Subrata Gupta
Principal Secretary
Department of Urban
Development & Municipal Affairs
Government of West Bengal
“Nagarayan”, DF-8,
Sector – I, Bidhannagar,
Kolkata- 700064

No. SUDA/HEALTH/353/18/ 423 (100)

Dated 5th June 2018

To
The Chairperson
..... Municipality

Dear Sir/Madam,

I refer to the discussions held during the conference with selected municipalities/corporations relating to prevention and control of vector borne diseases on 2nd June, 2018. Several issues were raised by the Commissioners/Chairpersons and health officials of different ULBs for making our efforts on vector control more effective. Apart from all the instructions issued from time to time and the guidelines already circulated the following steps are reiterated:

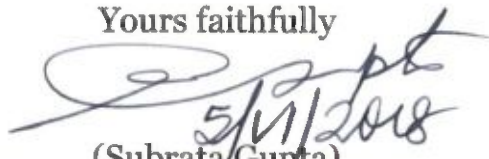

1. Wherever all the House to House (H-to-H) teams and Vector Control teams are yet to be formed, these may be formed forthwith.
2. The teams need to be adequately trained. If training of master trainers is required, you may contact CPHO, SUDA (e-mail: cphosuda@gmail.com) within 11th June 2018.
3. There are gaps reported in conservancy. If needed, efforts should be redoubled to ensure that the breeding sites are cleaned on a regular basis. In case the owner of the property, whether private or Government is not keeping the premises clean, action should be initiated under relevant sections of West Bengal Municipal Act. The extract of the provisions of the Sec.333, West Bengal Municipal Act.1993 provide for

issuing notice upon the owner/occupier to clean or maintain such premises to prevent mosquito breeding. If the person fails to comply with the direction, there is a provision for imposition of penalty and also recovery of the cost of cleaning the premises by the municipal body. A copy of the relevant section is enclosed.

4. You are requested to pay closer attention to the micro plan and the State Vector Borne Diseases Control and Seasonal Influenza Plan 2018 available at www.wbhealth.gov.in and the relevant District Vector Borne Diseases Control Seasonal Influenza Plan 2018. Issues relevant to different government departments including Central government departments may be brought to the notice of the relevant officers whose particulars have been provided in the said district plan.
5. In view of discrepancy of data, it is requested that adequate attention be paid to the integrity and quality of the data relating to House to House survey and related vector borne diseases control activities.

Encl. As stated

Yours faithfully

5/11/2018
(Subrata Gupta)

Principal Secretary

No. SUDA/HEALTH/353/18/423/1(2)

Dated 5th June 2018

Copy forwarded to:-

- 1) PS to MIC, UD & MA - with a request to bring it to the notice of Hon'ble Minister.
- 2) Principal Secretary, Health & Family Welfare Department - for information and record.

5/11/2018
(Subrata Gupta)
Principal Secretary

West Bengal Municipal Act, 1993

Sec.333. Prevention of mosquito-breeding.—(1) If, in the opinion of the Chairman-in-Council, any pool, ditch, tank, well, pond, swamp, quarry, hole, drain, cesspool, watercourse, pit, cistern, desert or air-cooler, ground, underground, or overhead tank or any collection of water, or any land on which water may, at any time, accumulate, is or likely to become a breeding place of mosquitoes or, in any other respect, becomes a nuisance, the Chairman-in-Council may by notice require the owner or the person having control thereof to take all or any of the following actions :—

- (a) to clean, or drain off or remove water therefrom, or to provide cover thereto, or
- (b) **to treat the same in such physical, chemical or biological method as may consider suitable in the circumstances, or**
- (c) to fill up unwholesome waterbody :

Provided that any unwholesome waterbody may be filled up only after compliance with the provisions of section 4C of the West Bengal Land Reforms Act, 1955, (West Ben. Act X of 1956), by the owner or the person having control thereof.

