**West Bengal state Immunization Support Cell (WBSISC)**  
**Department of Community Medicine**  
**Medical College, Kolkata**

**Curriculum plan for district level**  
**Vaccinator/FTS/Cold chain handlers training**

Day	Venue	Activity
1	Training centre	Inauguration, introduction to the training programme and schedule, introduction of the participants & facilitators, pre test assessment. Introduction to the module, chapter 1-3. Exercises for those chapters.
2	Training centre	Chapter 4-6 of the modules- interaction, exercise, role play on safe injection practices
3	Training centre	Chapter 7-9- interaction, group activity on arranging a vaccination session: required logistics, steps for carrying out it.
4	Training centre	Chapter 10, annexure 1-6, interaction, exercise, group activity- making charts 'Dos/Don'ts' in different aspects of immunization.
5	Training centre	feed back-interaction, post test, plan for the next hands-on training- a briefing on giving injection
6	PPunit	Overview of the PP unit, its functioning, staff pattern, out reach activity. Vaccination session observation, identifying vaccine vials, AD syringes, Vitamin A oil etc.
7	PPunit	Identifying cold chain equipments at the store and at the vaccination point. Understanding the system of vaccine procurement and persons responsible at different levels.
8	PPunit	Keeping the vaccines in ILR, Keeping the vaccine in the vaccine carriers, conditioning of the ice packs.
9	PPunit	Maintenance of the ILRs, vaccine carriers & cold boxes with using deep freezer to prepare the ice packs. Important contact persons for emergency.
10	PPunit	Practical training on BCG vaccination starting from identification of the vaccine & diluents, technique of reconstitution injection, site selection, post vaccination advice, follow up. Administering vaccines
11	PPunit	Practical training on DTP1/DTP2 vaccination starting from identification of the vaccine, injection, site selection, post vaccination advice, follow-up. Administering vaccines
12	PPunit	Practical training on OPV vaccination starting from identification of the vaccine, post vaccination advice, follow-up. Administering vaccines
13	PPunit	Practical training on measles vaccination starting from identification of the vaccine & diluents, technique of reconstitution, injection, site selection, post vaccination advice, follow up. Administering vaccines
14	PPunit	Practical training on Vitamin A administration starting from identification of the bottle, expiry & shelf life, dose/amount, post administration advice, follow up. Training on using Immunization card & tickler bags. Administering vaccines
15	PPunit	Training on waste disposal at the site of vaccination.
16	PP unit	Monitoring of the immunization session using GOI monitoring format, followed presentation of findings. (Individual activity)

17	Field/ward vaccination posts	Field level activity to prepare a micro-plan- 3 groups, 3 vaccination points
18	Field/ward vaccination posts	Field level activity to prepare a micro-plan
19	Field/ward vaccination posts	Field level activity to prepare a micro-plan
20	Training centre	Presentation of the micro-plan and discussion, identifying the constraints of actual implementation- engaging different small groups to find out solution.
21	PPunit	Carrying out a vaccination session (group activity)-in an ULB starting from collection of vaccines to actual conduction of session to filling up forms and returning to the distribution point.
22	Training centre	Identifying constraints in carrying out the session, engaging groups in finding out solution to the identified problems.
23	Training centre	Discussion of the solution and documentation.
24	Training centre	Role play on motivation for vaccination session for a working mother for 2 unvaccinated under-five children, group activity by 3 groups separately, best performing group to be praised/gift?
25	Training centre	Concluding session, post test evaluation, function, certificate distribution, plan for periodic future evaluation.

১)সম্পূর্ণ টিকাকরণ হলঃ-

- ক) বিসিজি, ডিপিটি-III, ওপিভি-III, মিজিলস এক বছরের মধ্যে।
- খ) বিসিজি, ডিপিটি-II, ওপিভি-II, মিজিলস-I এক বছরের মধ্যে।
- গ) বিসিজি, ডিপিটি-III, ওপিভি-III, হেপাটাইটিস্-বি এক বছরের মধ্যে।

২)বিসিজি দেওয়া হয় -----

- ক) জন্মের পর থেকে দেড় মাস বয়স পর্যন্ত।
- খ) জন্মের পর থেকে পাঁচ বছর বয়স পর্যন্ত।
- গ) জন্মের পর থেকে এক বছর বয়স পর্যন্ত।

৩)হামের টিকা দেওয়া হয়-----

- ক) ৯মাস থেকে ১০মাসের মধ্যে।
- খ) ৯মাস থেকে ১২মাসের মধ্যে।
- গ) ৯মাস থেকে পাঁচ বছর বয়স পর্যন্ত।

৪)ভিটামিন "A" অয়েল দেওয়া হয় -----

- ক) রাতকানা রোগ প্রতিরোধের জন্য।
- খ) রাতকানা ও অন্যান্য রোগ প্রতিরোধের জন্য।  
(যেমন পাতলা পায়খানা এবং শ্বাসকষ্ট)
- গ) যক্ষ্মা রোগ প্রতিরোধের জন্য।

৫)ভিটামিন "A" অয়েল দেওয়া হয় -----

- ক) ৩বছর বয়স পর্যন্ত।
- খ) ৫বছর বয়স পর্যন্ত।
- গ) ১০বছর বয়স পর্যন্ত।

৬)হিমশৃঙ্খল(কোড চেইন) বজায় রাখা হয়---

- ক) ভ্যাকসিন এর গুণগত মান ঠিক রাখার জন্য।
- খ) ভ্যাকসিন ঠান্ডা রাখার জন্য।
- গ) উপরের কোনটাই নয়।

৭)হিমায়িত করা যাবে না---

- ক) ডিপিটি, টিটি, ডিটি, হেপাটাইটিস্-বি।
- খ) ডিপিটি, ওপিভি, ডিটি, টিটি।
- গ) বিসিজি, ডিপিটি, টিটি।

৮) গরমে শীত্রই নষ্ট হয়-----

ক) বিসিজি, ওপিভি, মিঞ্জিলস্।

খ) হেপাটাইটিস্-বি, বিসিজি, ওপিভি, মিঞ্জিলস্।

গ) উপরের সবগুলোই।

৯) ডিপিটি দেওয়া হয়-----

ক) ০-২ বছরের মধ্যে।

খ) ৮-২.৫ বছরের মধ্যে।

গ) ০-৩ বছরের মধ্যে।

১০) ভ্যাকসিন বহন করার পাত্র।

ক) থার্মো ফ্লাস্ক

খ) ভ্যাকসিন কেরিয়ার।

গ) ডি কেরিয়ার।

১১) ভিভিম কোন পর্জায় পর্যন্ত দেবো।

ক) ১,৩

খ) ১,২

গ) ১,২,৩,৪

১২) বিসিজি ইনজেকশানের universal site হল।

ক) বাম বাহুর উপর দিকে।

খ) ডান বাহুর উপর দিকে।

গ) যে কোন বাহুর উপর দিকে।

১৩) মিঞ্জিলস্ ইনজেকশান কোন হাতে দেওয়া হয়।

ক) বাম বাহু।

খ) ডান বাহু।

গ) যে কোন বাহু।

১৪) হেপাটাইটিস্-বি ইনজেকশান কয় মাত্রা

ক) ১,২,৩

খ) ১,

গ) ১,২

১৫) হামের টিকা দেওয়া হয়।

ক) চামড়ার নীচে।

খ) মৎসপেশীর ভিতর।

গ) চামড়ার ঝিল্লি।

১৬) ডিপিটি ডোজ/মাত্রা

ক) ০.৫ মিলি

খ) ০.০৫ মিলি

গ) ০.১ মিলি

১৭) ভিটামিন "A" অয়েল শুরু করা হয়

ক) হামের টিকার সাথে।

খ) ৯-১২ মাসের মধ্যে।

গ) উপরের সবগুলোই ঠিক।

১৮) বিসিজি এবং হামের টিকা মিশ্রিত করার পর সাধারণ তাপমাত্রায় খুববেশী হলে।

ক) ৪ ঘন্টা রাখা থাকে।

খ) ৬ ঘন্টা রাখা থাকে।

গ) ২ ঘন্টা রাখা থাকে।

১৯) নিরাপদ ইনজেকশান বলতে বোঝায়।

ক) গ্রহীতার যাতে কোন ক্ষতি না হয়।

খ) ব্যবহৃত সিরিঞ্জ এবং নিডল পুনরায় ব্যবহার করা যাবে না।

গ) উপরের সবগুলো ঠিক।

২০) অটোডিজেল সিরিঞ্জ----

ক) পুনরায় ব্যবহারের জন্য প্যাকেটে সংরক্ষন করুন।

খ) সিরিঞ্জ একবার টেনে ঢেক করে নিন।

গ) উপরের কোনটাই নয়।

**RI monitoring by Asansol NTS**

Inbox X

Saumendra Nath Bagchi to me, DE

[show details](#) Apr 12 (4 de

Dear Madam,  
attached documents is the copy of the letter for SUDA. We would like to strenthen the RI in AMC through monitoring by Asansol NTS.  
The analysis report will be shared with you

**WEST BENGAL STATE IMMUNIZATION SUPPORT CELL**  
**Department of Community Medicine**  
**Medical College, Kolkata**

No./2010/45

Date: 12<sup>th</sup> April, 2010

To  
The Sister Tutor ( incharge)  
Asansol NTS

**Sub: RI monitoring by the NTS faculty**

Dear madam,

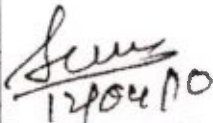

WBSISC wish to thank NTS Asansol for conducting skill development training of AMC and due to this the AMC increased RI centre in different wards. The revised microplan has been prepared with technical support from WBSISC. Now RI monitoring is very much required to observe the gaps and AMC can be advised accordingly.

