Sub. : Monitoring on surveillance of dengue cases.

Sir / Madam,

It transpires from the Line List of confirmed dengue cases during the month of June, 2019 as forwarded by Department of Health & Family Welfare that a large number of dengue cases have been detected in the areas under your jurisdiction.

In this connection, a review meeting on proper surveillance and environmental management for VBD control will be held on 09.07.2019 at 11 a.m. in the Conference Hall of SUDA.

You are requested to kindly attend the meeting along with Health Officer and Sanitary Inspector of your ULB to discuss about the matter.

Thanking you.

Yours faithfully

SAD
Director SUDA

Bidhannagar Municipal Corporation

Sub: Prevention and control of Vector Borne Disease

Ref: Letter of the Special Secretary, Dept. of U.D. & M.A., Memo No.- 25/SS/KSG/2017, Dt.- 03.11.2017, 26/Commissioner/KSG/2017, Dt.-17.11.2017, enclosed herewith.

Sir,

With reference to subject noted above I am to inform you that we have been doing the preventing works eg. cutting jungles, bushes, spreading bleaching powder since the occurrence of Dengue in the Baisakhi Abasan, Salt Lake, though cleaning of Baisakhi Abasan is done on regular basis throughout the year. Also, we have started the spraying of mosquito oil in the Baisakhi Abasan from 01.11.2017 till today regularly. Further, the solid wastes are removed regularly by your department from the said Abasan but recently, solid wastes are often being deposited at the eastern side of D-Type quarters of Baisakhi Abasan.

Hence, your early intervention in this connection is highly solicited.

Yours faithfully,

Encl: As stated

Subject: Observation of the Monitoring Officer in relation to Dengue
Prevention Activity
Reference: SUDA-257/2017/852 DATED 31/10/2017

Sir,

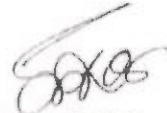

In reference to the subject mentioned above and as per the report obtained from the Monitoring Officer during his visit on 3rd November 2017 it is found that 24 Buildings of Post & Telegraph Department and 35 Blocks of HIT Housing and lots of tyres and other spare parts of CSTC garage have caused serious nuisance and encouraged the breeding of mosquitoes. The report is attached for your perusal.

It is expected that all possible action will be taken from your end and an action taken report may kindly be communicated to this end.

Thanking you

Yours faithfully

Action Taken Report (As per memo no. SUDA-257/2017/929 dated 14/11/2017):-

I) HIT Qrts: (Ward 43)

Total 110 blocks.

Notice issued on: 03/11/17 (050/D/17-18)

Action Taken:-

1. Strengthening of regular conservancy work.
2. Situation has been explained to CEO & Chief Eng of HIT on 4/11/17 verbally over telephone.
3. As per verbal order of Commissioner, HMC, a special Cleaning drive had been observed by Conservancy Department, HMC in common areas of all blocks of HIT Qrts from 04.11.17 to 7.11.17.
4. All the drains and wet areas have been thoroughly sprayed by Larvicidal oil (Temephos 50% EC) periodically with fogging.
5. Followed-up with HIT authority regarding-
 - I. Regular maintenance of internal drains,
 - II. Prevention of water logging and formation of other types of mosquito breeding sites on the rooftops which are presently unapproachable,
 - III. Putting few garbage boxes in open common areas.
 - IV. Unoccupied locked room.

II) P& T Qrts: (Ward 43)

Total 24 BLOCKS -368 Quarters with only 35occupants.

Notice issued:03/11/17(049/D/17-18)

Action taken:

1. Graveness of the situation has been explained to Ex. Eng & Civil JTO, BSNL over telephone on 03/11/17.
2. Periodical Larvicidal oil (Temephos 50% EC) spraying in the stagnant water, drains with fogging
3. As there was no response from the concern department till 10.11.17, Commissioner, HMC has order Conservancy & Drainage-Sewerage department to handle, the issue urgently. As special drive, on 14/11/17 D/S department had cleared the stagnant water by Jet cum Suction Machine from the buildings. On 15.11.17 -Conservancy department has started removing the garbage and bushes and cleaning of open stagnant drains inside the area.
4. A meeting was held on 15.11.17 with Civil JTO-Mr. N N Das regarding the entire situation and action plan. He is going to deploy person there for regular maintenance of internal drains and vacant area. After cleaning of the pits by BSNL, HMC will try to clear the sewer line by jet cum suction machine.
5. Certain issues were highlighted to him in this meeting:

- I. Blocked sewerage
- II. Regular cutting of bushes
- III. Prevention of water logging and formation of other types of mosquito breeding sites on the rooftops which are presently unapproachable,
- IV. Unoccupied open rooms with open toilets.

III) CSTC , Howrah Depot, Calcutta State Transport Corporation (8 Kartick Chando Road, Howrah, Ward 29, HMC)

Today ^(16.11.17) on inspection by the Departmental Vector Control Teams - huge garbage found inside the premises including blocked internal drains , mosquito larvae and pupa in tyres, unused iron parts, plastic containers . This graveness of the situation has been explained to the Depot Manager (Howrah Depot, Calcutta State transport Corporation) and On Duty AE, Bhaskar Sarkar for necessary action urgently.

Proposal may be sent to Conservancy depatt, HMC for initial clearance of the garbage from inside the premises.

Memo No-91/Health/17-18

Dated- 26/10/2017

Minutes of the meeting on "Prevention & Control of Vector Borne Diseases with special emphasis on Nabanna and its surrounding zone on 26.10.2017 at 12 noon in chamber of the Commissioner, Howrah Municipal Corporation HMC.

List of dignitaries present in this meeting:

1. Bijin Krishna, Commissioner (HMC)
2. Gulam Sarwar, ACP (South) HPC
3. G.Bandyapadhyay, OC. Shibpur
4. Saumyajit Maity, EE/PWD Nabanna Area
5. Prasenjit Sonka, AE/PWD Nabanna Area
6. Subrata Roy, JT. Project Manager, HRBC
7. Dr. Ashutosh Kundu, OSD (H), HMC
8. Dr. Bisakha Haldar, M.O, HMC
9. S. Ghosh, S.A.E, HMC
10. A. Bhattacharya, SPL. Officer (CONS), HMC
11. Satyajit Mitra, CONS. Supdt, HMC

Minutes of Meeting:

Following resolution were taken in this meeting:

A. Nabanna Main Building:

Already a person has been appointed for regular supervision and followup (as stated by AE, PWD).

B. Nabanna Main Building Basement area:

- a. As stated by AE, PWD - Drain Cleaned and arrangement has been made for regular larvidial spray and cleaning.
- b. As stated by AE, PWD - Cleaning of the stagnant water in the Open Pumping MT - will be made regularly and will be covered.
- c. As stated by AE, PWD - empty space will be filled up. To stop accumulation of water from the underneath of the 2 water cooler machines.

C. Multilevel Car Parking:

As per verbal order of Commissioner, HMC, removal of garbage has been started from 25.10.17 afternoon onwards as on urgent basis. On 26.10.17- all stagnant garbage has been removed and PWD has started pumping out the stagnant water form this area. PWD is going to take measures for stop throwing of cups and containers from the parking lot and opening of the clogged drain to prevent stagnation of water.