- (2) No person shall keep, or permitted to be kept or maintained, within any premises or land any collection of stagnant or flowing water which, in the opinion of the Chairman-in-Council, is, or is likely to be, a breeding place for mosquitoes, unless such collection of water is treated in such manner as may effectively prevent the breeding of mosquitoes.
- (3) All borrow pits dug in the course of construction and repairs of buildings, roads, or embankments shall be deep and connected with each other in the formation of a drain directed towards the lowest level and properly sloped for discharge into a river, stream, channel, or drain, and no person shall create any isolated borrow pit which, is likely to cause accumulation of water which again, in turn, may breed mosquito.
- (4) The owner or occupier of any premises shall not keep therein any bottle, tyre (old or new), vessel, can, container or receptacle in such manner as may allow it to collect, or to retain, water which may breed mosquito, and shall clean and dry such bottle, tyre (old or new), vessel, can, container or receptacle at the interval of seven days.
- (5) The owner or occupier of any premises shall wrap the openings of the vent-pipes and the outlets of septic tanks with proper mosquito-proof nets and shall maintain covering slabs of septic tanks to prevent entry and exit of mosquitoes.
- (6) The owner or occupier of any premises shall seal the overhead tanks, cisterns or water receptacles to prevent mosquito breeding, and shall provide safe ladder for making the overhead tanks or cisterns or water receptacles approachable in order to facilitate inspection of the water in the container by the municipal authorities.
- (7) For construction of permanent water collections such as swimming pools, artificial fountains, or water reservoirs, constructed for the purpose of beautification,—
 - (a) an application shall be submitted to the Municipality, stating therein the anti-larval measures, which shall be taken by the applicant to keep the water free of mosquito larvae;
 - (b) the Board of Councillors, after considering the application, shall issue a license to the applicant;
 - (c) the applicant shall receive the said license on payment of such fee as may be determined by the Board of Councillors, and the license shall be renewed annually.
- (8) The owner or the occupier of any private pond or water reservoir shall keep such pond or water reservoir free from water hyacinth or allied weeds to prevent mosquito breeding.

(9) If any person contravenes any provision of this section or fails to comply with any requirement under this section, he shall be punished with fine which may extend to one thousand rupees, and a daily fine of fifty rupees in the case of continuance of such contravention commences from the day on which such contravention is brought to the notice of such person by the municipal authority.

(10) If any person on whom the notice under sub-section (1) is served on fails or refuses to take the measures, or adopt the method of treatment, specified in such notice within the time specified therein, the Chairman himself or any officer duly authorized by him may take such measures or adopt such treatment, specified in such notice within the time specified therein, and recover the cost of doing so from the owner or the occupier of the premises, as the case may be, by way of levying charges under section 95 or special conservancy charges under section 95B in the manner specified therein.

I refer to the discussions held during the conference with selected municipalities/corporations relating to prevention and control of vector borne diseases on 2nd June, 2018. Several issues were raised by the Commissioners/Chairpersons and health officials of different ULBs for making our efforts on vector control more effective. Apart from all the instructions issued from time to time and the guidelines already circulated the following steps are reiterated:

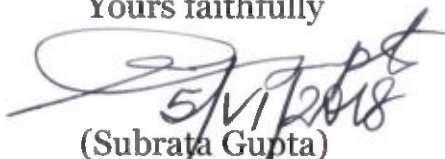

1. Wherever all the House to House (H-to-H) teams and Vector Control teams are yet to be formed, these may be formed forthwith.
2. The teams need to be adequately trained. If training of master trainers is required, you may contact CPHO, SUDA (e-mail: cphosuda@gmail.com) within 11th June 2018.
3. There are gaps reported in conservancy. If needed, efforts should be redoubled to ensure that the breeding sites are cleaned on a regular basis. In case the owner of the property, whether private or Government is not keeping the premises clean, action should be initiated under relevant sections of HMC Act. The extract of the provisions of the Sec.159A, HMC Act. 1980 provide for issuing notice upon the

owner/occupier to clean or maintain such premises to prevent mosquito breeding. If the person fails to comply with the direction, there is a provision for imposition of penalty and also recovery of the cost of cleaning the premises by the municipal body. A copy of the relevant section is enclosed.