WBSISC requesting NTS Asansol to detail one faculty on every Wednesday starting 21<sup>st</sup> april 2010 for four Wednesday. The faculty will visit minimum 5 RI centre / week and filled up RI monitoring format. WBSISC will provide transport facilities to the faculty. The DE Burdwan will coordinate the activities and will bear transport cost for the monitor. The DE will visit to your place to brief the faculty on monitoring format.

It is expected that with support from NTS asansol, the quality immunization will improved further and the purpose of skill development will be fulfill.

Thanking You

Yours faithfully

**Dr. Samir Dasgupta**  
Prof. & Head, Community Medicine  
Medical College, Kolkata &

To  
The CMOH  
P.O.& Dst. Coochbehar  
Through the BMOH Haldibari Rural Hospital.

Sub. Permission for Immunization Programme.

Respected Sir,

I have discussed with BMOH Dr. Tapash Das, of Haldibari rural hospital that we desire to organize immunization programmed, once in a week in each Sub. Center from the month of April.2010 and the schedule is furnished below.

Once in a week in each purr centre hence we require  
Inj.B.C.G, D.P.T, Oral polio, Inj. Measles Vaccine, Inj. T. Toxoid, E.T.C.

It is also for your kind information that 3Nos. of First Tear Supervisor has aailed competence certificate from Jalpaiguri nursing Training institute (under C.M.O.H. Jalpaiguri Sadar Hospital ) and the Xerox copies of the certificate are enclosed herewith.

Hoping to be favored by your sympathetic consideration and permission, I remain,

Thanking You.

Copy Forwarded To, *no. B 5(ii)/107 dt. 07.04.10*

Yours faithfully

- 1) To The B. M.O.H Haldibari
- 2) To The SUDA Kolkata.

*Pabesh Nath Saha.*

Health Officer

**Minutes of the meeting held on 5<sup>th</sup> March 2010 at HAU-VI regarding strengthening of Routine immunization:**

A coordination meeting was held at HAU-VI with presence of District Extender of WBSISC, Health Officer Maheshtala Municipality, all FTS, HHWs of HAU VI, ICDS workers from different wards to discuss the modality for strengthening RI under the HAU VI. After deliberation with all stakeholders following decision was taken -

1. Henceforth the RI will be on fixed site and fixed days in a week. All outreach immunization sites has been discontinued from now onwards.
2. There will be one fixed RI sites in all wards under HAU VI which will function on every Wednesday from 12 noon to 3 PM. The list of the centre are as follows

SL NO	WARD NO	NAME OF THE CENTRE	NAME OF VACCINATOR
01	07	HAU-VI	Anima Mitra (1 <sup>st</sup> & 3 <sup>rd</sup> Wednesday)
02	07	HAU-VI	Uma Das (2 <sup>nd</sup> & 4 <sup>th</sup> Wednesday)
03	08	Lukhi Atheletic Club	Babunnessa
04	18	Udayan Sangha	Chayya Mandal
05	19	Municipal SC	Monika Maity
06	20	Bhatri Sangha	Sunanda Bhattacharjee (1 <sup>st</sup> & 3 <sup>rd</sup> Wednesday)
07	20	Udayan Club	Manjula Ghosh (2 <sup>nd</sup> & 4 <sup>th</sup> Wednesday)
08	21	Municipal SC	Minara Khatun

3. The vaccines will be supplied from Cold chain point to the HAU building on every Wednesday by 11.00 AM. It will be further distributed to respective RI sites through a designated health worker. Health officer will finalize the name of the person and it will be incorporate in the micro plan.
4. Similarly after the end of the sessions all unused sealed vaccines, logistic will be returned back to the HAU-VI by 4.30 PM. It will be further transported back to CC point
5. It was decided that to start with each RI sites will get following vaccines on every Wednesday  
BCG= 1 Vial, DPT=3 vial, HepB= 1 vial, Measles= 2 vial, OPV= 2 vial, TT= 1 vial. AD syringes and disposable syringes= as per the scale, Immunization cards, cotton and other logistics.
6. The final report from the Municipality will be recorded in NRHM format (for PHC) to the district on a fixed day in every month.
7. The latest Immunization schedule has been shared with all participants. It is expected that it will followed without any deviation.
8. Municipality will place a demand for all UIP vaccines (including HepB) before the District on monthly basis. The district will supply the same subjected to availability.

9. For mobilization, The AWW will forward the beneficiaries to a fixed centre located in the same ward. AWW will ensure that all eligible beneficiaries will get vaccination in time. AWW will prepare separate records for the referred beneficiaries.
10. For Better coordination among all stakeholders, there will be regular monthly coordination meeting between health & ICDS at HAU-VI.
11. For transportation of Vaccines & logistics from HAU to Immunization Centre & Back an amount of Rs.50/- only will be given from KUSP/IPP-VIII fund.
12. The overall supervision will be done by the UHIO & AHO of the Municipality.
13. Regarding IEC the NGOs like Right Track/ENGIO will be requested to take active part.
14. The Councilor of above wards are requested to inaugurate the opening session at his ward along with all the members of the ward committee & influential person of the ward.

**The programme will start from 7<sup>th</sup> April 2010. All are requested to participate.**

The CMOH  
Dakshin Dinajpur District

Sub: Monthly requirement of vaccines for Strengthening Routine Immunization  
at Gangarampur Municipality,

Sir,

Recently Health Dept. of Gangarampur Municipality reviewed the Routine Immunization activities with all Municipal Health staff. WBSISC was present to provide technical support. Superintendent of Gangarampur SDH and other staffs of PP Unit & BPHN, PHN were also present. It was decided that from 3<sup>rd</sup> week of March 2010, we will expand the coverage area. Accordingly all Wednesday, the RI activities will be conducted at 04 RI centre in different municipal wards. The micro plan has been prepared and shared with MO PP unit also.

Municipality will collect vaccines and logistic from PP unit of the district Hospital on the day of the immunization Session. The requirement of vaccines (in vials) on monthly basis will be as under:

TT= 16 Vial, BCG= 16 Vial, DPT= 16 Vial, OPV= 16 Vial, Hep-B= 16 Vial, Measles= 16 Vial,  
DT= 16 Vial, 0.1ml AD syringes= 176 Pcs, 0.5ml AD Syringes= 800 Pcs, 5ml Disposable  
Syringes= 36 Pcs, Blank immunization cards= 240 Pcs NRHM PHC reporting format = 12.

The Municipality will send consolidated monthly report to PP unit for district compilation. It is requested that necessary approval may kindly be accorded to Municipality for the drawing above quantity of vaccines.

Thanking You,

Yours faithfully

**Sub: - Review of Routine Immunization activities in urban areas of Murshidabad district and fourth coming IPPI Round**

Dear Sir/Madam

While reviewing the R.I activities in urban areas it has been found that the coverage of different antigen are very low and many of the under served and marginalised population are remain un covered. To strengthen the R.I in urban areas the concerned ULBs need to take a pro active role and they must improve the R.I coverage in there jurisdiction the P.P unit located at ULBs can not covered the whole population. Ward based R.I centre need to open to cover the vast left out population.

It has been observed that with the support of SUDA (H), WBSISC, N.T.S-Murshidabad and Dist. family welfare Dept. a good no of F.T.S were recently trained on skill development training of Immunization. These newly trained F.T.S can be effectively utilised to strengthen the R.I in ULBs.

In this connection, a review meeting of R.I in ULBs will be organised on 5<sup>th</sup> Jan-2010 at 1 pm at District health and family welfare samity meeting hall (Attached CMOH Bung low).

This meeting will also discuss the preparing of the fourth coming IPPI Round in ULBs.

You are here by request to attend the meeting and share your valuable suggestion in the subject.

Thanking You

P 24/12/09  
Chief Medical Officer of Health  
Murshidabad.

Dear madam,  
as discussed, the invitation from CMOH is enclosed. kindly ensure that participation of Chairman and HO in the meeting to resolve the bottleneck. this can be an excellent platform to discuss vaccines/ cold chain/ reporting issue. The principal NTS name in the invitee list to ensure future training of FTS. I will share the detail coverage data of ULB with you for your understanding the current situation.

I would like to thank you for your initiatives.

Sub:- Prayer for supplying Immunization Vaccine & necessary equipments.

Sir,

I have the honour to inform you that Immunizaion Tranning Programme is going on at Diamond Harbour S.D. Hospital. Four F.T.S. of our Municipality are taking the tranning and it will be completed on 24-12-2009.

