Sir,

I am directed to inform you that in terms of this Department's letter No.797/MA/C-10/3S-55/2010 dated 07.12.2011, Deptt. of Health & Family Welfare was requested to consider the issue of contribution of at least 50% of the capital cost for renovation of B.C. Roy Hospital & Maternity Home running under New Barrackpore Municipality, in similar line to the mechanism adopted by your Department in providing 50% of capital expenditure for setting up of neo-natal unit under Kharagpur Municipality. (The copy of the relevant approval of Deptt. of Health & Family Welfare dated 21.10.2009 is enclosed for ready reference). The concerned New Barrackpore Municipality has also approached Deptt. of Health & Family Welfare for consideration of release of fund in this regard.

As no reply has been obtained from your end, I am further directed to request you to consider the matter of cost sharing and to provide necessary fund for execution of the project.

Sub: Proposal on deployment of Doctors at Sub centre based Health Programme on remuneration basic under CUDP III & IPPVII (Health Programme).

Sir,

As you know that our Part Time Medical Officers attached to our different Health Projects are now rendering their utmost services to the poor municipal population and for this, getting a remuneration of Rs 2800/- per month.

Now it is understood that to get better sub - centre based programmes need to be increased.

For these programmes, Part Time Medical Officers need to be paid for each programme Rs. 400/- for 4-6 hours. It is to be noted, each sub centre at least needs four (4) Health Programmes to be held.

If my Proposals are approved from your end a group of local Doctors are easily available for our sub - centre based programmes and it would be a big achievement towards our better Municipal public Health activities.

Thanking you.

Sincerely yours

*2744*

Hon`ble Sir,

I beg to bring to your kind notice that I joined as Assistant Health Officer at New Barrackpore Municipality on 13-10-2003 on contractual basis and that my present remuneration is only Rs, 5,750/- which is much below the salary of a Group D employee of any U.L.B. Meanwhile with the introduction of new Pay Commission, all the State Govt. employees have got a considerable lift in their respective pay scales. We the Assistant Health Officers, who are engaged in an important profession in the field of Health and are rendering services with the sweat of our brow, are still getting very meagre remuneration. It seems to us to be an injustice in such hard days of soaring prices.

I, therefore, pray to your goodself to consider our case sympathetically and initiate necessary step for enhancement of our remuneration keeping in view the present market price and enhancement of salary of various Govt. employees following the introduction of new pay commission.

Thanking you,

Yours faithfully,

# **HEALTH IN PROGRESS**

## **- New Barrackpore Municipality**

### **BACK-DROP**

New Barrackpore, one of the few small ULBs with an area of 6.89 Sq. km and a Population of 83,183 (Census 2001) is at a distance of 17 km from the city of Kolkata. It is dominated mostly by the people migrated from East Pakistan (Now Bangladesh). Though very small in size it has now become a model amongst the ULBs of Bengal for its outstanding multifarious developments since 1965. Health Sector is one of them. It is for its astounding success in this sector, that it has received inspiring appreciation of various visiting teams from and outside the State. Even the visiting teams of WHO spoke highly of the Health services rendered by this ULB through its Hospital **Dr. B.C. Roy General Hospital & Maternity Home** and associated Health Organs Spreading ward wise in a systematic manner.

### **HIGHLIGHTS ON THE HEALTH SECTOR**

#### **DR. B.C. ROY GENERAL HOSPITAL & MATERNITY HOME**

##### **run by this ULB:**

3.1 It started its run in 1962, with a Maternity Home for normal delivery and a small general outdoor under the management of the then Cooperative Society in power. Then in 1990, this Municipality took over it when it was gasping for life and exerted all efforts to turn it into an ideal Hospital

for extending all sorts health services to the citizens. Financial assistance from State Govt. and the benevolent citizens of the locality helped immensely for successful functioning of this hospital. Expansion programme was taken up and Extended Specialised Out Patients Department (ESOPD), Regional Diagnostic Centre (RDC) & Extended Maternity Ward were introduced in this Hospital with Financial assistance of World Bank in 1998. It now provides almost all types of investigational facilities. Treatment facilities have also been arranged both for indoor and outdoors patients with special attention on maternity cases. Eight Specialty Sections have been arranged in the ESOPD Section.