4. You are requested to pay closer attention to the micro plan and the State Vector Borne Diseases Control and Seasonal Influenza Plan 2018 available at www.wbhealth.gov.in and the relevant District Vector Borne Diseases Control Seasonal Influenza Plan 2018. Issues relevant to different government departments including Central government departments may be brought to the notice of the relevant officers whose particulars have been provided in the said district plan.
5. In view of discrepancy of data, it is requested that adequate attention be paid to the integrity and quality of the data relating to House to House survey and related vector borne diseases control activities.

Encl. As stated

Yours faithfully

(Subrata Gupta)
Principal Secretary

HMC Act, 1980

Sec. 159A. Prevention of mosquito-breeding.—(1) If, in the opinion of the Mayor-in-Council, any pool, ditch, tank, well, pond, swamp, quarry, hole, drain, cesspool, watercourse, pit, cistern, desert or air-cooler, ground, underground, or overhead tank or any collection of water, or any land on which water may, at any time, accumulate, is or likely to become a breeding place of mosquitoes or, in any other respect, becomes a nuisance, the Mayor-in-Council may by notice require the owner or the person having control thereof to take all or any of the following actions :—

- (a) to clean, or drain off or remove water therefrom, or to provide cover thereto, or
- (b) **to treat the same in such physical, chemical or biological method as may consider suitable in the circumstances, or**
- (c) to fill up unwholesome waterbody :

Provided that any unwholesome waterbody may be filled up only after compliance with the provisions of section 4C of the West Bengal Land Reforms Act, 1955, (West Ben. Act X of 1956), by the owner or the person having control thereof.

- (2) No person shall keep, or permitted to be kept or maintained, within any premises or land any collection of stagnant or flowing water which, in the opinion of the Mayor-in-Council, is, or is likely to be, a breeding place for mosquitoes, unless such collection of water is treated in such manner as may effectively prevent the breeding of mosquitoes.
- (3) All borrow pits dug in the course of construction and repairs of buildings, roads, or embankments shall be deep and connected with each other in the formation of a drain directed towards the lowest level and properly sloped for discharge into a river, stream, channel, or drain, and no person shall create any isolated borrow pit which, is likely to cause accumulation of water which again, in turn, may breed mosquito.
- (4) The owner or occupier of any premises shall not keep therein any bottle, tyre (old or new), vessel, can, container or receptacle in such manner as may allow it to collect, or to retain, water which may breed mosquito, and shall clean and dry such bottle, tyre (old or new), vessel, can, container or receptacle at the interval of seven days.
- (5) The owner or occupier of any premises shall wrap the openings of the vent-pipes and the outlets of septic tanks with proper mosquito-proof nets and shall maintain covering slabs of septic tanks to prevent entry and exit of mosquitoes.
- (6) The owner or occupier of any premises shall seal the overhead tanks, cisterns or water receptacles to prevent mosquito breeding, and shall provide safe ladder for making the overhead tanks or cisterns or water receptacles approachable in order to facilitate inspection of the water in the container by the municipal authorities.
- (7) For construction of permanent water collections such as swimming pools, artificial fountains, or water reservoirs, constructed for the purpose of beautification,—
 - (a) an application shall be submitted to the Corporation, stating therein the anti-larval measures, which shall be taken by the applicant to keep the water free of mosquito larvae;
 - (b) the Corporation, after considering the application, shall issue a license to the applicant;
 - (c) the applicant shall receive the said license on payment of such fee as may be determined by the Corporation, and the license shall be renewed annually.
- (8) The owner or the occupier of any private pond or water reservoir shall keep such pond or water reservoir free from water hyacinth or allied weeds to prevent mosquito breeding.

(9) If any person on whom the notice under sub section (1) is served on fails or refuses to take the measures, or adopt the method of treatment, specified in such notice within the time specified therein or contravenes the forgoing provisions under this section, the Municipal Commissioner himself or any officer duly authorized by him may take such measures or adopt such treatment, specified in such notice within the time specified therein, and recover the cost of doing so on the owner or the occupier of the premises, as the case may be, by way of levying special conservancy charges, at such rate as may be determined by the Mayor-in-Council, and shall also be liable to a penalty which shall not be less than rupees one thousand but may extend to rupees one lakh only.

