted. 2. Age proof required for Economist.	1. As shortfall document may be requested to submit 3CB & 3CD format. 2. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card

Packag e No.	No. of Bidders Participate d	Name of Bidders	Observation	Recommendation
				etc.
		The Nisarga Consultancy	1. 3CB & 3CD format not submitted. 2. Form of Affidavit duly affirmed before the 1st class Judicial Magistrate/ Notarised that the prospective Bidders should not have been Black Listed and any conflict of interest not submitted. 3. Age proof required for Team Leader 4. Educational Qualification mismatch for Hydraulic Design Engineer, GIS Expert and Economist. 5. Year of Experience mismatched for Structural Design Engineer. 6. Experience mentioned in the RfP mismatch for Process Design Expert, Civil Estimation Specialist, Electro Mechanical Specialist, Surveyor, Finance Expert and Procurement Specialist.	1. As shortfall document may be requested to submit 3CB & 3CD format. 2. As shortfall document may be requested to submit the Form of Affidavit duly affirmed before the 1st class Judicial Magistrate/ Notarised that the prospective Bidders should not have been Black Listed and any conflict of interest. 3. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card etc. For 4, 5 and 6 points no shortfall documents may be requested.

			of experience	2. As shortfall document may be requested to submit any age proof documents like Aadhar / PAN card etc. 3. No shortfall document will be requested against Finance Expert.

Considering above, the Committee further recommended that after receiving the shortfall documents through e-Tender Portal, the Committee will finalize the Technical Evaluation in the next meeting.

4. The Committee noted that approval has been received from UD&MA Department to install Compressed Bio Gas (CBG) plants at multiple locations of West Bengal i.e. Kolkata MC, Asansol MC, Howrah MC, Durgapur MC, Jalpaiguri Municipality & Siliguri MC (Cluster) and Midnapore & Kharagpur (Cluster) from municipal solid waste and for that the lands have already been identified. It was further decided that Bharat Petroleum Corporation Ltd. (BPCL) will be provided those lands where they will installed the CBG plant at their own cost. BPCL has inspected those lands for feasibility of plant installation and given the green signal.
5. The Committee noted that a cluster project for establishment of Integrated Solid Waste Processing Plant at Pathuriaghata, Action Area III, New Town Kolkata has been designed under CITIIS 2.0 for processing of waste of NKDA (196 TPD), NDITA (64 TPD), Newtown Planning area part (72 TPD) and Bidhannagar MC area (507 TPD). It was decided that under CITIIS 2.0, Rs.124.97 crore (Rs. 100 crore from CITIIS 2.0 and remaining Rs.24.97 crore from matching State Share) will be provided for establishment of 300 TPD Compost Plant and 300 TPD MRF alongwith other activities like IEC, BCC, Visible Cleanliness, modification of existing secondary points, digital monitoring & MIS etc. Further 200 TPD Bio-CBG Plant and 83 TPD Sanitary Landfill to be developed through convergence with other schemes. Component wise detailed breakup of cost is placed at **Annexure-I**.

After threadbare discussion, the Committee recommended to place it before the State Level Technical Committee under SBM(U) for approval and recommendation to submit to Government of India.

6. The Committee perused that M/s. Greentech Environ Management Pvt. Ltd. was awarded the contract (LOI cum work order no. 171/SE(NC)/SD& SWM / W-103 dated 17.02.2021 and tender no. 42/SE(NC)/ SD& SWM / KMDA of 2020-21 dated 17.02.2021) by KMDA for the bio-mining and land reclamation of legacy waste at Panihati, Khardah, Titagarh and Barrackpore municipalities. The contract value was Rs.18,92,62,029.00.

Getting written communications from the agency on completion of the processing of the tendered quantity of legacy waste at all the dumpsites, apart from the dumpsites of Panihati and Khardah, site inspection was carried out at the dumpsites of Barrackpore and Titagarh Municipalities on 03.02.2024 and 03.07.2024 respectively, where it was discovered that the fraction, mainly RDF was not disposed of from both the sites in full, as per calculation 643.228 MT RDF was undisposed at Barrackpore dumpsite and 16 MT at Titagarh dumpsite.

Further during verification of RDF end user certificates submitted by the agency received from the issuing authorities, the Birla Corporation Ltd. (BCL) informed that they had not issued the end user certificate for 819.31 MT and also informed that the agency indulged in a fraudulent activity in submitting forged documents, whereas the Dalmia Cement Bharat Ltd. informed that they have checked their records and not found any certificate details on safe disposal of 4010.135 MT of RDF in their record and not confirmed the authenticity of it.

In this regard, WBPCB was requested by KMDA to calculate environmental compensation per MT for violation of RDF disposal guidelines and legacy waste processing & disposal guidelines, but WBPCB informed that Competent Authorities, SUDA, KMDA & UDMA may take appropriate action in this matter.

The Matter was discussed in this meeting where the representative of WBPCB informed that Central Pollution Control Board will issue a guideline on Environmental Compensation very soon.

Hence the Committee recommended to wait till issuance of the guideline.

7. The Committee perused that KMDA has engaged the concessionaire, M/S Rohini Fire Safety Pvt. Ltd. for construction of Fresh Waste Treatment Plant in Sarengabad dumpsite under Maheshtala Municipality including 15 years O&M. The concessionaire has delivered a presentation on Process design for construction Fresh Waste Treatment Plant in meeting.

The Key points of the design are -

- Present incoming fresh waste – 180 TPD
- Incoming fresh waste after 15 years – 225 TPD
- The process design has been made based on 225 TPD.
- Wet waste is assumed 60% of total incoming waste
- Dry waste is assumed 40% of total incoming waste
- Capacity of SLF is assumed 10% of total incoming waste
- The process designed has been made in accordance of guideline of SUDA approved in 1st meeting of SLTF on 20th February, 2023.
- Area of 2 nos. windrow composting shed is 5200 sqm.
- Area of 1 no. shed for maturation is 1950 sqm.
- Area for unloading platform is 1313 sqm
- Total area of Windrow compost plant including road, drain etc. 9893 sqm
- Area for MRF / Dry waste facility is 1890 sqm

- Total land required for SLF approx. 10855.90 sqm. Against this requirement an area 6215 sqm is currently being provided in the initial site layout.

After threadbare discussion, the Committee has accepted and recommended the process design for further action.

With no other issue for discussion the meeting ended with vote of thanks to and from the chair.

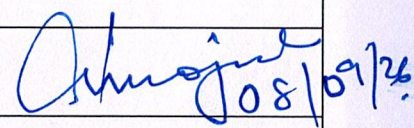

Director, SUDA

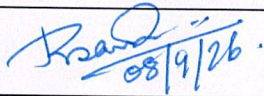

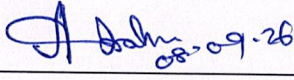

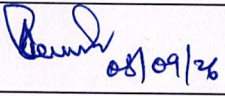

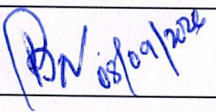

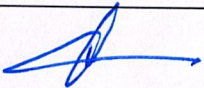

Annexure-I

Sl. No.	Suggestive Components under CITHS 2.0	Tentative Budget (Rs Cr.)	Reference
A	Infrastructure		
A1	Compost Plant (300 TPD)	44.50	CPHEEO Advisory
A2	MRF (300 TPD)	51.00	CPHEEO Advisory
A3	Modification of Existing 15 Secondary Collection Center (including floor correction, roof repairing, transport to MRF & inert; and augmentation of ramps, etc.)	2.38	PWD Building Schedule of Rates, GoWB