D. Under ramp spaces of bridge:

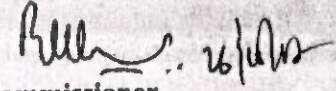

- a. **Immediate Action Plan:** 1) HMC, conservancy: will continue the special drive of removal of garbage regularly. 2) HRBC: To prevent further accumulation of garbage, the entire empty areas of under ramps will be covered by corrugated tin sheets - HRBC is going to start this job within 24 hours. Timeline: 2 weeks. Area: From Nabanna towards Mandirtala and towards Kazipara. 3) PWD: Will label the heaps of rubbish left there & going to run the pump periodically as soon as water accumulation in the area. For planning of proper drainage system from this area, joint site visit has been proposed on 31.10.2017. 4) AC, Nabanna Zone: Will enforce to stop littering in this area.
- b. **Proposed plans:** HRBC 1) This space can be utilized by placing pebble stone and parking lot till Kolkata police can build up the Dog squad. Department is going to send the list of work done till now by them.

E. Mandirtala traffic Out Post (Traffic Police):

- a. AC, Nabanna Zone: Will enforce to stop littering in this area. For planning of proper drainage system of this area, joint site visit (HMC & PWD) has been proposed on 31.10.2017.

F. HRBC Godown:

JT. Project Manager, HRBC & AE/PWD Nabanna Area can be informed if any problem arises further.

P.O.
12/12

At the very outset I would like to thank you for all the cooperation and assistance we receive from your end. In the context of the current viral fever scenario, we are trying our best to follow all the guidelines and instructions given to us from your office, Health Department and the District administration. But in spite of that the 2nd round of October, 2017 showed a sudden rise in fever and larval load. This most probably was due to untimely rainfall and prevailing climatic condition. Most of the cases were NS1 ELISA positive. In seven cases these tests were followed by IgM and the results were negative. We engaged all our resources on a war footing to fight with the situation. The mid November round of VBD indicated a down trend. No death from Dengue /unknown viral fever have been reported in our municipality till now.

The following measures were and are being taken to combat the present situation of viral fever in our municipality.

- 1) Awareness programme is being done in all the rounds of VBD surveillance programme.
- 2) IEC with flex hoarding & miking was under taken.
- 3) Any patient who need our help is being treated at our UPHCs. NS1 ELISA is being done at our laboratory. Special fever clinics are being under taken regularly.
- 4) We are in touch with our local hospitals to track the patients who are being admitted.
- 5) Fogging, spreading Ca(OCl)Cl powder and larvicidal oil is undertaken regularly. Recently as per advice of Dr. Paritosh Adhikary, Entomologist, SUDA we have released "Guppy Fish" in many of our drains .
- 6) Recently centralized programme of larvicidal spray, desilting and garbage clearance have been under taken on an emergency basis. I am personally looking in to the matter. We have identified most affected wards (Ward No: 2, 3, 14, 15, 30 etc.) and emphasis is being given to them.

We are getting help from all quarters .The Health Department (State & District Level) SUDA,D.M's Office and most of the local organizations are helping us in a great way.

I am hereby sending you a graphical representation of the trend of essential parameters of VBD. Kindly make a note of it and oblige.

Thanking you.

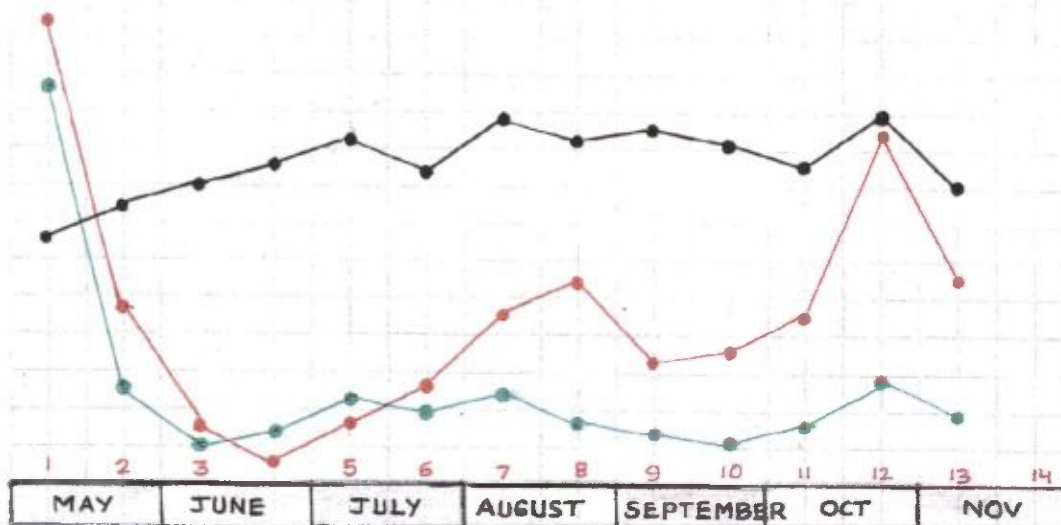

Yours sincerely,

Sri. Swapan Ghosh.

20/11/17

Sub: Present situation of Dengue in English Bazar municipality.

Sir,

I am to inform hereby the present situation of Dengue and vector borne disease in this Municipality. The House to house visit in all the 29 wards by the workers of this Municipality is continuing since May 2017 twice a month. The last two rounds in Oct month has revealed following situation-

1. 1st round- 12.10.2017 to 16.10.2017 = 105 no.s of fever with joint pain.
2. 2nd round- 28.10.2017 to 1.11.2017 = 206 no.s of fever with joint pain.

As per report collected from the house to house visit the following measures has been taken by the municipality.

- 1) Fogging and bleaching spray at vulnerable places.
- 2) Larvicide spray at drains and vulnerable places.
- 3) House to House visit for 5 days twice a month since May, 2017 by 144 teams of 2 workers and 29 supervisors covering all the wards of Municipality.
- 4) Daily evening Meeting on the day of House to House visit of all 29 Supervisors in which Dy. C.M.O.H.- II and his team attends for guidance and suggestions.
- 5) A meeting of all the workers was held on 17.10.2017 at Durga Kinkar Sadan attended by District Magistrate, Malda and Health Department for instructions and guidance of both Englishbazar and Old Malda Municipality.
- 6) Miking has been done time to time to make people aware about Vector Borne disease prevention.
- 7) A pamphlet containing information about dengue prevention has been distributed to all the households of this Municipality for awareness.
- 8) Free blood test for Dengue has been arranged at Matrisadan under Englishbazar Municipality.
- 9) DDT (IRS) spray has started from 02.11.2017.
- 10) Existing Labour strength and no. of tractors have been increased for conservancy work.
- 11) Extra bed are arranged in Malda medical College & Hospital, the municipality has extended helps including manpower of GDA & Sweepers for two months.

Recently, two no.s of death has been reported, the details are given below-

1. Rajesh Mandal, S/O Manohar Mandal of Binodpur Anchal, Mobarakpur (Outside Municipal area) expired on 1.11.2017 before taking admission in hospital. It is not clear how he expired as post mortem was not done.
2. Chiranjit Saha S/O Krishna Saha of ward no 14 expired recently. He was not confirmed Dengue. He was also suffering from different diseases.

However, the municipality has started extensive works for prevention of vector borne disease and improving the Situation.

Yours Faithfully
Sd/-
Chairman
EnglishBazar Municipality

Car parking space of Nabanna has been cleaned (ward 33) by the HMC.

Issues discussed with the Chairman / Commissioner after visit : As requested by the Commissioner through the Nodal Officer, visited the two sites.