West Bengal Municipal Corporation Act, 2006

Section 243. Prevention of mosquito-breeding.—(1) If, in the opinion of the Corporation, any pool, ditch, tank, well, pond, swamp, quarry, hole, drain, cesspool, watercourse, pit, cistern, desert or air-cooler, or ground, underground or overhead tank, or any collection of water, or any land on which water may, at any time, accumulate, is, or is likely to become, a breeding place of mosquitoes or, in any other respect, becomes a nuisance, the Corporation may, by notice, require the owner or the person having control thereof to take all or any of the following actions:—

(a) to clean, or drain off, or remove water therefrom, or to provide cover thereto; or

(b) **to treat the same in such physical, chemical or biological method as may consider suitable in the circumstances, or**

(c) to fill up any unwholesome waterbody:

Provided that any unwholesome waterbody can be filled up only after compliance with the provisions of section 4C of the West Bengal Land Reforms Act, 1955 (West Ben. Act X of 1956.), by the owner or the person having control thereof.

(2) No person shall keep, or permit to be kept or maintained, within any premises or land, any collection of stagnant or flowing water which, in the opinion of the Corporation, is, or is likely to be, a breeding place for mosquitoes, unless such collection of water is treated in such manner as may effectively prevent the breeding of mosquito.

(3) All borrow pits dug in the course of construction and repair of buildings, roads, or embankments, shall be deep and connected with each other in the formation of a drain directed towards the lowest level and properly sloped for discharge into a river, stream, channel, or drain, and no person shall create any isolated borrow pit which is likely to cause accumulation of water which again, in turn, may breed mosquito.

(4) The owner or the occupier of any premises shall not keep therein any bottle, tyre (old or new), vessel, can, container or receptacle in such manner as may allow it to collect, or to retain water which may breed mosquito, and shall clean and dry such bottle, tyre (old or new), vessel, can, container or receptacle at the interval of seven days.

(5) The owner or the occupier of any premises shall wrap the openings of the ventpipes and the outlets of septic tanks with proper mosquito-proof nets and shall maintain covering slabs of septic tanks to prevent entry and exit of mosquitoes.

(6) The owner or the occupier of any premises shall seal the overhead tanks, cisterns or water-receptacles to prevent mosquito-breeding, and shall provide safe ladder for making the overhead tanks or cisterns or water-receptacles approachable in order to facilitate inspection of the water in the container by the authorities of the Corporation.

(7) For construction of permanent water collections such as swimming pools, artificial fountains, or water reservoirs, constructed for the purpose of beautification,—

(a) an application shall be submitted to the Corporation, stating therein the anti-larval measures taken by the applicant to keep the water free of mosquito larvae;

(b) the Corporation, after considering the application, shall issue a licence to the applicant;

(c) the applicant shall receive the said licence on payment of such fee as may be determined by the Corporation, and shall renew the said licence annually.

(8) The owners or the occupiers of all private ponds or water reservoirs shall keep such ponds or water reservoirs free from water hyacinth or allied weeds to prevent mosquito-breeding.

(9) if the owner or occupier or any person having control on whom the notice under subsection (1) is served on fails or refuses to take the measures or to adopt the method of treatment, specified in such notice within the time specified therein or contravenes forgoing provisions of this section, the Commissioner himself or any officer duly authorized by him may take such measures or adopt such treatment, specified in such notice within the time specified therein, and recover the cost of doing so from the owner or the occupier of the premises or any person having control, as the case may be, by way of levying administrative charges or special cleansing charges under section 106 in the manner specified therein and shall also be liable to penalty which shall not be less than rupees one thousands but which may extend to rupees one lakh only.