## **PRESENT STATUS:**

➤ **The hospital has now well equipped sections of:**

- ✓ OPD
- ✓ Medicine
- ✓ Surgery
- ✓ Gynaecology & Obstetric
- ✓ Eye
- ✓ Skin
- ✓ Dental
- ✓ ENT
- ✓ Pediatrics
- ✓ Orthopedics
- ✓ Chest
- ✓ Urology
- ✓ Radiology
- ✓ Pathology

➤ **It also has-**

- (i) 50 bedded indoor facility
- (ii) Ideal laboratory with modern apparatus
- (iii) Facilities of ENDOSCOPY, LAPAROSCOPIC SURGERY, USG, RADIOLOGICAL EXAMS, ECG, MODERN MICROPHAGE SURGERY etc.

## **COMMUNITY ORIENTED NETWORK:**

### **A. CUDP – III:**

This health programme became operative from 1988, with a population of 20,000. It has one HAU (Health Administrative Unit) and 4 Sub-centres each covering a beneficiary population of 5000. Each, sub-centre has 5 HHW's each covering 1000 beneficiaries.

### **B. IPP – VIII:**

The World Bank assisted IPP – VIII Project has been in operation in this Municipality in collaboration with and under the guidance of the KMDA since 1994. Left out population – approximately about 55000 (not covered by other projects like CUDP – III) are the target groups of urban poor population. It has been designed to provide essential health-care services for the urban population (economically depressed group) in the identified blocks spread over 19 Wards of the Municipality.

### **❖ Specific Objective of CUDP – III & IPP – VIII:**

*The two specific objectives of the IPP – VIII are:*

- i) Improvement in maternal and child health.
- ii) To reduce fertility amongst the target population.

The backgrounds for spelling out these objectives are:

- i) Maternal and Child mortality rates in this Country are relatively high;
- ii) Higher prevalence rates of various diseases amongst pregnant and lactating mothers, infants and children;
- iii) Wide spread malnutrition among the Urban poor;
- iv) Need for controlling the growth of population by reducing the fertility among the target population.

❖ **Strategies:**

*To achieve the above objectives strategies pursued are :*

- a) To cover the target population mainly with provision of preventive health programme and family welfare service in a manner that these become easily accessible to them;
- b) The focus has been on preventive health care and also on non-formal women education and entrepreneurship development programme for the women;
- c) Approach to delivering the services is through involvement of the local community. The Local Bodies i.e. the Municipalities are responsible to develop the programme, implement, monitor and evaluate it.

**C. UHIP:**

CUDP-III and IPP-VIII health programme that are still in operation were launched respectively in the year 1988 and 1994 with the financial assistance of the World Bank, the assistance being admissible for a stipulated period. That period being over both the health

projects are now implemented by the municipality with the financial assistance from the state govt. Another health programme by the name Urban Health Improvement Programme has been launched after having a "MOU" signed by the municipality with the European Commission in the year 2002. The financial assistance came from the E.C., technical guidance and other cooperation being available from KMDA. This programme envisaged expansion of the existing CUDP-III and IPP-VIII health programme, Expansion of additional areas being care for the adolescent girls & boys, priority on RTI of the females care of the sexually transmitted diseases of males & female, detection of health condition like cancer & laying emphasis on School Health Programme surveillance and treatment of communicable diseases like Malaria, Leprosy, T.B. etc.

## **HOSPITAL WASTE MANAGEMENT:**

So long the system adopted for dumping the Hospital Waste was not modern or scientific, though; we have adopted some of the recommendations of IPP-III. Recently we have adopted the Hospital Waste management system as recommended by West Bengal Pollution Control Board (WBPCB).

## **SUSTENANCE OF THE HEALTH PROJECT:**

Programme Beneficiaries of **IPP-VIII** Projects are to pay a nominal cost for receiving service from the **E.S.O.P.D. & the Hospital**. Besides, they are subscribing a meagre amount of **Rs. 2/-** per month per family. The funds so derived are being developed as "**Health Development Fund**" with the object of not only to raise fund for sustenance of the Project but also to ensure peoples' participation and their involvement in these Projects. Peoples' involvement also comes to us in the shape of donations which we raise through Coupons from time to time. In addition to that many people have already donated and are willing to donate a lump sum of money for providing 'free - beds' and other amenities in memory of their departed near and dear ones. Constant propaganda for donations is made by the Municipality for further development of the Hospital.