Remarks if any : Post & Telegraph Deptt. authority has not yet started the work of cleaning garbages and stagnated water despite assurances given to me by Sri N. N. Das, Sub-divisional Engineer responsible for maintenance of the Housing.

Commissioner, HMC has issued a letter to the SDE. He was also requested by the Commissioner in a meeting. Now I have decided to issue letter to the SDE requesting him for taking up the work immediately.

Submitted.

Ref: Letter of the Special Secretary, Dept. of U.D. & M.A., Memo No.-25/SS/KSG/2017, Dt.-03.11.2017

Sir,

With reference to subject noted above I am to inform you that we have been doing the preventing works eg. cutting jungles, bushes, spreading bleaching powder since the outbreak of Dengue in the Baisakhi Abasan(C-Type) , Salt Lake, though cleaning of Baisakhi Abasan is done on regular basis through out the year. Also, we have started the spraying of mosquito oil in the Baisakhi Abasan from 01.11.2017 till today regularly. Further, we have started more preventive measure towards the vector Borne Diseases in the construction site ' SUBHANNA', beside Nagarayan, DF - Block.

Yours faithfully,

Sub: Prevention and control of Vector Borne Disease in the campus of Baisakhi Abasan, Bidhannagar.

Sir,

With reference to the above I am to inform you that the flat allottees in the Baisakhi Abasan have been making hutments for garages near their flats causing problem of up-keeping works done by our contractors throughout the year. During construction, our employees initially resist but they don't bother and they show previous instances and their numbers are increasing day by day. Often, plastic cups etc, water retaining pots are seen within those garages followed by breeding of Dengue mosquitoes. Also, the allottees plant trees especially, Sajne tree in a disorderly manner throughout the campus obstructing sun light and this is also a cause of prevailing Dengue viruses and our employees can not resist this practice due to their rude behaviour. Further, it is also learnt that, many unauthorised cars are parked within the Baisakhi Abasan hampering up-keeping work immensely. Besides that, these polythene-bamboo made hutments look very odd.

Your kind intervention in this matter is highly solicited.

Yours faithfully

Sub Divisional officer
Salt Lake Water Supply Sub Division,
Dept. of U.D. & M.A., Govt. of W.B.,

Date: 10/11/17

tate up with PWS,
NHAR re:
water logging
in Rajganjuli
along road
e

Places Visited along with Ward No: Rajganj block, baribasa area.

Whether Councillor/Local Club Members involved in Dengue prevention activities:
Yes

No. of container (probable sites for mosquito breeding) examined:
Around 9 sites of mosquito breeding examined within the locality.

Unmanaged garbage:
No unmanaged garbage noticed.

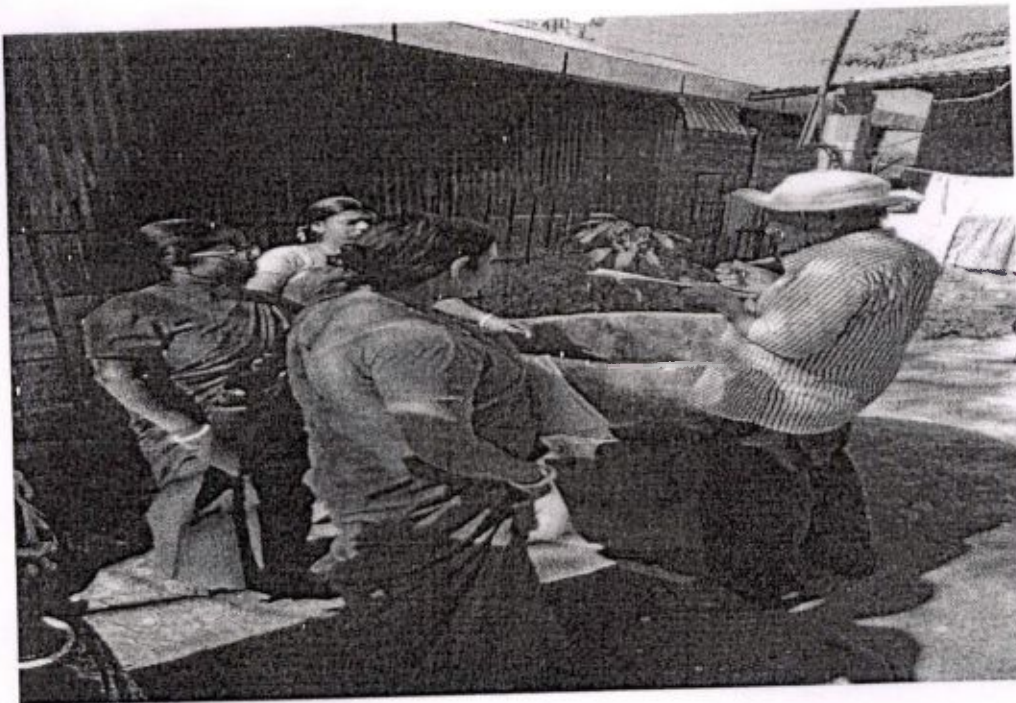

Condition of household drain:
No clogging

Condition of peri-domestic municipal drain:
Drains were clogged in few places, where cleaning done.

Construction sites:
One site found in the visit area, no breeding source identified.

Other major outdoor breeding sites:
Mainly drains are seen, small water bodies along the National Highway also noted.

Larvicidal activity by the ULB:
The local Gram Panchayat arranged labourers for cleaning garbages, and spraying temephos. The funding is done by SJDA.

c) Leaflet distribution:
around 300 leaflets distributed today.

d) Banners/Hoardings:
adequate number of banners are displayed in all prominent locations in the area.

e) Miking:
done by local BDO.

f) Others, if any:
LPP is doing awareness programme through tableau.

Issues discussed with the Chairman/Commissioner/BDO/Pradhan after visit:
Regular larvicidal and fogging activity, to conduct regular meetings with all stakeholders.

Remarks, if any:

Signature of the Monitoring Officer
DeepapPriya.P, CEO, SJDA

OFFICE OF THE COUNCILLORS DUM DUM MUNICIPALITY

44, Dr. Sailen Das Sarani, Kolkata – 700028

Memo No.: 850/DDM/HRM/2017

Date: 06/11/2017

From :
Sri Harendra Singh
Chairman
Dum Dum Municipality

To
The Director of SUDA
HB-305, AB Road, HC Block
Sector III, Salt Lake City
Kolkata – 700106.

Sub : The extract copy of the proceedings regarding prevention and control of Dengue.

Sir,

With reference to above the extract of the proceedings of the Ordinary Meeting of the Councillors of Dum Dum Municipality held at the Meeting Hall on the 31st October '2017 at 3.00 p.m. regarding prevention and control of Dengue is furnished below for favour of your kind information.

Resolution No Addl. 1

To prevent & control of dengue it is suggested by the chairman of Dum Dum Municipality that the movement of councillors within his/her ward is necessary particularly during clearing of garbage and utilized the service of the sweepers more effectively.

At the time of spraying of lurva-cidal oil , spreading of bleaching powder & fogging, the councillors should remain present, so that no area is untouched. The councillors should accompany the Health Worker in case of any inconvenience faced by her to enter the house of inhabitant for collection of report regarding dengue.

Special drive should be made to check whether any staging of water is found in the under construction of multi-storied building particularly the space for lift , septic tank, underground water reservoir , roof etc. and intimate the sanitation department immediately to take necessary steps in this respect ,so that breeding of mosquito can be avoided.