KMC Act, 1980 (New Section)

Sec.496A. Prevention of mosquito-breeding. —(1) If, in the opinion of the Municipal Commissioner, any pool, ditch, tank, well, pond, swamp, quarry, hole, drain, cesspool, watercourse, pit, cistern, desert or air-cooler, ground, underground, or overhead tank or any collection of water, or any land on which water may, at any time, accumulate, is or likely to become a breeding place of mosquitoes or, in any other respect, becomes a nuisance, the Commissioner may by notice require the owner or the person having control thereof to take all or any of the following actions :—

- (a) to clean, or drain off or remove water therefrom, or to provide cover thereto, or
- (b) to treat the same in such physical, chemical or biological method as may consider suitable in the circumstances, or
- (c) to fill up unwholesome waterbody :

Provided that any unwholesome waterbody may be filled up only after compliance with the provisions of section 4C of the Kolkata Land Reforms Act, 1955, (West Ben. Act X of 1956), by the owner or the person having control thereof.

(2) No person shall keep, or permitted to be kept or maintained, within any premises or land any collection of stagnant or flowing water which, in the opinion of the Municipal Commissioner, is, or is likely to be, a breeding place for mosquitoes, unless such collection of water is treated in such manner as may effectively prevent the breeding of mosquitoes.

(3) All borrow pits dug in the course of construction and repairs of buildings, roads, or embankments shall be deep and connected with each other in the formation of a drain directed towards the lowest level and properly sloped for discharge into a river, stream, channel, or drain, and no person shall create any isolated borrow pit which, is likely to cause accumulation of water which again, in turn, may breed mosquito.

(4) The owner or occupier or any person having control of any premises or land shall not keep therein any bottle, tyre (old or new), vessel, can, container or receptacle in such manner as may allow it to collect, or to retain, water which may breed mosquito, and shall clean and dry such bottle, tyre (old or new), vessel, can, container or receptacle at the interval of seven days.

(5) The owner or occupier or any person having control of any premises or land shall wrap the openings of the vent-pipes and the outlets of septic tanks with proper mosquito-proof nets and shall maintain covering slabs of septic tanks to prevent entry and exit of mosquitoes.

(6) The owner or occupier or any person having control of any premises or land shall seal the overhead tanks, cisterns or water receptacles to prevent mosquito breeding, and shall provide safe ladder for making the overhead tanks or cisterns or water receptacles approachable in order to facilitate inspection of the water in the container by the municipal authorities.

(7) if the owner or occupier or person on whom the notice under sub-section (1) is served on fails or refuses to take the measures, or adopt the method of treatment, specified in such notice within the time specified therein or contravenes the forgoing provisions under this section, the Municipal Commissioner himself or any officer duly authorized by him may take such measures or adopt such treatment, specified in such notice within the time specified therein, and recover the cost of doing so from the owner or the occupier of the premises, as the case may be, by way of levying **special conservancy charges, at such rate as may be determined by the Mayor-in-Council, and shall also be liable to a penalty which shall not be less than rupees one thousand only and which may be extended to rupees one lakh only.**

**To : The Additional Chief Secretary
to the Government of West Bengal
Irrigation & Waterways Department
Jalasampad Bhaban, 1st Floor,
Block-DF, Sector - I, Bidhannagar
Salt Lake, Kolkata - 700091.**

Sub. : Request for taking action towards control of mosquito breeding.

Sir,

This is to inform you that all out and co-ordinated efforts are being taken to control breeding of mosquitoes in the ^{for} State under the control of vector borne diseases, especially Dengue. The State Vector Borne Diseases Control and Seasonal Influenza Plan, 2018 has been prepared by Health & Family Welfare Department, compiling the district plans both for Urban & rural areas. Hon'ble Chief Minister has kindly unveiled it on 28.02.2018.

The developmental activities undertaken by different sectors may contribute to increase of mosquito breeding places as well as incidence of vector borne diseases. Inter-sectoral co-ordination is of utmost ^{importance} ~~important~~ in advocacy for the containment of vector borne diseases. Vector control through source reduction and social awareness are the major factors in reducing the risk of disease transmission, as there is no vaccine or specific drug available against Dengue & Chikungunya infection.

In this context, I would request you to kindly advise the Officers concerned for source reduction of mosquito breeding sites ^{especially canals passing through inhabited} ~~as various canals passing through the human habitations are concerned.~~ ^{areas.} Removal of clogging in canals, churning of water, ^{removal} ~~cleaning~~ of water hyacinth, lifting and cleaning of wastes in canals may help to destroy breeding sites. Also, IEC activities among the residents residing alongside the canals to keep it clean may help irrigation canals free from mosquito breeding ~~spots~~. The

Keep these

Officers concerned may take suitable and prompt action for better coordination and cooperation at district as well as Urban Local Body level.