I am eagerly intersted to start the Immunization in our four Sub-Centres as early as possible. I would, therefore, request you kindly to make an arrangement to supply the vaccines, refrigerator, I.L.R., Vaccine carrier & other necessary equipments.

Thanking you,

Yours faithfully,

## Discussion points and issue of necessary order from SUDA

- ✓ 1. All ULB RI activities will be fixed day( Wednesday) and fixed sites( at least one/ ward to start with )
- ✓ 2. The frequency of the session may be every Wednesday ( preferably) or once in 15 day ( 1<sup>st</sup> & 3<sup>rd</sup> Wednesday)
- ✓ 3. All trained FTS will act as vaccinator- one/ ward
- ✗ 4. All other FTS/HWW who is presently giving vaccination may be utilized in other wards where trained FTS vaccinator is not available.
- ✓ 5. Vaccination done by PP unit, NGO, Urban ICDS , central agencies etc will also follow the same principle. The location of RI sites for this org will have to incorporate in ULB microplan ( stand alone service should be discourage)
- ✓ 6. Vaccines supply may be from ULB ( if at least one functional ILR &DF available) to all units except PP unit or from two sources ( one is ULB and other is PP unit). A good coordination with Dy CMOH-III, MO PP unit is essential
- ✓ 7. For transporting vaccines to the session sites, ULB may consider following options  
Option A- vaccines transport at the RI sites by ULB through vehicle  
Option- B- one designated person for each RI site will collect vaccines on Wednesday
- ✓ 8. Fund requirement for vaccines transportation may be met from ULB concern at the beginning. Later on ULB may submit a consolidated funding requirement to the Dy CMOH III( through concerned ACMOH) mentioning Govt order under hired vaccinator ( SUDA may share the Govt order. The calculation of funding requirement will be @ Rs 50/ centre / frequency of monthly session x 12 month
- ✓ 9. The scale of supply of vaccines may be fixed without considering the ward wise target or only BPL target. Urban immunization needs consolidated planning as the catchments area/ beneficiaries for each wards are always overlapping.
10. For analysis of the % of coverage, first total population of ULB (for current year) should be multiply with urban birth rate (as per SRS2009). The coverage of every organization ( including PP unit) should be added to find out total coverage of the ULB. The ratio of total coverage with target will give % of coverage.
- ✓ 11. ULB must follow UIP schedule. Similarly all available vaccines should be given to beneficiaries ( including HepB)
- ✗ 12. As far as possible ULB should discourage vaccination by private doctor/ pediatrician who are receiving vaccines from Govt. If ULB organized ward based immunization sites, such requirement will become minimal.
- ✓ 13. ULB should involved urban ICDS to mobilize the beneficiaries to the fixed sites. To do so, a coordination meeting should be organized with ICDS workers, supervisors, CDPO and list of all RI sites must be shared with ICDS workers.
- ✓ 14. ULB may consider supplying referral slip to ICDS workers who will issue to the beneficiaries to attend the RI sites. The RI sites will keep the referral slip. It will help them to evaluate the strength of referral mechanism by ICDS
- ✓ 15. Finally ULB must compile consolidate RI coverage report from all stake holder who are taking vaccines from ULB cold chain point to the District/ PP unit under NRHM format ( PHC reporting format) on fixed day following month. A copy of the report will be send to SUDA (H) also.

*To add /*  
ULB should take a proactive role in strengthening urban RI. It is the responsibility for ULB to provide quality RI service to all people under the ULB. PP unit or other agencies are helping ULB to enhance coverage. But they can not function independently without the knowledge of ULB

DNFWS may issue structures. With copy to SVD

8. The Secretary IRCS / LIONS CLUB / ROTARY CLUB, Asansol
9. The Secretary IRCS / LIONS CLUB / ROTARY CLUB, Durgapur

**Sub: Routine Immunization Guidelines**

Dear Sir / Madam,

*I would like to thank you for sending your Medical Officers and other staff for Routine immunization training of trainers at Asansol which was held on 16-12-2008 & 17-12-2008 at Asansol Municipal Corporation conference Hall. I do hope after the training Programme the RI activities will be more streamlined. However during interaction with participants, it has been found that there are some gaps in conducting RI in your organization. I would like to share the State and National guidelines, so that necessary actions can be taken at your end.*

- ✓ 1. Currently, State Health & FW Dept. do not allow domestic refrigerator in keeping vaccines for the sake of vaccines potency. Kindly discontinue the use of domestic refrigerator.
- ✓ 2. Those organizations that require bulk vaccines for coverage of huge number of infants and conducting RI on all working days should use ILR for keeping vaccines. The ILR will be supplied by the State Health & FW Dept. as per availability. Kindly discuss the issue with ACMOH Asansol / Durgapur and place the demand at ACMOH office.
- ✓ 3. Those organizations who will conduct RI once in a week, must conduct RI on Wednesday only to keep parity with the National immunization day. In such situation, vaccines can be taken from nearest BPHC/vaccine storage point on the day of immunization in vaccines carrier by the concerned organization. Kindly discuss the issue with the ACMOH & BMOH concerned and finalize the vaccine-lifting plan.
- ✓ 4. Immunization activities must be carried out by Auto Disposable syringes (ADS), which will be supplied from the concerned Block / ACMOH office. Similarly for reconstitution of BCG and measles vaccines, separate 5ml disposable syringes must be used which will again be supplied along with vaccines.
- ✓ 5. Currently many organizations fixed different days for different vaccines. The guideline says all vaccines must be available on all vaccination days. Kindly reorganize the activities accordingly.

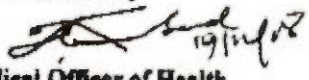

6. The frequency of RI sessions should be based on a rational Microplan based on estimated number of beneficiaries at the session site. This has been discussed in detail in the TOT and National guidelines in this issue may kindly be followed.
7. The dose, route, site and the schedule must be maintained as per National guidelines, which were shared with all participants during the training.
8. All agencies must use Gov Universal Immunization cards for all beneficiaries, which will be supplied by the District along with the vaccines. No other Immunization card will be allowed. However all organization may use rubber stamp of their organization on the cards.
9. Kindly ensure that ACMOH Asansol & Durgapur is consulted on regular basis to get updated on technical issues and other administrative issues. It will improve the quality immunization activities throughout the District.

Thanking you,

Yours faithfully

Chairman, Dhulian Municipality – the visit of Health Expert, CMU in connection with to explore action regarding strengthening of Health services particularly with regard to Biri Workers. She will meet you, Health Officer, Health Workers, CDS members, will visit Sub-Centres and will have dialogue with the Community. You are requested to arrange for the same.

Project Manager, CMU

## Report on visit to Dhuliyān Municipality

As per instruction of Secretary, Dept. of Municipal Affairs vide no. 1152/1(6)-S/09 dt. 14.11.2009, the undersigned visited Dhuliyān Municipality on 23.12.2009.

The undersigned met the Chairman, staff of M & S Cell, HHWs and discussed on Health programmes, visited all the five Sub-Centres, talked with bidi workers in five slums.

The following discussions were held and actions / decisions arrived at :

Items of discussion	Actions/ Decisions arrived at
<p><b>Functioning of Sub-Centres:</b></p> <p><b>General Treatment Clinic</b> Though five Sub-Centres have been identified but not yet made functional. To run one General Treatment clinic per week per SC, it needs more than one doctor (other than Health Officer) in position. The ULB is entitled to get one Medical Officer as per guideline in addition to Health Officer. The ULB could not yet engage MO as it is felt that the remuneration is low to get a doctor.</p> <p><b>Immunisation Clinic</b> One BPHC of Health Department is functioning within the Municipal area where one Immunisation clinic is being held once in a week, this service could not be availed by the total population of the ULB due to distant location. Routine Immunisation Clinic from Sub-Centres could not be started by the ULB as there is need for hiring services of vaccinator, which is not available in the town.</p>	<p>However, the ULB would put all out efforts to engage MO by 1<sup>st</sup> week of January, 2010. Health Officer will prepare and send date-wise clinic schedule for all the five Sub-Centres to SUDA by 04.01.2010</p> <p>The ULB would put all out efforts to identify and hire service of at least one vaccinator by 1<sup>st</sup> week of January, 2010</p> <p><b>Alternative approach would be explored-</b> to impart hands-on training of 25 days duration to the FTSS at Nursing Training School, Murshidabad to create vaccinators. This is likely to take 3-6 months more.</p>
<p><b>Supply of Logistics</b> The ULB at present not getting logistics i.e. vaccines, IFA, Oral Pill, Condom, Vit. - A in Oil etc. from CMOH through the BPHC. There is a gap in between District Health Office and the ULB</p>	<p>Met and discussed with the CMOH and Dy. CMOH III, Murshidabad in the said issue. It is resolved that CMOH will call a meeting on 05.01.2010 with all the ULBs of the District to discuss gaps and solutions with regard to Routine Immunisation and ULB wise problems in getting supply of logistics towards implementation of Health programmes</p>
<p><b>Need for minor renovational works for existing Sub-Centres</b></p> <p>Three Sub-Centres out of five require minor renovational works like, fittings of light, fan, toilet etc. without which rendering of clinic services would be a constraint one. But, at present there is short of fund as released by DHFW to address this issue.</p>	<p>The Chairman may be asked to put a proposal with estimation. The Department may decide the source of funding.</p>

Contd. to P-2.