The chairman also apprises the house that he will visit from 8.00 a.m to 10 a. m. regularly in the area of Dum Dum Municipality to observe present condition of the area.

OFFICE OF THE COUNCILLORS DUM DUM MUNICIPALITY

44, Dr. Sailen Das Sarani, Kolkata – 700028

Memo No.:

Date :

(2)

Dr. Gargi De & Dr. Paritosh Adhikary, representative of SUDA, came to visit our area and also remain present in the meeting as per request of the chairman. They suggested the following & requested the councillors to follow for prevention & control of dengue.

- i) To aware the people for using mosquito net & wearing full sleep garments to protect the biting from mosquito.
- ii) As Gappi fish can eat the larve of mosquito it is better to spread out those fish from one drain to another drain where no Gappi fish is found.
- iii) The property of Central Govt., Undertaking, Railway etc. to be inspected and if any staging of water is found immediate notice for clearing of staging water to be given to the concerned authority with a copy to the Director of SUDA.
- iv) During visit of Dum Dum Municipal area it has come to their notice that the border area of S.D.D.M, N.D.D.M & Bidhannagar Municipal Corporation no fogging & spreading of mosquito oil is done.

The chairman assures that the work will be done from our end.

Thanking you.

Yours faithfully

Madam,

In response to your letter this is to inform you that we have purchased 10 nos. spraying machines and 2 nos. Fogging machines and Diflubenzuron (Bilarv 25 WP) from the fund you allotted to us. We have started spraying mosquito oil in different Wards. All areas such drain, bushes, govt. institutions like Thana, Jail, Hospital, various office premises, schools have been covered under this operation. Besides, Fogging operations to market places and other places also have been covered. We have also organized Mass Awareness Programmes to aware the public about the consequences of the disease and brought awareness among the inhabitants of this ULBs.

Yours faithfully,

Chairperson
Mekliganj Municipality
Mekliganj, Cooch Behar

Secretary's instruction dt. 07/11/2017 regarding Dengue monitoring.

- 1) Involvement of people at each ward.
- 2) Initiative of Municipality, should find place in media. - advise to ULS
- 3) To ensure crackdown on e.g. premises where ULS ~~is~~ could not get access to highlight.
- 4) Health workers consensually & spray workers shall move as a team during HTH visit
- 5) Follow up action on HTH report should be completed fully and people should know about this. → Who will inform? and How?
- 6) Complaint of anti larval teams not visiting areas shall be dealt firmly.
- 7) To brief these aspects to ULS during next visit.
Compliance report of ULS shall be submitted by the Monitoring Officer, this weekend.

Monitoring Visit Format

Titagarh Municipality

Visit : 3

Date : 07/11/2017.

Places Visited along with Ward No.	:	Municipality Office, Hospital. (Ward No. 7, 8, 9, 10)
Whether Councillor / Local Club Members involved in Dengue prevention activities	:	Yes.
No. of container (probable sites for mosquito breeding) examined	:	3 ;
Unmanaged garbage	:	Yes, in two spots ;
Condition of household drain	:	Requires regular cleaning ;
Condition of peri-domestic municipal drain	:	Requires regular cleaning ;
Construction sites	:	x
Other major outdoor breeding sites	:	Uninhabited open areas between houses.
Larvicidal activity by the ULB	:	Yes ;
Fogging done by the ULB	:	Yes ;

IEC :

- | | | |
|--|---|---|
| a) Meeting of the Councillors at ULB level | : | Yes ; |
| b) Meeting with Community | : | Yes ; |
| c) Leaflet distribution | : | Done (copy enclosed) ; |
| d) Banners / Hoardings | : | Yes. Suggestions given to Municipality. |
| e) Miking | : | Yes. Suggestions given to Municipality. |
| f) Others, if any | : | Suggestions given for involving ICDS Workers and school teachers. |

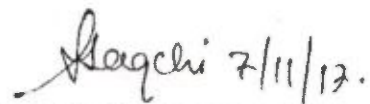

- Issues discussed with the Chairman / Commissioner after visit:**
- (i) A discussion was held with the CDPO, Supervisors of ICDS Project to use their man power for better awareness.
- (ii) Discussion was held with garbage disposal teams so that garbage pick up is done at a greater frequency.
- (iii) Visited an Anganwadi Centre and discussed with worker regarding detection of possible cases of dengue. Two persons were seen with high fever, who were advised to get their blood tested. The local councillor was requested to follow up.
- (iv) Visited three schools. Interaction with the headmaster and children in one school revealed that the children were regularly briefed by the headmaster regarding dengue.
- (v) The residential colonies of jute mill workers were visited. It was seen that the municipality is doing the conservancy work in these areas. The Chairman was requested to involve the factory management in the work. Interaction was held with the people in the colonies to learn whether any person was affected by dengue.

- (vi) Several community toilets were seen which were constructed by CESC Ltd. The toilets were well maintained and regularly used by the people in the locality. The Chairman was requested to maintain liaison with CESC Ltd. so that they can be involved in more such good social work.
- (vii) It was seen that the Councillors, health workers and conservancy staff are regularly meeting with the Chairman for discussions regarding steps to be taken.
- (viii) Leaflets in different languages are being prepared for circulation once again.
- (ix) Festoons and placards are being put up in prominent places for increasing awareness among the people.
- (x) The municipality is organizing a special meeting with all schools shortly in this connection.

Remarks, if any :

Suggestions : (i) Regular visits to all the schools within the municipality area ;

- (ii) Taking regular feedback from Anganwadi workers ;
- (iii) Ensuring regular cleaning of garbage ;
- (iv) Cleaning of drains and low lying areas regularly ;
- (v) Fumigation and larvicidal application to be repeated every week in all vulnerable areas ;
- (vi) The municipality run hospital to be made fully functional with recruitment of health officers and other staff. The remaining construction works to be completed at the earliest.

 7/11/17.

Govt. of west Bengal

Sub : Prevention and control of Vector Borne Diseases

Ref : No. 25/SS/KSG/2017 dated 03-11-2017 of Special Secretary,
UDMA Department

Sir ,

With reference to above, this is to inform you that this Authority has taken the following actions in connection with preventive measures for the Vector Borne Diseases :-

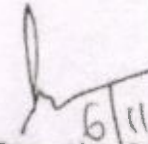

- i) 40 Flex and 20,000 Leaflets have already been supplied to 8 respective administrative blocks, Sub-Divisional Officers and Block Medical Officer of Health which has been widely displayed/circulated for awareness.
- ii) It is to mention that 8 Blocks have been provided antilarvisidal spray @ 25 litres per block initially and further being provided on need basis.
- iii) Fogging has been done in the rural areas of the block jurisdiction @ 56/hours per block.
- iv) 100 kg bleaching powder per Block is being procured, to be distributed immediately in favour of all Blocks.

- v) Fogging machine is to be purchased by 8 respective administrative blocks immediately. Fogging chemicals to be procured by Asansol

Durgapur development Authority itself for supplying to the Block Development Officers of 8 respective administrative blocks at the earliest.

S.D.Os have already been intimated regarding this with request to monitor and supervise .

Further activities taken up by this authority on a day to day basis will informed through the daily compliance report.