Thanking you.

Yours faithfully

Principal Secretary

Sir,

This may kindly be noted that control of vector borne diseases especially Dengue is a major concern. District Level Monitoring Team (DLMT) has been constituted at each district under the Chairmanship of District Magistrate to plan and steer actions to combat vector borne diseases in the urban as well as rural areas. The State Vector Borne Diseases Control and Seasonal Influenza Plan, 2018 has been prepared compiling the district plans. Hon'ble Chief Minister has kindly unveiled it on 28.02.2018.

It has come to notice that there are many unused tanks, ponds, drains etc. in urban areas which are the major breeding grounds of mosquito. Use of larvicidal in these tanks, ponds is not very effective as well as not ecologically safe. Biological control, particularly use of larvivorous fishes in these stagnant / unused tanks, ponds drains are the most effective and recommended tool to control mosquito borne diseases.

In this context, I am to request you to kindly instruct the concerned officials so that Guppy or Gambusia fish are made available in adequate quantities to the Municipal Corporation and Municipalities for their utilization in selected water bodies. At the same time instruction may kindly be issued to all field / district level officials to obtain list of such water-bodies from the respective District Magistrate / Dist. Fisheries Officer and to maintain close liaison with District Magistrates and ULB authorities for effective biological control of larvae by making guppy fish available and issuing

● advisory regarding collection & transportation of fish, selection of water bodies, release of fish & subsequent monitoring etc.

Thanking you.

Yours faithfully

Visit report of Dr. Paritosh Adhikari, Entomologist & Dr. Debjit Chakraborty, CPHO, SUDA at Chingrighata under Bidhannagar MC on 25.05.2018.

Some photographs were mailed showing huge garbage on the Chingrighata canal near Sukanta Nagar. The area of the visit of this canal lies between the log gates of Kolkata MC and Bidhannagar MC sides near Sukanta Nagar and Jadavpur University campus.

Observations :

- Most of the places of garbages were being cleaned, although some areas are still with remnants of garbage floating of the canal.
- Seven dips were made in different places with garbage and clean water, out of which only one dip contained one mosquito larva.
- Larvivorous fishes were also found in the water of the canal.
- Next, some local people were met near the sides the canal, who reported that mosquito bites were negligible during day and night hours.
- Photographs were taken and annexed herewith for ready reference.

Sir,

We are inviting 25 nos. of ULBs (List Enclosed) for the meeting on 2nd June, 2018. These ULBs have been selected on the basis of following indicators:

- (1) Consistent alert on Vector Monitoring System in the present month.
- (2) Higher number of confirmed dengue cases reported.
- (3) Consistent problem reported by the Entomologist.

The formal letter is already issued. A copy is attached for perusal.

Regards,

Sutanu Prasad Kar

Sir,

We are inviting 25 nos. of ULBs (List Enclosed) for the meeting on 2nd June, 2018. These ULBs have been selected on the basis of following indicators:

- (1) Consistent alert on Vector Monitoring System in the present month.
- (2) Higher number of confirmed dengue cases reported.
- (3) Consistent problem reported by the Entomologist.

The formal letter is already issued. A copy is attached for perusal.

Regards,

Sutanu Prasad Kar**Director SUDA W.B**

Sir,

We are inviting 25 nos. of ULBs (List Enclosed) for the meeting on 2nd June, 2018. These ULBs have been selected on the basis of following indicators:

- (1) Consistent alert on Vector Monitoring System in the present month.
- (2) Higher number of confirmed dengue cases reported.
- (3) Consistent problem reported by the Entomologist.

The formal letter is already issued. A copy is attached for perusal.

Regards,

Sutanu Prasad Kar**Director SUDA W.B**

Sub: Salient Observation from Vector Borne Disease Alert Report from 08.05.2018 – 10.05.2018

Dear Sir/ Madam

In reference to the ULB wise daily monitoring proforma for House to House survey of vector borne disease as generated from 08.05.2018 – 10.05.2018 the key observations for your ULB are as follows :

1) High larval density (8.73 %, 5.66% and 3.72%) were observed on 8th, 9th and 10th May 2018.