Items of discussion	Actions/ Decisions arrived at
<p><b>Need for provision of additional outreach service to the population</b> Health services could be provided to the population of Ward no. 1, 11, 12 &amp; 14 more effectively by establishing three more outreach service centres.</p>	<p>This activity could be undertaken through Innovative Challenge fund of CMU. One representative of Access accompanied the undersigned during the visit to Dhuliyani Municipality- CDS of the ULB has been asked to prepare and submit proposal in consultation with Health, SUDA.</p>
<p><b>Training Needs</b> The existing HHWs need re- training to update the RCH, Immunisation, National Health Programmes etc.</p> <p>On job training of HHWs selected for the post of FTSS</p>	<p>Training of Health functionaries on Routine Immunisation will be conducted by District Extender of WBSISC on 19.01.2010. Other training for HHWs, and staff of M &amp; S Cell will be imparted by Health Wing, SUDA on convenient dates after consultation with the ULB.</p> <p>Training will be imparted by Health SUDA during 04 – 08 January, 2010</p>
<p><b>Visit to Slums and interaction with bidi workers</b> Health of not only bidi workers but also other family members particularly children needs special attention including sanitation.</p>	<p>-This could be achieved through rendering clinic services from the five Sub-Centre with immediate effect from January, 2010. -Moreover this would be more intensified after establishment of three more out reach service centres through ICF -Repeated Awareness programmes are to be organised -Linkage with District TB Control Programme would be strengthened through CMOH, Murshidabad- this issue was discussed with him .</p>

To conduct  
training

Sub :- Implementation of Routine Immunization Scheme.

Ref :- Memo. No. CMU-94/2003 (Pt. VII)/3973(31), Dt. 20.03.2009 and  
Memo. No. CMU-94/2003(Pt.VII)/4039(31), Dt. 26/30.03.2009,

Sir/Madam,

We are willing to start immunization programme in our sub-center immediately. Though it was proposed previously for a Training of Health Workers to be held vide your above mentioned Memo, no training programme has yet been arranged. We also sent a list of F.T.S. candidates for the proposed training vide letter Memo. No. 17/CBPHC-8, Dt. 06.04.2009.

Under this circumstances, for arranging the immunization programme in the sub-centers, either the FTSS are to be trained urgently or, any other trained person are to be managed from outside.

Your kind suggestion regarding the above is highly solicited to start our immunization programme immediately.

Thanking you,

Yours faithfully

No./2009/63

Date: 12<sup>th</sup> December, 2009

**Visit note for Baharampur Municipality to review the Routine Immunization programme.**

The person meet- The Councilor ( Health), Baharampur Municipality, Health Officer, CDO, FTS, ANMs, Computer Assistant.

Training= 8 FTS had undergone skill development training. The ANM attached with ULB also act as vaccinator.

Current situation : total wards 25. RI centre in 8 wards. Frequency of sessions= once in a month for 7 wards, twice in a month for one ward. The ULB coverage is low. PP unit supply Vaccines on the day of immunization. ULB using vehicle for collection of vaccines.

Suggestive action for increasing RI coverage

1. To cover maximum geographical area, ULB should expand the RI centre to 11 and increase frequency, at least twice in a month may be 1<sup>st</sup> & 3<sup>rd</sup> Wednesday.
2. The wards where no SHP, ULB should identify suitable location either in club or any Govt building to start RI activities. No centre should be planed in ward where PP unit is located( to prevent duplication).
3. Total 11 vaccinators (8trained FTS + 3 ANMs) can be utilized as vaccinator. Two HHW may be depute to each RI centre for assistance during RI
4. WBSISC will provide technical support for preparation of microplan, vaccines requirement plan, vaccines distribution plan, IEC & Social mobilization plan, finalization of reporting structure (who will report to whom) and some technical issue. To do so, ULB can organize one day orientation for all staff.
5. The final microplan may be submltted by the HO to Chairman for approval before initiating the programme. A copy of the MP may be shared with SUDA (H), WBSISC, CMOH, PP unit.
6. The monthly consolidated coverage report may be submitted to District & SUDA on NRHM format.
7. The PHN may be given responsibility for day to day supervision, and HO, CDO may provide necessary supportive supervision.
8. ULB may engage vehicle and one or two link person to collect , distribute, return of unused vaccines on the day of immunization. For funding support on alternate vaccines delivery, The comprehensive proposal may submit to SUDA / CMOH for sanctioned.
9. The ULB may consider involvement of urban ICDS for effective mobilization. To do so, the ULB may coordinate with DPO and CDPO Sadar.
10. For further practice on BCG vaccination by FTS, HO may coordinate with MO PP unit for reorientation of FTS in small batches for indoor BCG vaccination. 2 FTS may be exposed to 3-4 days for practice. However, HO is advised to issue written request to MO PP unit with copy to CMOH, Dy CMOH-III, DPHNO. If the request letter shared with WBSISC, we will do the necessary advocacy.
11. The Programme can be reviewed after 3 months to increase/ decrease the frequency of sessions, relocation of session sites.

WBSISC will take this opportunity to thank Smt. Shukla sarkar, Councilor, Baharampur ULB for attending the meeting and showing keen interest. She can motivate other ward councilor for enhance community Mobilization.

No./2009/65

Date: 12<sup>th</sup> December, 2009

Observation on Routine Immunization at Jangipur Municipality on 09.12.09

Issue	Observation	Suggestive Action
Cold chain	All vaccine kept in domestic refrigerator. Vaccines are collected from P.P unit for monthly basis. Zeper bag is not used in Vaccine carriers.	Vaccines should not be kept in domestic refrigerator, so this should be collected from Jangipur P.P unit in every R.I session in zeper bag with Vaccine carriers and after the session un used vaccines should return to P.P unit.
Session Plan and frequency of session (Micro plan)	2 sessions is being held in 2 Sub health post and 1 session is being held in 2 sub health post in total of 4 Sub held post in every month. This will cover smaller area in the ULBs.	According to population (73357), There should be 24 R.I sessions in a month for better coverage.
Orientation	ULB workers need one day orientation ON R.I	ULB will arrange an orientation on micro plan, vaccine calculation and others respectives.
AVD	No fund for AVD available	ULB should submit budget to CMOH for AVD
West Management	Hub Cutter is not available.	Every sub health post has to keep Hub Cutter.
Child Tracking.	No system is followed of child tracking as well as counter foil and tickler bag.	Tracking should be done through tickler bag and counter part of Immunization Card.
Reporting.	Current reporting structure is	Health post should submit immunization report weekly to ULB after each session and ULB will compiled the report and will send monthly report to CMOH office and SUDA on N.R.H.M format.

Dear Madam,  
attached is the letter. in addition, the ppt has allotment of funds in 2009-10 on alternate vaccinator. It may be helpful for you. but pl  
don't quote the source

\*  
Government of West Bengal  
Department of Health & Family Welfare

DPH/WB -  
24/10/08

Memo. No. 1359/18 CTW/2008,

Date: 27.06.2008

From:

Shri. A. C. Das, IAS,  
Commissioner & Special Secretary,  
Health & Family Welfare Department.

To:

The Chief Medical Officer of Health,

Subject: Improvement of Immunization Coverage in hard-to-reach areas.

It is to be noted that in spite of our best efforts to improve the immunization coverage in some areas which are hard to reach and remain unattended. In view of the present immunization status, some priority interventions, such as identification of the areas and area specific plan, have already been made by you. Funds for the same have already been released for this purpose.

In this connection, reference is invited to letter no. H/SFWB/12(18), dated 8<sup>th</sup> January, 2008, wherein it has been mentioned that financial implication of each session will be as follows:-

Rate of the alternative vaccinator : Rs. 300/- per session.  
Rate of the alternative vaccinator : Rs. 50 per session.

Contd. in Page - 2.

During the recently-held Regional Review Meetings taken up by Hon'ble M.I.C., it has been pointed out by some District Authorities that such restriction of payment of Rs. 300/- only for the alternative vaccinator has created some problem in the ground situation.

In view of this and in partial modification of the above order it has since been decided that this amount of Rs. 300/- can also be utilized in full or in part as per local plan or intervention that may include alternative vaccinator, mobility support or any other area specific necessities, in order to reach out to these unserved/underserved hard-to-reach areas.

Yours faithfully,

(A. K. Das)

**Commissioner Family Welfare &  
Special Secretary.**

Memo. No. H/359(18)/1(4)/CFW/2008.