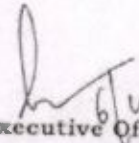

Chief Executive Officer

GOVERNMENT OF WEST BENGAL
DEPARTMENT OF URBAN DEVELOPMENT & MUNICIPAL AFFAIRS
POURA PRASHAHSAN BHAVAN

DD-I, SECTOR-I, SALT LAKE, KOLKATA-700 064

No. 722/ MA/O/C-4/1A-20 /2017

Dated: 3rd November, 2017

From : The Secretary to the Government of West Bengal.

To : The Chairman, Kharagpur Municipality

Sub : Prevention and control of dengue.

Sir / Madam,

You may be aware that despite earnest steps taken over time the incidence of dengue is still being reported from different areas. In May, 2017 letter was issued to all ULBs for conducting cleanliness drive. A D.O. letter was given by the Hon'ble M.I.C. of this department in May, 2017 to all Municipalities and Corporations stressing on taking up preventing measures. Later, a meeting was held by the Hon'ble M.I.C. of this department in July with a few selected Municipalities where incidence of Dengue was comparatively more. In July, 2017 a letter was issued to all Municipalities to hold review meetings headed by the Chairman of the concerned Municipality to discuss the issues following the technical analysis of the house to house activities. Resources have been provided to all for taking up IEC activities, procurement of Elisa, Spray and Fogging Machine, Larvicidal. Fund have also been allotted for special cleanliness drive. Repeated visits to vulnerable areas have been done to take corrective measures. Despite all this, some cases of dengue have been reported from some areas including this Municipality. Therefore it is essential that these areas be sensitized further to prevent further occurrences.

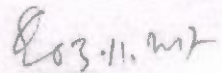

Recently on 31.10.2017 the Hon'ble M.I.C. of this department reviewed dengue preventive measures with eleven municipalities of North 24 Parganas, South 24 Parganas and Howrah Municipal Corporation. Following this an order for monitoring of some Municipalities and Corporations by Senior Officers of the department was issued. The assigned Officer of the department have completed the first visit to your Municipality by now. The Officer has shared his/her observations with you for taking further steps to check dengue. **It has been reported by the monitoring officer that household drains and**

peri-domestic municipal drains are to be cleaned in some places. He also suggested that intensive cleaning operation and spraying of larvicide in required to be taken up by the municipal authority. The visits by these officers will continue for the time being till further orders.

Review meetings have been held several times from January, 2017 till date by the Hon'ble M.I.C. of this department for prevention and control of dengue. Following this it is expected that several cleanliness drives and urgent preventing measures have been taken in your area in the last few months. Presently, I hope that you will take strong and planned action in order to strike at the problem at its roots. You may communicate to me or the assigned officer, if necessary, for any kind of further assistance for tackling the problem.

Thanking you,

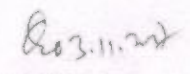

Yours faithfully,

Secretary,
UD & MA Department.

Dated: 3rd November, 2017

No. 722(1)/ MA/O/C-4/1A-20 /2017

Copy forwarded for favour of information to the PS to the Hon'ble M.I.C. of this department.

A D.O. letter was given by the Hon'ble M.I.C. of this department in May, 2017 to all Municipalities and Corporations stressing on taking up preventing measures. Later, a meeting was held by the Hon'ble M.I.C. of this department in July with a few selected Municipalities where incidence of Dengue was comparatively more. In July, 2017 a letter was issued to all Municipalities to hold review meetings headed by the Chairman of the concerned Municipality to discuss the issues following the technical analysis of the house to house activities. Resources have been provided to all for taking up IEC activities, procurement of Elisa, Spray and Fogging Machine, Larvicidal. Fund have also been allotted for special cleanliness drive. Repeated visits to vulnerable areas have been done to take corrective measures. Despite all this, some cases of dengue have been reported from some areas including this Municipality. Therefore it is essential that these areas be sensitized further to prevent further occurrences.

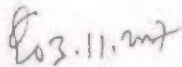

Recently on 31.10.2017 the Hon'ble M.I.C. of this department reviewed dengue preventive measures with eleven municipalities of North 24 Parganas, South 24 Parganas and Howrah Municipal Corporation. Following this an order for monitoring of some Municipalities and Corporations by Senior Officers of the department was issued. The assigned Officer of the department have completed the first visit to your Municipality by now. The Officer has shared his/her observations with you for taking further steps to check dengue. **It has been reported by the monitoring officer that garbage dumps are to be**

removed from some places. Fever cases have been reported mostly from ward no. 8,9,10,11,21,33 & 34. Constant vigil over these areas by the municipal authority is required. The visits by these officers will continue for the time being till further orders.

Review meetings have been held several times from January, 2017 till date by the Hon'ble M.I.C. of this department for prevention and control of dengue. Following this it is expected that several cleanliness drives and urgent preventing measures have been taken in your area in the last few months. Presently, I hope that you will take strong and planned action in order to strike at the problem at its roots. You may communicate to me or the assigned officer, if necessary, for any kind of further assistance for tackling the problem.

Thanking you,

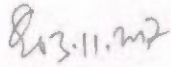

Yours faithfully,

Secretary,
UD & MA Department.

Monitoring Visit Format

Bongaon Municipality

Date : November 2, 2017

- Places Visited along with Ward No : Some places in Ward no 1,2,3,17,8,10 visited
- Whether Councillor/ Local Club Members involved in Dengue prevention activities : Yes all the councilors and some clubs have been involved in the Dengue prevention activities
- 1. No. of container (probable sites for mosquito breeding) examined : Some local drainage channel ,sewerage lines and places of accumulated water have been visited/ inspected by me. Required action have been reported to Municipality and they have initiated necessary cleaning action immediately after getting the report.
- 2. Unmanaged garbage : Very few unmanaged garbage /damping grounds came to my notice during my visit inside the wards . Problem areas have been noted and communicated to the Municipal authority for immediate necessary action . Actions have also been initiated within next few hours as reported.
- Condition of household drain : In maximum cases found Okay . Clearing and cleaning works are being taken regularly as reported by the local people.
- Condition of peri-domestic municipal drain : Found more or less okay.
- Construction sites : No such big construction sites came to my notice. Some scattered small construction sites have been found in my places of visit. No such water accumulation points found .
- Other major outdoor breeding sites : Scatterdly some drainage line found accumulated with dirty water due to some misuse by local inhabitants. Local people informed positively when interacted about regular cleaning operation taken up by the municipality.
- Larvicidal activity by the ULB : In last 7 days around 150lts of larvicidal oil have been distributed and sprayed at relevant places through the municipal conservancy staff . In September October ,17 , around 300lts of larvicidal oil have been distributed and sprayed at relevant places through municipal conservancy staff.

- Fogging done by the ULB : Around 100lts of fogging oil have been distributed and applied through 10no. of fogging machines used as reported. 60 no. of larvicidal (Temephose) sprayer machines have been used.

IEC :

- a) Meeting of the Councillors at ULB level : Regular meetings are being held with the councilors at the municipality office.
- b) Meeting with Community : Community meetings at different points are being held during last month at regular intervals for generation of community awareness.
- c) Leaflet distribution : Leaflets are found distributed house to house through the health workers.
- d) Banners/ Hoardings : Some banners and hoardings are found displayed at different places for community awareness .
- e) Miking : Miking is also being done recently for awareness generation
- f) Others, if any : All sorts of measures are being taken for public awareness . Door to door visit is conducted through the health workers.