You are requested to look into the above findings and take necessary action.

Action taken report in this regard may kindly be communicated to the undersigned by 21.05.2018.

Yours faithfully

Director, SUDA

Sub: Follow up action on being indicated as "Alert" in the monitoring report

Dear Sir/ Madam

On analysis of the daily monitoring reports for House to House survey for the last fortnight it is observed that your ULB has been indicated as "Alert" consistently due to presence of one or more of the following parameters:

- 1) All teams did not report.
- 2) Clustering of fever cases in one or more ward.
- 3) High larval density
- 4) Upsurge of fever cases with joint pain/vomiting
- 5) Some Teams examined less than 2 containers / household

You are requested to look into the reasons for such "Alert" observation and initiate necessary measures to prevent further alert.

So, you are also requested to take following suitable action:

- 1) The remaining teams should immediately be formed and initiate reporting into web portal.
- 2) Strengthen surveillance and reporting system for investigating fever cluster and initiate necessary control measures
- 3) Strengthen source reduction for vector management (larva) with special emphasis on cleaning of blocked drain, garbages, tyres etc
- 4) Ensure spray of insecticides adhering to the technical guidelines
- 5) Use larvivorous fish in large water bodies
- 6) Hold regular meetings with various GOI office, School & Colleges, housing premises within your area and if required notice to be served on them for taking necessary actions for cleaning
- 7) Ensure removal of probable breeding grounds specially in the construction sites, abandoned & peri-domestic areas.
- 8) Upgrade knowledge of all workers engaged in Vector Borne Disease control activities specially conservancy and spray workers.
- 9) Organize intensive campaign and wide publicity in line with campaign taken up by State Government Holding of rallies, posting of banners, hoarding, distribution of leaflet, group meetings may be held.

In case of any assistance and guidance, you are requested to contact with Director, SUDA; Dy. Director, SUDA, CPHO, SUDA & other senior monitoring officers who are associated with your ULB.

Sub:- Complaint

DD
2
Sir SUDA
CPHA
M. J. Ma

Sir,

I am a permanent resident of C.G-24, Sector - II, Salt Lake City, Kolkata -700091. My adjacent house stands in the name of Sri Sandip Sen becomes a source of potential danger and nuisance. One Office is being run from the ground floor of said house. For running that Office, huge batteries are being stacked with other machineries including diesel and other inflammable materials which are potentially danger for entire locality and more so, to my house, if fire broke out.

The backyard of the house is never cleaned and source of mosquito larvae.

You being the supreme controlling authority overseeing the municipal amenities of the inhabitants of Salt Lake, I draw your kind attention inviting immediate interference.

An inspection on the part of your administration of the house, as complained of, may reveal the actual state of affairs.

Please acknowledge action taken via my mail dsinha1958@gmail.com.

Memo No. 106/XIII-2(a)/CS/AME Dated: 19.4.18

From : The Commissioner
Asansol Municipal Corporation

✓ To : The Director
SUDA

Sub : Observations from the Vector Borne Disease Alert Report of 16.04.2018.

Ref : Your Office Memo No. SUDA-H/354/2018/III, dated 18.04.18.

Sir,

With respect to the subject captioned above, I would like to draw your kind attention towards the following points –

- As of now, 921 teams have been formed and they are doing H-T-H survey. Initially, there were some observations regarding the team formation which has been corrected.
- Orientation programme for H-T-H survey has been done in several batches to familiarize them about the activities they have to carry during H-T-H survey. There are some discrepancies in reporting structure which will be corrected as soon as possible.
- Special drive regarding cleaning of drains, water pools has been done before and such activities will now be carried Borough-wise as per the schedule already formulated. Such Special Drives will be accompanied with larvicide applications as well as fumigation.
- Special focus has been given to the areas where there is a history of reported dengue cases or clustering of fever cases.
- Continuous focus has been on cleaning of hospitals, junction points and the areas where the footfall is high and necessary IEC activities have been also carried

This is for your kind information and necessary perusal.