Date: 27.06.2008

Copy forwarded for information and necessary action to:

1. State Family Welfare Officer, West Bengal.
2. Controller of Finance & Joint Director, West Bengal.
3. Deputy Director of Health Services(FW). West Bengal.
4. Assistant Director(EPI), West Bengal.

subject Fwd: Alipurduar Municipality visit report

mailed-by gmail.com

signed-by gmail.com

Dear madam,  
the visit report of DE JLP enclosed. your attantion is invited on % coverage which need immediet improvement. request to direct APD municipality accordingly

Sir,

Yesterday i.e. 14.12.2009 (Monday) I have visited at Alipurduar Municipality. Dr. Mohit Kr. Satra (Mobile 9434005039), Health Officer was not present due to outstation & leave. Smt. Rekha Saha, PHN (Mobile 9434609028), Alipurduar Municipality present as because I have already informed her one day before.

Anyway, after reached Municipality I have detailed discuss with PHN and one clerk (who is engage only for IPPT).

**Discuss about following this matter:-**

Current scenario: Total Ward 20. RI centre held at 7 wards. Frequency of sessions held once in a month for each 7 wards (SHP). PP Unit supply vaccines on the day of Immunization. Municipality using Rickshaw hiring for collection of vaccine by own cost.

1. Population of Alipurduar Municipality
2. Session will held per SHP twice in a month is mandatory (1st/3rd or 2nd/4th Wednesday).
3. Session conducted by FTS (who already get 25<sup>th</sup> days RI training).
4. HHW will help to FTS at session site for mobilization & other works.
5. WBSISC will provide micro plan, Vaccine requirement plan, Vaccines distribution plan, IEC & Social Mobilization plan, finalization of reporting structure (who will report to whom) and some technical issue. To do so, ULB can organize one day orientation for all staff.
6. No centre should be planned in ward where PP Unit is located.
7. The final Micro plan may be submitted by the Health Officer to Chairman of Alipurduar Municipality for approval before initiating the programme. A copy of the micro plan may be shared with SUDA, WBSISC, CMOH, PP Unit.
8. Session wise format (already given by district extender) fill up by FTS & report given to Municipality and District Extender, WBSISC, Jalpaiguri ([dsmo.dd@gmail.com](mailto:dsmo.dd@gmail.com) or Mr. Prabir Kr. Roy, District Extender, Office of the Dy. CMOH-III, Jalpaiguri, 735101).
9. The monthly consolidated coverage report given to PP Unit & SUDA regularly.
10. The ULB may consider involvement of Urban ICDS for effective mobilization. To do so, ULB may coordinate with DPO, ICDS.
11. The programme can be reviewed after 3 months to increase/decrease the frequency of sessions, relocation of session of session sites.

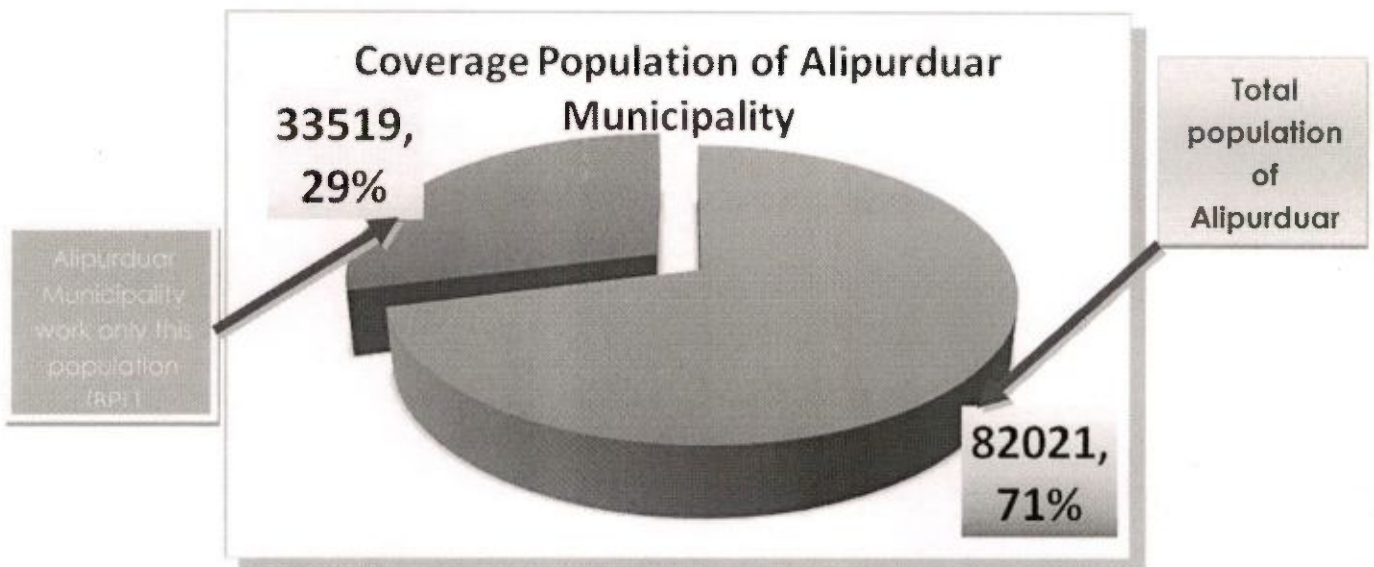

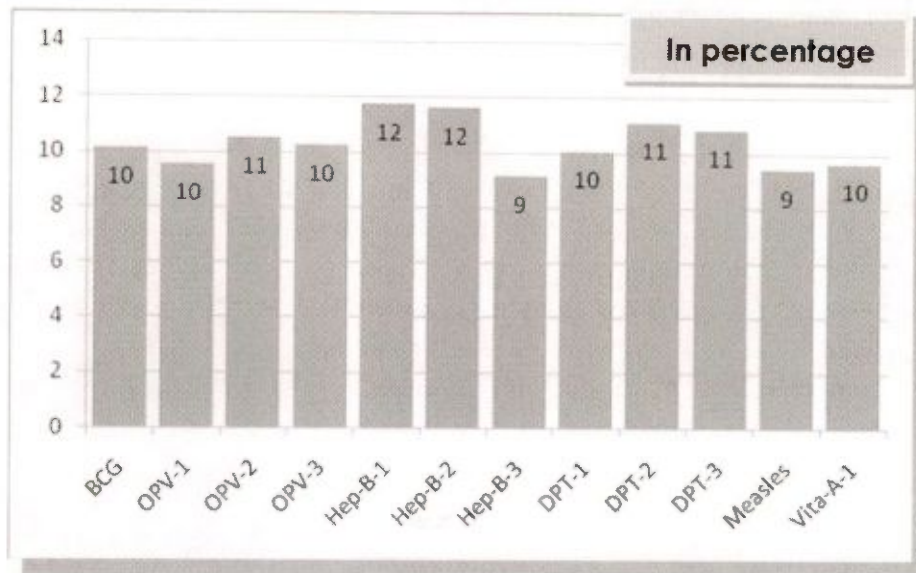

**Suggestions of SI, Alipurduar Municipality**

**But after the above discuss, PHN agreed & request me to meet with Arup Pramanik (Bhajan Babu), S.I of IPP-8. So, meet with him. But after brief discuss with him, he says that if SUDA will given by written for the above then it will be possible, otherwise he didn't interest to speak with anybody about the above.**

**Arup Babu (SI) also said that HHW & FTS work only BPL category population sector. If they will work on APL also then more HHW require. If SUDA will provide more HHW then it is possible.**

Next Page .....

**Alipurduar Municipality contribute antigen wise coverage up to November - 2009.**

**Alipurduar Municipality works only 33519 population and ELA = 316 (0 to 1 year child).  
But APD PP Unit shown 82021 Population and ELA = 1542 (0 to 1 year child).**

So, it is necessary to Alipurduar Municipality will work immediately with total APL & BPL population area, unless major of the area will uncover of RI vaccination.

**Medical College, Kolkata**

No./2009/64

Date: 12<sup>th</sup> December, 2009

**Minutes of the Meeting Held on 08.12.2009 at K.S.S (London Mission) on strengthening on Routine Immunization under iaganj Azimganj municipality.**

With the initiative of West Bengal State Immunization Support Cell (WBSISC) and State Urban Development Agency (SUDA), a coordination meeting was held to discussed about strengthening of R.I under municipality, expansion of R.I Centre, quality vaccination programme and best utilization of 4 F.T.S who had under gone skill development training in the month of August-08.

The meeting was attended by Project Manager and Dist. Extender of WBSISC- Murshidabad, Medical Officer, Health officer, all F.T.S, all HHW, all others staff connected with Routine Immunization of ULB. After deliberation with all, it was decided that from Jan-10 that R.I programme will be extended to the large area of ULB. Following decision was taken.

1. The R.I activity will be conducted on every Wednesday as fixed site concept. The timing of the programme will be from 12 noon to 4 Pm.
2. There will be 5 R.I Centre which are as follows :-

Sl No.	Name of Health Post	Ward No	Time
1	Londan Mission Hospt.	3	12 Noon to 4 Pm
2	Kashiganj flood Centre	7	12 Noon to 4 Pm
3	Azimganj City	13	12 Noon to 4 Pm
4	Jaltaranga Club	6	12 Noon to 4 Pm
5	Ghosh Para Jagrani Sangha Club	5	12 Noon to 4 Pm

4 recently trained F.T.S and 1 ANM of the ULB will work as vaccinator for the above centres.