Issues discussed with the Chairman/ Commissioner after visit : Visited the Municipality office on and also on the next day. Held a meeting with all the councilors , health supervisors and health workers and other some eminent persons and social workers as per prescheduled programme at night of 1st Nov. Got detail information about the actions taken up by the Municipality and various health workers. Checked the reports submitted after the door to door visit. Interacted with the supervisors regarding their experiences and also interacted with the local people during the inspection programme on 2nd Nov morning. Met with the sub divisional Hospital Super and local SDO . Detail report follows.

Remarks, if any : detail report follows

No. 711/ MA/O/C-4/1A-20 /2017

Dated: 3rd November, 2017

From : The Secretary to the Government of West Bengal.

To : The Chairman Mahestala Municipality:.

Sub : Prevention and control of dengue.

Sir / Madam,

You may be aware that despite earnest steps taken over time the incidence of dengue is still being reported from different areas. In May, 2017 letter was issued to all ULBs for conducting cleanliness drive. A D.O. letter was given by the Hon'ble M.I.C. of this department in May, 2017 to all Municipalities and Corporations stressing on taking up preventing measures. Later, a meeting was held by the Hon'ble M.I.C. of this department in July with a few selected Municipalities where incidence of Dengue was comparatively more. In July, 2017 a letter was issued to all Municipalities to hold review meetings headed by the Chairman of the concerned Municipality to discuss the issues following the technical analysis of the house to house activities. Resources have been provided to all for taking up IEC activities, procurement of Elisa, Spray and Fogging Machine, Larvicidal. Fund have also been allotted for special cleanliness drive. Repeated visits to vulnerable areas have been done to take corrective measures. Despite all this, some cases of dengue have been reported from some areas including this Municipality. Therefore it is essential that these areas be sensitized further to prevent further occurrences.

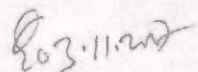

Recently on 31.10.2017 the Hon'ble M.I.C. of this department reviewed dengue preventive measures with eleven municipalities of North 24 Parganas, South 24 Parganas and Howrah Municipal Corporation. Following this an order for monitoring of some Municipalities and Corporations by Senior Officers of the department was issued. The assigned Officer of the department have completed the first visit to your Municipality by now. The Officer has shared his/her observations with you for taking further steps to check dengue. The report of the officer is enclosed for your kind perusal with the suggestion to

take immediate corrective measures. It is suggested by the Officer that more vigil is required in respect of construction sites, premises of factories either running or abandoned. The visits by these officers will continue for the time being till further orders.

Review meetings have been held several times from January, 2017 till date by the Hon'ble M.I.C. of this department for prevention and control of dengue. Following this it is expected that several cleanliness drives and urgent preventing measures have been taken in your area in the last few months. Presently, I hope that you will take strong and planned action in order to strike at the problem at its roots. You may communicate to me or the assigned officer, if necessary, for any kind of further assistance for tackling the problem.

Thanking you,

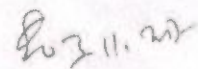

Yours faithfully,

Secretary,
UD & MA Department.

(iv) The visited school is maintaining cleanliness. This should be continued there and in other schools also.

Remarks, if any :

Suggestions :

Signature of the Monitoring Officer.

Name : Smt. Sumita Bagchi.
Designation : Joint Secretary.
U D & M A Department.

Monitoring Visit Format

Titagarh Municipality

Date : 01/11/2017.

Places Visited along with Ward No. : Municipality Office, Hospital.
(Ward No. 7)

Whether Councillor / Local Club Members
involved in Dengue prevention activities : Yes.

No. of container (probable sites for mosquito
breeding) examined : 2 ;

Unmanaged garbage : Not seen ;

Condition of household drain : Requires regular cleaning ;

Condition of peri-domestic municipal drain : Requires regular cleaning ;

Construction sites : 1 (one) ;

Other major outdoor breeding sites :

Larvicidal activity by the ULB : Yes ;

Fogging done by the ULB : Yes ;

IEC :

- a) Meeting of the Councillors at ULB level : Yes ;
- b) Meeting with Community : Yes ;
- c) Leaflet distribution : Done (copy enclosed) ;
- d) Banners / Hoardings : Yes. Suggestions given to Municipality.
- e) Miking : Yes. Suggestions given to Municipality.
- f) Others, if any : Suggestions given to Municipality.

Issues discussed with the Chairman / Commissioner after visit: (i) Held detailed discussion with Chairman, Executive Officer, Dr. Ajay Singh, SAMO, team of Supervisors etc. Discussed their strategy for tackling dengue and problem areas. The population of the Municipality is approx. 1,20,000

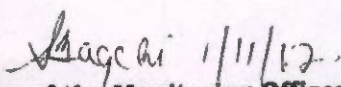

- (ii) Status of fund expenditure was also discussed ;
- (iii) The number of teams doing house to house visits are comparatively less (58) ;
- (iv) Floating population needs to be covered.

Remarks, if any : The area has 38 primary schools, 10 high schools, 30 private schools, 1 ITI and 108 Anganwadi Centres. There are 3 private laboratories for diagnostic services and 1 private hospital (BMRC). The Missionaries of Charity have a Home in this area. Power Generation Plant of Titagarh (CESC), one Railway Station (Titagarh Station) and several jute mills are an important aspect of this Municipality.

Contd.....P/2.

Suggestions :

- i) Increasing the frequency of house to house visit ;
- ii) Putting up festoons and flex banners near all educational institutions ;
- iii) Proper cleaning of garbage in markets and road sides to be ensured ;
- iv) CDPO ICDS to be made part of the core team so that he can mobilize supervisors, anganwadi workers and helpers to sensitise the mothers and children within their coverage area ;
- v) Awareness drives involving local councillors, eminent and respected people of the area to be taken up once again ;
- vi) Miking and distribution of leaflets to be repeated. The timing of miking should be such that it reaches everyone ;
- vii) Under construction sites to be visited regularly to ensure proper cleanliness ;
- viii) The jute mills be sensitized to make their workers alert in averting dengue ;
- ix) All clogged drains, culverts, low lying areas to be cleaned meticulously ;
- x) The Municipality run hospital to be strengthened for providing better services to be people ;
- xi) The Laboratories and private hospital be directed to provide reports on incidence of dengue detection/suspicion to the Municipality on a regular basis ;
- xii) The inmates of the Home run by the Missionaries of Charity be sensitized about dengue prevention ;
- xiii) Regular fumigation and larvicidal application to be done.
- xiv) The Chairman was requested to keep the undersigned updated about steps being taken and other relevant information so that the next visit can be planned accordingly on 03.11.2017.

Signature of the Monitoring Officer.

- f) Others, if any : Fever camps held.

Issues discussed with the Chairman / Commissioner after visit :

Discussed with the Executive officer of the mpt. Suggestion regarding the strengthening of anti-larval activities stressed. The mpt. expressed concern over the linearity of fever cases. Overall satisfactory. given by Balaram Hospital to Dr. Sunanda Basu (A.P.O) performance. the Dept. of Health Signature of the Monitoring Officer & family welfare. They want the analysis of linearity of these cases to be done at the municipal level.

Dr. Sunanda Basu (A.P.O)

Monitoring Visit Format

KHARDAH MC / Municipality

Date :06/11/2017

Places Visited along with Ward No. :Ward no.-4(Santrapara and Haripukur)

Ward no.-5 (Hind Park,Madaripukur,Kamarpara)

Whether Councillor / Local Club Members involved in Dengue prevention activities :Local councillors of both wards are involved to some extent but needs a little more involvement according to the local people.

