Sub : National Iron Plus Initiative Programme for the age group 6 months to 60 months

Sir,

The State is launching the National Iron Plus Initiative, which is an attempt to address Iron Deficiency anaemia comprehensively across all the life stages, including the children in the age group of 6 months to 60 months.

As part of this initiative, Syrup IFA needs to be administered biweekly to all children in the said age group (6 months to 60 months) and de worming needs to be done for children above 12 months.

The service delivery of this initiative in the rural areas is being done by the ASHAs. Now, to discuss regarding the roll out of this in the Municipalities and Corporations of the State (other than Kolkata Municipal Corporation), you are requested to instruct your representative to contact the State Family Welfare Officer & Jt. DHS(FW) at the earliest.

Yours faithfully

  
Commissioner (FW) &  
Mission Director (NHM)