3. All vaccines will be given to all R.I Centre on all Wednesday (Presently Measles and BCG Vaccine are not given by the ULB).
4. All R.I centre will follow National R.I schedule. WBSISC will share one copy of the schedule in Bengali format.
5. The scale of vaccine for each R.I centre will be 1 vial of each antigen. The requirement of vaccines and logistic for 5 R.I centre/ week will be as follows.
  - a. BCG = 5 Vials, Diluents for BCG = 5 ampoules , DPT 5 Vials , OPV 5 Vials  
 HepB 5 Vials, Measles 5 Vials, Diluents for Measles 5 ampoules, D.T 5 Vials, T.T 5 Vials, 0.1 AD Syringes= 12\*5=60, 0.5 AD Syringes 225, 5 ml Disposable syringes = 12, Vitamin A Bottle as required.
  - b. The Health officer/ Medical officer will send consolidated weekly requirement of vaccine and logistics for all R.I centre to BMOH, Jiaganj R.H.

- c. The transportation of the vaccines from RH to R.I side will be as follows.
- The PHN of the RH will issue vaccines in 5 vaccine carrier on every Wednesday by 10 am.
  - The designated person of the ULB will reach to RH in available vehicles/ Ambulance of ULB and collect the vaccines and logistics. He will deliver vaccine carrier in each R.I side much before 12 noon. Similarly after 4 pm he will collect unused sealed vaccine and logistic from the R.I centre and returned back to the RH.
6. The Medical officer of the ULB will review the programme every 15 days with all F.T.S and HHW and take mid course correction. BMOH and PHN of the RH will be invited in the meeting.
7. Reporting mechanism: - WBSISC will share a format for reporting R.I coverage (Centre and week wise) which will be compiled at ULB level. The monthly consolidated report will be submitted to RH under the signature of Medical officer/ Health officer under in N.R.H.M format (N.R.H.M format is available at R.H).
8. ULB will prepared a comprehensive micro plan (format will be supplied by WBSISC). The microplan will be submitted to the Chairman of Jiaganj ULB and Project officer (Health) SUDA for approval. The copy of the micro plan will be shared with BMOH Jiaganj RH and WBSISC also.

Every body attended in the meeting express there commitment for further strengthening of R.I in Jiaganj ULB.

Dear Madam,

feed back received from DE, WBSISC are as follows

1. jangipur ULB- meeting fixed on 29th Dec to finalized plan. However, they need SUDA directives. Pl speak with them
2. Jiyaganj & Ajimgang ULB- Dr Biplab Pal HO is not interested unless received directive from SUDA. However FTS is very much interested. They contacted with DE to initiate the the process. i need your push to start.
3. Baharampur ULB- HO is on leave and they also need your push.

I will request you to call meeting with selected ULB sometime in January to push the agenda

**Minutes of the meeting held on 1<sup>st</sup> December 2009 at Maheshtala Municipality, HAU-1 regarding strengthening of Routine immunization.**

A coordination meeting was held at HAU1 with presence of Dy CMOH-III, South 24PG, Project Manager & District Extender of WBSISC, Health Officer and Asstt health Officer Maheshtala Municipality, all FTS of HAU1, ICDS workers from different wards to discuss the modality for strengthening RI under the HAU1. After deliberation with all stakeholders following decision was taken

1. Henceforth the RI will be on fixed site and fixed days in a week. All outreach immunization sites has been discontinued from now onwards.
2. There will be one fixed RI sites in all wards under HAU1 which will function on every Wednesday from 12 noon to 3 PM. The list of the centre are as follows

Sl No.	Ward No	Centre Name
1	01	Manab Kalyan Samity (IPP-VIII SC)
2	02	Alampur Baithakipara AWC
3	03	Municipal Subcentre (IPP-VIII SC)
4	04	Mukti Sangha (Thuntorkol)
5	05	Janata Club (Panchur Mondal para)
6	06	Municipal Subcentre (IPP-VIII SC)
7	09	HAU-I
8	10	Municipal Subcentre (IPP-VIII SC)

3. There will be at least one trained vaccinator for each centre. Since total Four of FTS from HAU1 recently undergone skill development training, all of them will be utilized. Health Officer of Maheshtala municipality will indicate name of the vaccinator for each RI centre. WBSISC will support the preparation of microplan
4. The vaccines will be supplied from Cold chain point to the HAU building on every Wednesday by 11.00 AM. It will be further distributed to respective RI sites through a designated health worker. Health officer will finalize the name of the person and it will be incorporate in the microplan.
5. Similarly after the end of the sessions all unused sealed vaccines, logistic will be returned back to the HAU1 by 4.30 PM. It will be further transported back to CC point
6. It was decided that to start with each RI sites will get following vaccines on every Wednesday  
BCG= 1 Vial, DPT=2 vial, HepB= 1 vial, Measles= 2 vial, OPV= 1 vial, TT= 1 vial, DT (till availability)= 1 vial. AD syringes and disposable syringes= as per the scale, Immunization cards, cotton and other logistics
7. Dy CMOH-III has agreed to supply sufficient no of clinic register and it will be distributed to each RI centre for recording vaccination on every Wednesday. At the end of the session, the vaccinator will prepare summary of vaccination coverage and full immunization.
8. At the end of month, HAU will consolidate all coverage (centre wise and date wise) in a simple format and it will be handed over to the Assistance Health Officer of

Maheshtala Municipality for final compilation. WBSISC will share the reporting format.

9. The final report from the Municipality will be recorded in NRHM format (for PHC) to the district on a fixed day in every month.
10. The latest Immunization schedule has been shared with all participants. It is expected that it will followed without any deviation.
11. Municipality will place a demand for all UIP vaccines (including HepB) before the District on monthly basis. The district will supply the same subjected to availability.
12. For mobilization, The AWW will forward the beneficiaries to a fixed centre located in the same ward. AWW will ensure that all eligible beneficiaries will get vaccination in time. AWW will prepare separate records for the referred beneficiaries.
13. For Better coordination among all stakeholders, there will be regular monthly coordination meeting between health & ICDS at HAU1.
14. For transportation of Vaccines & logistics from HAU to Immunization Centre & Back an amount of Rs.50/- only will be given from KUSP/IPP-VIII fund.
15. The overall supervision will be done by the UHIO & AHO of the Municipality.
16. Regarding IEC the NGOs like Right Track/ENGIO will be requested to taka active part.
17. The Councilor of above wards are requested to inaugurate the opening session at his ward along with all the members of the ward committee & influential person of the ward.

**The programme will start from 16<sup>th</sup> December 2009. All are requested to participate.**

**status of RI in ULBs**

Inbox X

Saumendra Nath Bagchi to me, samir

[show details](#) 3:34 PM (57 minutes ago)[Reply](#)

Dear Madam,

Enclosed please find the status report of ULB immunization of WBSISC project districts. The ULB selected on the basis of skill development trg already done and how they utilized the workforce ( based on no of RI centre functioning)

The situation in following District need urgent actions. They are

1. Baharampur ( 8 FTS trained and I session/ month)
2. Raiganj ( 14 FTS trained and one session/ month)
3. Raniganj ( 7 FTS trained and no session held)
4. Balurghat ( 12 FTS trained and one sessions/ month in 6 places)

It is requested that you may take urgent action so that all trained FTS can be optimally utilized by conducting session on every Wednesday in different Municipal wards. Cold chain will not be an issue as thy can take vaccines in vaccines carrier from PP unit. Now AVD fund is also available from urban hired vaccinator fund under immunization PIP.

Warm Regards

Reply

Dear Dr Goswami,

The attached documents is the coverage analysis of jalpaiguri town which contributed by PP unit and ULB ( both having one centre each). You will appreciate the fact that total coverage in seven months has not reached even 35%. It is alarming situation with > 70% un immunized children.

It has been normally said that PP unit takes max load of urban immunization. In jalpaigury it is not true. They also have very limited coverage (around 20%). Due to this reason SUDA(H) & WBSISC took such initiatives to increase RI session sites in ULBs with the hope of enhance coverage by good no of trained vaccinators. Unfortunately, in spite of 12-trained vaccinator, ULB is currently running only one centre. Unless number of centre increases, coverage of ULBs will become abnormally low.

You will see there is no HepB coverage shown in the sheet. HepB is not given by ULBs (reason unknown). PP unit do have coverage of HepB. For comparison, HepB has not shown.

You have data on different ULBs, which can be analyzed against target population. It can be an excellent advocacy tool to your authority on the poor situation. If you wish, we can help in calculation and analysis also.

Subject: Some Problems

To: [saumenbagchi@gmail.com](mailto:saumenbagchi@gmail.com), [saumenbagchi@yahoo.co.in](mailto:saumenbagchi@yahoo.co.in)Cc: [ghosh00@gmail.com](mailto:ghosh00@gmail.com)

Dear Sir,

On 6/10/2009, I've visited a health Post "Aragami Sangha under Jiahaji Azimganj Municipality. It has 4 health post and Vaccinated by only F.T.S each. They (FTS) are Trained by Nursing Tutor at Bethampore Nursing Training School.