No. of container (probable sites for mosquito breeding) examined :110

Unmanaged garbage :No pile of garbage seen on the roads, but piles of garbage noticed in the vacant plots which are unmanageable by the ward sardars.

Condition of household drain : Household drains are clean.

Condition of peri-domestic municipal drain : The municipal drains are clogged throughout the wards and calls for declogging immediately. No larvae found in the drains due to regular larvicide spraying.

Construction sites : Some of the construction sites visited in Ward no. 4 had larvae in the lift areas

Other major outdoor breeding sites : Major outdoor breeding sites are abandoned plots and a few water bodies in the ward.

Larvicidal activity by the ULB : Larvicide sprayed regularly once a week. Local people are satisfied with that.

Fogging done by the ULB :Fogging done regularly.

IEC :

- a) **Meeting of the Councillors at ULB level :** On 6/11/2017, a meeting at the municipal level was organized with the Chairman, the councillors of all wards, IC(Khardah Thana), District Nodal person, SI, CDPO and all other municipality staff where every councillor discussed plan of action in their wards.
- b) **Meeting with Community :** Has been initiated in some wards.
- c) **Leaflet distribution :** Done.

d) **Banners / Hoardings** : Very few found.

e) **Miking** : Done.

f) **Others, if any** :A notice has been issued by the Chairman, Khardah Municipality regarding the imposition of fine to the plot owners if they fail to manage their plots by the 15th of November, 2017.

Issues discussed with the Chairman / Commissioner after visit :

Wards no. 4 and 5 have abundant vacant plots which need to be managed urgently.

The drains of the locality needs immediate declogging.

Remarks, if any i: Otherwise well managed wards.

The ward people are very much aware regarding dengue and other mosquito borne diseases.

One or two fever cases reported on the day of visit.

Dr Sunanda Basu

Dengue Monitoring Visit feedback - Howrah Municipal Corporation

Date - 01/11/2017

1. Before starting for Howrah, contacted with the Commissioner, Howrah Municipal Corporation and the Nodal Officer.
2. Reached HMC office at 4.00 p.m. as Nodal Officer insisted for discussion before going for visit to the wards areas.
3. Talked to the Commissioner about the Dengue issue. And the Nodal Officer, Dr. Bisakha Haldar and Dr. Ashutosh Kundu arrived at the Commissioner's chamber at 4.30 p.m.
4. During discussion, I tried to identify the problem areas, i.e. the badly affected areas and specific locations.
5. And when it was already 5.00 p.m. I wanted to visit some areas, but the Nodal Officer and others present requested me to visit during daylight for better understanding of the areas and the relevant problem issues.
6. The following are the problem locations which I will be visiting tomorrow. Nodal Officer informs that there may be garbage and stagnated water at all the following locations, but she has never visited the locations.
 - i) HIT Housing Complex - Ward No.42
 - ii) Post & Telegraph Housing - Ward No.43
 - iii) Godown & surrounding areas of Food Corporation of India - Ward No.38
 - iv) The location where the seized vehicles and tyres are kept at all the police stations of HMC areas.

I will be visiting the above-noted areas tomorrow and necessary measures will be taken.

Submitted.

Monitoring Visit Report

Rajpur-Sonarpur Municipality

Date 01/11/2017

Places visited along with Ward No-“	Rathtala-Kamalgazi under ward No 27
Whether Councillor/Local Club members involved in dengue prevention activities:	Councillors are involved
No of container(Probable sites for mosquito breeding) Examined	October 1 st round Total 13303 Larvae found-51 in 48 houses
Unmanaged garbage	Garbage on the road side found. Issued instruction for immediate removal .
Condition of household drain	Stagnant Water found in some cases
Condition of peri-domestic municipal drain.	Report will be submitted after next visit
Construction sites	This is a major problem in this municipality specially in ward No. 27 where there are so many under -construction buildings. Stagnant water found inside a building as well as outside drain. The role of engineering staff is not satisfactory though the municipal office is few feet away.
Other major outdoor breeding sites	Report will be submitted after next visit
Larvicidal activity by the ULB	It is learnt from Sanitary inspectors that Larvicidal is being spread periodically. The stock book checked and found that 120 litres of larvicidal has been distributed last week.
Meeting of the councillors at ULB Level	28/10/2017
IEC	
Meeting with community	Report will be submitted after next visit
Leaflet distribution	1.00 Lakh as intimated
Banners/Hoarding	Not found in any area
Miking	Done in last June, 2017. Instructed to do it again
Others, If any	The Municipality has 35 wards under 5 local offices. It is learnt that the ward no 27 is mostly affected because of under-construction sites. But the SAE of the local office showed casual approach when I asked him about the action taken. I did not get scope to meet councillors except ward No 28. I shall visit the municipality again on 04/11/2017 and meet councillors, health workers, engineers for taking action to combat the menace.

GOVT OF WEST BENGAL

Detail visit report at Baruipur Municipality on 01.11.2017 in connection with prevention and control of Vector borne diseases.

1. Visited Baruipur Municipality on 01.11.2017. Met with Shakti Roy Chodhudhury, Chairman and Smt. Mita Dutta, CIC health of Baruipur Municipality.
2. Discussed various activities taken by Baruipur Municipality to prevent and control Dengue and other vector borne diseases. There are 14 fever cases reported so far and 12 cases under the Municipality. No death case has been reported till date.
3. Had a meeting with 10 supervisors for house to house activity in presence of Executive Officer of Baruipur Municipality, Sri Swadesh Mondal and Nasrin Akhtar, nodal officer of ULB for control of Dengue and Sri Pallav Bharati conservancy supervisor.
4. Visited SD Hospital, administrative buildings, market complex and adjacent areas under ward no. 15.
5. Main problem of unmanaged garbage is lack of public awareness. Within 1 to 2 hours of cleaning again dumping is going on.
6. There are 7 to 8 construction sites under Baruipur Municipality, but as per the reports of the supervisors no water logging problem has been found there.
7. Fogging machine received by the Municipality in last week and demonstration is going on under supervision of Baruipur BDO. Fogging will be started by the Municipality in coming week.
8. Total 356 conservancy staff are there and 5 staff are dedicated to each ward for sweeping, cleaning, spraying larvicidal, spreading bleaching etc under supervision of local councillor.
9. 34 larvicidal spray machines are there under Baruipur Municipality and they have placed requisition of another 34 machines to SDO, Baruipur.
10. Checked stock of larvicidal - they have placed requisition keeping in hand of 45 lits. oil.
11. The main problem of this Municipality is wards and panchayet areas are adjacent. There are no proper drainage system under panchayet area which badly affects the initiative taken by this ULB regarding cleanliness program.
12. House to house visit programs ended on 01.11.17. They are asking for the new order.

Sub : Prevention and control of Vector Borne Diseases

Ref : No. 25/SS/KSG/2017 dated 03-11-2017 of Special Secretary,
UDMA Department

Sir ,

With reference to above, this is to inform you that this Authority has taken the following actions in connection with preventive measures for the Vector Borne Diseases :-

- i) 40 Flex and 20,000 Leaflets have already been supplied to 8 respective administrative blocks, Sub-Divisional Officers and Block Medical Officer of Health which has been widely displayed/circulated for awareness.
- ii) It is to mention that 8 Blocks have been provided antilarvisidal spray @ 25 litres per block initially and further being provided on need basis.
- iii) Fogging has been done in the rural areas of the block jurisdiction @ 56/hours per block.
- iv) 100 kg bleaching powder per Block is being procured, to be distributed immediately in favour of all Blocks.