Yours faithfully,

Commissioner
Asansol Municipal Corporation

Memo No. 106/XIII-2(a)/1/CS/AME

Sub:

**Health & Family Welfare Department
Government of West Bengal**

Sub: Outcome of house to house surveillance from 26th March to 6th April, 2018 in connection with control of Vector Borne Diseases.

The latest round of house to house survey ending on 6th April, 2018 and the data analyzed thereof shows that in 20 districts there are potential of larva emanating from existence of garbage and blocked drains at different places covering 51 ULBs in your district and also from the open spaces between the houses. The detailed on-line data is available at the district. However, it appears that the action taken report is lagging. The district must immediately take suitable actions at their level and the DLMT must send a report on the action taken so far to the Department of UD & MA with a copy to H & F W Department.

(2) Information indicates that some ULBs are deliberately under-reporting case of fever and we have specific information about such cases which needs to be looked into by each DLMT through gathering of information by the VBD Programme Officer i.e., Deputy CMOH II of the district.

(3) All private diagnostic centres have been advised by notification to do on-line reporting regarding the test of Dengue cases and the list of such private diagnostic centres is available in the VBD action plan 2018-19. The DLMT must take regular monitoring of such reports and subsequent actions.

(4) It appears that there are 37 Dengue cases reported from South 24-Parganas, 50 from North 24-Parganas, 44 from Nadia, 22 from Murshidabad, 25 from Kolkata, 17 from Howrah, 30 from Purba Bardhaman, 15 from Birbhum and 8 from Bankura which is a matter of concern. The DLMT must immediately analyze the actions taken in areas from where Dengue cases have been reported and whether there is any clustering and suitable follow up action taken by the municipal/panchayet teams. Suitable aid and assistance of the Entomologists posted at the district must be taken including follow up by RRT team and whether the municipal conservancy and others involved in VBD are taking regular follow up action. Needless to say that the reported numbers of cases are just a beginning for the season and any laxity in handling may lead to outbreak.

Contd.P...2

(5) A review meeting is scheduled very soon at the highest level and therefore the District Magistrates are requested to submit report on the abovementioned points by 23rd April, 2018 as we go through another round of house to house survey starting today, i.e., 16th April, 2018.

Sub: Salient Observation from Vector Borne Disease Alert Report from 23.04.2018 – 26.04.2018

Dear Sir/ Madam

In reference to the ULB wise daily monitoring proforma for House to House survey of vector borne disease as generated from 23.04.2018 – 26.04.2018 the key observations for your ULB are as follows :

- 1) 136,20 and 25, 13 nos of teams did not report respectively on 23rd to 26th April 2018
- 2) Almost 18% households were not visited on 23.04.18
- 3) 257, 282,139 and 6 Teams examined less than 2 containers / household respectively on 23rd to 26th April 2018.
- 4) Cluster of fever cases were observed on 24.04.18 and 26.04.18 respectively in ward no 120 and 133.
- 5) Low container positivity was reported in ward 120 on 24.04.18 in spite of having clustering of fever cases.

You are requested to look into the above findings and take necessary action. The remaining teams should immediately initiate reporting into web portal.

Action taken report in this regard may kindly be communicated to the undersigned by 03.05.2018.

Yours faithfully

 Director, SUDA

Sub: Salient Observation from Vector Borne Disease Alert Report of 16.04.2018

Dear Sir/ Madam,

In reference to the ULB wise daily monitoring proforma for House to House survey of vector borne disease as generated on 16.04.2018 the key observations for your ULB are as follows :

- 4) Out of 930 teams only 853 teams are formed
- 5) Almost one third (29%) households are not visited
- 6) 405 Teams examined less than 2 containers / household

You are requested to look into the above findings and take necessary action. The remaining teams should immediately be formed and initiate reporting into web portal.

Action taken report in this regard may kindly be communicated to the undersigned by 23.04.2018.

Yours faithfully

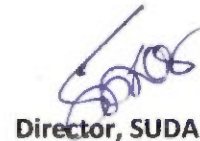

Director, SUDA