After visit and discussion with FTS and M.O (Dr. Biplab Pal and Dr. Jatindranath Pal), I would like to draw your attention:-

1. All I.M Vaccine is given to child in 45 degree angle instead of 90 degree angle by words of M.O. Cause they shown me is, the vac needle would touch the bone, but this has no guide line.
2. M.O is prohibiting to give HepB 1st dose if child not attend DPT 1st dose (under 1 years Child).
3. They are unable to bear vaccine delivery cost.
4. Irregular Salary Payment to staff.
5. Dist. Level Monthly Review meeting is not being held, which is very important.

So, I request you to take necessary steps as soon as possible, So that work should be smoothly.

Thanking you

Md. Samaun Hoque

Dera Madam,

04 no of FTS of the above ULBs were trained for 25 days and they are currently conducting RI, a very positive sign. However the MO need orientation as they do not have clarity on many technical issue on RI ( Dr Biplab Pal & Dr Jatindra Nath). This caused some compromise on quality issue on RI. you may consider orientation at SUDA HQ by your colleague.

Dear Madam,

interesting analysis for E.B. Municipality. If you consider total population of ULBs and calculate the target (ELA), it will come out on contribution of ULBs in RI. such data can be an excellent advocacy tool to senior officials. You may also consider other ULBs also as you have coverage data for all ULBs on monthly basis.

**Strengthening Immunization in Durgapur Corporation area**

Inbox X

Saumendra Nath Bagchi to ar\_oy, me, Samir, sfwo

[show details](#) 6:13 AM (22 hours ago) [Reply](#)

Dear Mr Roy,

Due to huge population influx ( Population > 5 Laks) in Durgapur and majority are labor from Bihar, there is strong possibility for Measles outbreak and Polio cases unless strengthening of RI ensured. I had visited Durgapur along with ACOMOH (DGP) and meet some of the stake holder including Corporation. I propose joint efforts by District FW dept, SUDA/CMU, WBSISC and DMC. They are

- DMC should be declare as Nodal agency for urban DGP and whole corporation area should have one ward based microplan
- DMC should increase no of RI sessions in different wards so that there will be uniform coverage in the geographical area
- Drop out tracking by HHW of DMC. We need to involve urban ICDS centre also
- An IEC planning for the whole corporation area
- Necessary funding support from SUDA/ CMU to DMC for vaccines distributions, hub cutter, insulin syringes ( for BCG vaccination), mobilization and other items for immunization
- Ensuring adequate vaccines supply to ACOMOH from the District for increase coverage.DMC has adequate CC points.

A coordination meeting with all stakeholder will be arrange at DMC conference hall ( subjected to Mayou approval for venue) on 9<sup>th</sup> April, 2009 at 11 AM. It will be a great help if Dr S Goswami can be present in the meeting.

Sub:- Proposal seeking supply of Equipments in connection with the commencement of "Immunization programme" under Community Based Primary Health Care Services Old Malda Municipality, Malda-Reg.

**Attention- Project Officer, SUDA (Health)**

Madam,

This is being proposed to supply the following equipments required in connection with the implementation of Immunization programme.

The 04 (four) F.T.S have completed the training on "Routine Immunization" some time past at the District Nursing School, Malda successfully.

By this time, the District Extender has visited this ULB & the meeting was held in connection with the implementation of "Routine Immunization" within municipal area.

In course of meeting held on 27.01.2009 this is felt that the following equipments are essentially required for the existing 04 (four) nos sub-centre (Health) run under Community Based Primary Health Care Services towards the implementation of Routine Immunization programme. The Xerox copy of the meeting minutes is enclosed.

- |    |                       |         |
|----|-----------------------|---------|
| 1. | Vaccine Carriers      | 08 Nos. |

Chairman  
Old Malda Municipality

Minutes of the meeting held on 08/12/2008 at 1<sup>st</sup> floor conference hall of Swastha Bhaban regarding 2<sup>nd</sup> phase of ULB training involving Howrah, Hoogly, Burdwan, Nadia & North 24 Parganas District.

*Pl. as per  
23/12*

A meeting was held on 8<sup>th</sup> December 2008 for the above subject at Swastha Bhaban, 1<sup>st</sup> floor conference hall. Dr. S.P. Banerjee, SFWO & Jt. Director FW, chaired the meeting. Nodal officer of Howrah, Hoogly, Burdwan, & North 24 Parganas Districts, Project Manager & DE, WBSISC was present in the meeting. Shibani Goswami, Project Officer, Health, SUDA was also present in the meeting.

*Reviewed.  
Health  
Ernst  
h  
24/12*

At the onset, Dr S. Goswami, Project Officer SUDA, thanked all Nodal officers of District NTS, State FW dept and WBSISC for quality training for the ULBs workers in the first phase. Now she requested for organizing 2<sup>nd</sup> phase of training of the selected districts, where no of ULBs are high.

Following decisions was taken in the meeting.

1. Second phase training of selected ULBs of Howrah, Hoogly, Burdwan, Nadia & North 24 Parganas District will started from 2<sup>nd</sup> February-2009. The training will continue for 25 working days in the same manner as in the 1<sup>st</sup> phase,
2. Nodal Officer of the District will continue as Nodal Officer for 2<sup>nd</sup> phase of training. All other facilitator of the above district except Burdwan will continue as facilitator for the above training.
3. For Burdwan District PIIN of Community Medicine Department will act as facilitator. The 20 days hands on training will be held at Community Medicine Department of Medical College. The SFWO will write the letter to Principal, Burdwan Medical College for the above purpose.
4. The contingency fund for the ULB training will remain same i.e. Rs. 5000 (five Thousand) per District per training. However any additional expenditure over and above of Rs. 5000 (five Thousand) may be submitted to SUDA with justification.
5. The honorarium for the facilitator will be increased to Rs. 175 / person / day for 25 days.
6. All District Nodal Officers requested sufficient supply of 0.1ml A.D. syringe for the training purpose. The approx. requirement will be 400 A.D. syringes/ District. The SFWO will write a letter to concern CMOH for supply of additional A.D. syringes to the NTS. However if the supply was not made or there is shortage of supply, the Nodal Officer will purchase required no. of insulin syringes and charged in the contingency claim.
7. It is expected that the supply of DPT & TT vaccine will be regularized shortly. However concerned CMOH is requested to ensure supply of all vaccines for smooth conduction of the training.

8. SFWO & Project Officer, Health, SUDA requested all concerned for co-operation in this regard.

The Chairman presides over the meeting.

With the initiation from the Executive officer requested by the Chairman about the agenda of the meeting the followings are discussed in details.

The District Extension in details discuss about immunisation. The Question & Answer session also was held. Besides to make the immunisation programme successful, the D. E. ~~Place~~ WBSISC requests to procure the following equipments from the concerned agency for implementation of the programme.

1. Vaccine Carrier - 04 (Four) NOS.
2. Ice - Packs — 16 (Sixteen) NOS.
3. Deep Freezer — 01 (One) NO.
4. Ice-lined Refrigerator - 01 (One) NO.
5. Hub-Cutter — 04 (Four) NOS.
- 6.

Apart from above, on the requirement of 01 (One) P.H.N. is felt very much for the interest of Health Progs. The H.O. also spoke in details about the immunisation. At the end the Chairman spoke on the issue.

The meeting is ended with the vote of Thanks to \* from the Chair.

**Vaccinator in urban areas for RI** [Inbox](#)

☆ **Saumendra Nath Bagchi** [show details](#) 5:13 am (18 hours ago) [Reply](#)

Dear Madam,

Today we had a meeting with Commissioner FW regarding RI vaccinator in the Municipality areas. The good no of work force ( HHW, FTS etc) needs to be trained properly on RI and some of them can be given extensive training as vaccinator during RI session. This can be a possible way to tide over the crisis of vaccinator in urban areas and more no of sessions can be planned in future. The Commissioner requested WBSISC to submit a proposal, on the training and capacity building plan, to create more vaccinator from the urban bodies.

To do so, may I request you to send me following information ( only those urban bodies where support of SUDA is present)

1. No of Municipality / Municipal corporation, where SUDA supported HHW, FTS and other health staff engaged.  
District wise break up
2. Approximate population of the each municipality / municipal corporation ( census 2001 )
3. Total no of wards in each urban bodies
4. Total no of Medical Officer ( Full time / part time ), HHW, FTS, STS under each urban bodies.
5. Ava rage qualification of each category of health staff ( except Doctor).

I would be grateful that if the above information can be given in shortest possible time, as we have been requested to send the proposal as quickly as possible.

**Sub. : Requisition of Training Module on Routine Immunisation in Bengali  
for Health Workers**

**Madam,**

You may be aware that training on Routine Immunisation for Medical Professionals has already been completed in two batches comprising of 56 nos. of Doctors covering 32 Urban Local Bodies including 2 Municipal Corporations. The said training sessions had been facilitated by WBSISC. The Medical Professionals who have been trained, will impart training to Honorary Health Workers at Municipal Level for which training manual on Routine Immunisation in Bengali will be required.

Hence, you are requested to provide us 500 copies of said training manual in Bengali at the earliest, so that we could start training of HHWs.