Ref : His Order No. SUDA/-257/2017/852 dated 31.10.2017.

Sub : Monitoring of Dengue preventive activities in the Urban Local Bodies (ULBs).

Sir,

With reference to the above noted order, enclosed kindly find herewith the monitoring visit report of the undersigned in respect of Ashokenagar Kalyangarh Municipality under North 24 Parganas District. The visit was made on 08.11.2017.

Encl : As above.

Yours faithfully,

Member Secretary

Monitoring Visit Format
Ashokenagar Kalyangarh Municipality

Date : 08.11.2017

Places Visited along with Ward No. : **Manicktala, Ward No.23**

Whether Councillor/Local Club Members involved in Dengue prevention activities : Yes. All clubs have been invited by the Municipality on **09.11.2017** for a detailed discussion.

No. of Container (probable sites for mosquito breeding) examined : **No. of containers examined in 12 rounds from May, 2017 up-to-date 5,74,000 approximately**

Unmanaged Garbage : NIL

Condition of household drain : Inspected in Ward No. 23, but found drains are, more or less, clogged with silt and garbage.

Condition of peri-domestic municipal drain : Small drains are, more or less, cleaned, but big drains and kutchra drains are found to be clogged with silt and garbage.

Construction sites : There are 6 construction sites at present (6 – PHE-OHR, 2 – Health Centre). No accumulation of water is there.

Other major outdoor breeding sites : NIL

Larvicidal activity by the ULB : Larvicidal oil is being spread in all vulnerable areas in the Ward. The responsibilities have been given to the Councillors for spreading oil.

Fogging done by the ULB : ULB has got 5 nos. of Fogging Machine and 48 nos. of Spreading Machine. Approximate 500 times Fogging has been done so far. Councillors have been given the responsibility to use the machine as per needs.

IEC :

- a) Meeting of the Councillors at ULB level : It is being done regularly and a detailed discussion took place in the Board Meeting, held on **07.11.2017**.
- b) Meeting with Community : No specific information has been received from the Municipality. Chairman has been requested to hold a meeting immediately.
- c) Leaflet distribution : Leaflets have been distributed in all the house-hold.
- d) Banners/Hoardings : Banners/Hoardings are put up in important Public places.
- e) Miking : Miking is being done on regular basis in all the Wards of the Municipality.

- f) Others, if any : A meeting was held with the Municipal Health Workers to review the IEC progress. It is noted that some household are not giving much response to the advices of the Supervisors and Health Workers. They are advised to take assistance of the Councillors in those households during the next course of visit.

Issues discussed with the Chairman/Commissioner after visit :

- 1) It is felt that Blood examination and the delivery of the report should be made at the Ashokenagar Municipal Area itself in order to avoid delay, as presently the Blood samples are being taken by the Hospital and the same are sent to Barasat Sadar Hospital for test and report on presence of Dengue virus, if any. The Chairman has been requested to search out for Pathologist and Technician. The Eliza machine is provided by the SUDA.
- 2) The Chairman has also been requested to take up cleaning operation of clogged drains on **war-footing basis** using machine and expert labourers. It is to be ensured that no accumulation of drainage water there.

Remarks, if any :

Saikat Kumar Dutta,
Member Secretary, WBVB & Joint
Secretary, U.D & M.A. Deptt.

Ref: Letter of the Special Secretary, Dept. of U.D. & M.A., Memo No.-25/SS/KSG/2017, Dt.-
03.11.2017

Sir,

With reference to subject noted above I am to inform you that we have been doing the preventing works eg. cutting jungles, bushes, spreading bleaching powder since the outbreak of Dengue in the Baisakhi Abasan(C-Type) , Salt Lake, though cleaning of Baisakhi Abasan is done on regular basis through out the year. Also, we have started the spraying of mosquito oil in the Baisakhi Abasan from 01.11.2017 till today regularly. Further, we have started more preventive measure towards the vector Borne Diseases in the construction site ' SUBHANNA', beside Nagarayan, DF - Block. It is also decided for fogging besides above mentioned measures in the said abasans/sites.

Yours faithfully,

Chief Executive Officer
Asansol Durgapur Development Authority

**Monitoring Visit Format
Ashokenagar Kalyangarh Municipality**

Date : 09.11.2017

Places Visited along with Ward No. : **Municipality Office.**

Whether Councillor/Local Club Members involved in Dengue prevention activities : Yes. All clubs of Ashokenagar Municipal area, CIC members and some of the Councillors participated in a meeting on 09.11.2017 for a detailed discussion of Dengue prevention activities.

No. of Container (probable sites for mosquito breeding) examined : **No. of containers examined in 12 rounds from May, 2017 up-to-date 5,74,000 approximately.**

Unmanaged Garbage : NIL

Condition of household drain : Inspected the areas in and around Municipal Office in Ward No. 11, but found drains are partly cleaned and partly clogged with silt and garbage.

Condition of peri-domestic municipal drain : Small drains are, more or less, cleaned, but big drains and kutcha drains are found to be clogged with silt and garbage.

Construction sites : NIL

Other major outdoor breeding sites : NIL

Larvicidal activity by the ULB : Larvicidal oil is being spread in all vulnerable areas in the Ward. The responsibilities have been given to the Councillors for spreading oil.

Fogging done by the ULB : ULB has got 5 nos. of Fogging Machine and 48 nos. of Spreading Machine. Approximate 500 times Fogging has been done so far. Councillors have been given the responsibility to use the machine as per needs.

IEC :

- a) Meeting of the Councillors at ULB level : It is being done regularly and a detailed discussion took place in the Board Meeting, held on 07.11.2017.
- b) Meeting with Community : No specific information has been received from the Municipality. Chairman has been requested to hold a meeting immediately.
- c) Leaflet distribution : Leaflets have been distributed in all the house-hold.
- d) Banners/Hoardings : Banners/Hoardings are put up in important Public places.

- e) Miking : Miking is being done on regular basis in all the Wards of the Municipality.
- f) Others, if any : Local clubs of Ashokenagar Municipal areas have been given an orientation about the "dos & don'ts" of Dengue prevention activities in the meeting. They have been urged to come forward for doing the cleanliness operation voluntarily.

Issues discussed with the Chairman/Commissioner after visit :

- 1) It is felt that Blood examination and the delivery of the report should be made at the Ashokenagar Municipal Area itself in order to avoid delay, as presently the Blood samples are being taken by the Hospital and the same are sent to Barasat Sadar Hospital for test and report on presence of Dengue virus, if any. The Superintendent of the Hospital informed that Pathologist and Technician may be provided from his end, but one Eliza machine is required to be installed there. It may kindly be considered whether an Eliza machine may be provided by SUDA to Ashokenagar State General Hospital to combat the present difficulties.
- 2) The Chairman has also been requested to take up cleaning operation of clogged drains on **war-footing basis** using machine and expert labourers. It is to be ensured that no accumulation of drainage water there.

Remarks, if any :

Saikat Kumar Dutta,
Member Secretary, WBVB & Joint
Secretary, U.D & M.A. Deptt.
(Signature of the Monitoring Officer)