Thanking you.

Yours faithfully,

  
**Project Officer**

## STATE URBAN DEVELOPMENT AGENCY

Ref No. ....SUDA-Health/63 ULBs/07/640(63)

Date .....21.01.2008

From : Director, SUDA

To : The Chairman  
.....Kalyani..... Municipality

Sub. : Strengthening routine immunization in urban areas.

Sir/Madam,

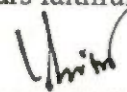

With the identification of Polio cases in a few ULBs during recent time it is observed that routine immunization in urban areas needs strengthening. Many a times it has been reported that there is dearth of vaccine inoculators in the ULBs due to which Routine Immunization is being hampered. This matter was discussed with the Department of Health and FW and it is felt that capacity of grass-root level health functionaries of the ULBs on vaccine inoculation be built-up so that the target for Routine Immunization is fulfilled. The said training programme is likely to be organized by the Dept. of Health & FW shortly.

For the purpose, you are requested to send the names of the HHWs who are preferably Madhyamik pass and having aptitude towards for administering injection so that they can be suitably deployed at the Sub-Centres for Routine Immunisation , in the format given below by 15<sup>th</sup> February , 2008 :

Sl. No.	Name of the HHWS	Educational qualification

Thanking you.

Sub : Routine immunisation in Urban areas.

Sir,

You may be aware that the State Govt. launched CUDP III assisted by the World Bank for the urban poor of selected 31 ULBs in the jurisdiction of Kolkata Metropolitan Area in the year 1985-86. The resultant effect in terms of output in the health scenario was remarkable. With this experience, the several other primary health care programmes for the urban poor have been launched in phases covering all the 126 Urban Local Bodies of the State of West Bengal.

**Different Urban Health Programmes :**

Sl. No.	Project	Project Assisted by	Duration of Project	Population covered	No. of ULBs covered
1	CUDP-III	World Bank	1985-86 to 1991-92	16.00 Lakhs in KMA	41
2	IPP-VIII	World Bank	1993-94 to June 2002	38.00 Lakhs in KMA	
3	CSIP	DFID	1992-93 to 1997 - 98	2.85 Lakhs in KMA	
4	IPP-VIII-(Extn.)	World Bank	2000 to June 2002	8.30 Lakhs in Non-KMA	10
5	R.C.H. Sub-Project, Asansol	World Bank	1998 to March, 2004	2.53 Lakhs in Non-KMA	1
6	HHW Scheme	DHFW	Feb., 2004 continuing	2.86 lakhs in Non-KMA ULBs	11
7	Community Based Primary Health Care (CBPHC) Services	DHFW	Feb. 2006 Continuing	11.23 lakhs in Non-KMA ULBs	63

Contd. to P-2.

After cessation of external funding support, all the programmes are continued and maintained by the State Government.

**The Objectives are :**

- To provide primary health care service delivery to the requirements of the urban population with focus to BPL population.
- To implement Public Health & National Health Programmes to the population of the Urban Local Bodies.
- To ensure maximum utilisation of Govt. Institutions for referral services with regard to Maternity, Child Health, Diagnostic and Curative services.
- To bring about an overall improvement in the urban health scenario as a whole with reference to reduction in CBR, CDR, MMR, IMR and enhancement of CPR.

In this connection, it is to mention here that the said Health Programmes mainly caters to the urban poor, not the total population of the ULB. Information on ULB-wise total population, no. of wards, HHWs, FTSS, STSS / ANMs, HO, AHO, Pt. MO under the existing Health programmes in the 125 ULBs (excepting KMC) is enclosed at Annexure - I.

This is to inform you that there is dearth of vaccine inoculators in the ULBs due to which Routine Immunization is being hampered though there are good nos. of grass root level health functionaries namely HHWs & FTSS. Many of the FTSS are conversant with vaccine inoculation but they do not have accreditation to conduct the same.

Under the circumstances stated above, it is felt that if the suitable FTSS and some of the HHWs having aptitude may be trained formally and accredited as vaccinator who would be able to cover the total population of the ULB under RI.

In the mean time, Dr. S.N. Bagchi, WBSISC contacted us a no. of times and discussed the issue of strengthening RI in urban areas. We feel proper training & capacity building of grass root health functionaries as mentioned above would help to tide over the crisis of vaccine inoculators in conduct of Routine Immunisation effectively to the total population of the ULBs.

You are requested kindly to look into the matter and do the needful.

**Encl. : As stated.**

Sub: Strengthening Routine Immunization in KMC area –  
Engagement Mr. Prosenjit Sinha as 'District Extender' for KMC area under  
WBSISC project w.e.f 1<sup>st</sup> December 2007

Ref: Commissioner, Family welfare, Govt. of West Bengal, No. H/SFWB/9P-06-  
2003/Pt-I/CFW-391 dated 29<sup>th</sup> August 2007

Dear Sir

State Health Department, Medical Education Department and UNICEF have undertaken a collaborative project for strengthening routine immunization programme management in 8 districts of West Bengal. The project will be operational in the districts of Jalpaiguri, Uttar Dinajpur, Dakshin Dinajpur, Malda, Murshidabad, Bardhaman, Purulia & Kolkata.

"West Bengal State Immunization Support Cell (WBSISC)" placed at the Dept. of Community Medicine, Medical College, Kolkata will manage the project.

The project has concurrence of the Commissioner, Family welfare, Govt. of West Bengal (Vide No. H/SFWB/9P-06-2003/Pt-I/CFW-391 dated 29<sup>th</sup> August 2007) and Director of Medical Education, Govt. of West Bengal.

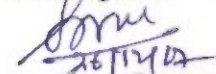

We are pleased to engage Mr. Prosenjit Sinha as 'District Extender' who will support and facilitate routine immunization programme management in KMC area.

Please note the following:

- Mr. Sinha will work in close collaboration with KMC health authorities, KMUHO, SUDA, District Family Welfare Bureau and all other stake holders involved in accelerating routine immunization services in KMC area.
- He will facilitate and support ward-based microplanning with special focus on underserved population, cold chain management, vaccine-ADS-other logistics management, capacity building, monitoring & supervision, data management and VPD surveillance.
- If you have any query, please contact Dr. S. N. Bagchi, Project Manager (9433069040) or Dr. Samir Dasgupta, Project Director (9433190810).

I will request you to extend necessary support and guidance to Mr. Sinha and to utilize him appropriately for accelerating routine immunization services in Kolkata Municipal Corporation area.

With regards

Dr. Samir Dasgupta  
Professor & Head  
Dept. of Community Medicine  
Medical College, Kolkata  
& Project Director, WBSISC

1. Copy of Commissioner, Family Welfare No. H/SFWB/9P-06-2003/Pt-I/CFW-391 dated 29<sup>TH</sup> August 2007

Copy to:

1. The Commissioner, Family Welfare, Govt. of West Bengal
2. State Family welfare Officer, Govt. of west Bengal
3. Dr. Sudha Balakrishnan, APO, UNICEF, Kolkata

Planning for revisit of X - houses to be done on the last day of house to house activity. Based on the number of X-houses remaining, calculation can be done as : No. of X-houses left/80 =No of teams required. Our suggestion is to conduct Revisit for X-houses on 12/11/2007 and 13/11/2007 and monitoring for the same will be strictly done from the District authority.

- During revisit house marking should be done as follows:

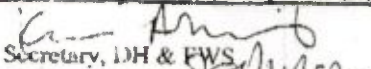

RV -- P or X-- House no.

(RV indicates Revisit)

Date of Revisit

Original house marking will remain as it is; this will be an additional marking.

- Municipal/block level core group (including CDPO, Superintendent, PHN, NGO, Railway authority, KMUHO, ESI, School, and other key persons/stake holders) meeting to be convened.
- Evening Debriefings - After completion of the days activity the supervisor have to sit with vaccinators to review and to plan and to take corrective measures for next day's work; then the supervisors must meet the unit head to give the feedback and daily reports.
- Fund allotment will be intimated as early as possible.
- Kindly contact Dr. Kalyan Mukherjee DMCHO ( M -9432122080) Dr. Tushar Acharya, ACMOH Barrackpore (9831386242) Dr. J.K. Mehta (9434004858) Kalpana Samanta, DPHNO(033-25842519)
- Kindly ensure that no child, including the new borns even, remains left out and no house remains unvisited.

## A. Introduction:

The recently convened 17<sup>th</sup> India Expert Advisory Group (IEAG) reaffirmed confidence that wild poliovirus will be eradicated from India should every effort be made to interrupt transmission of WPV in 2007 through appropriate strategies. The polio eradication efforts are being stepped up this year with a more focused and specific approach of tracking and vaccinating the most vulnerable children who are inadequately protected, to stop poliovirus transmission in India at the earliest. One such measure being initiated is mapping and vaccinating children up to five years of age of the migrant populations in Punjab, Haryana, Gujarat and West Bengal.

In India, type I polio virus caused, on an average, 95 percent polio cases in the last five years. As India moves into the final phase of Polio Eradication, the battle needs to close in on the P1 type of polio virus. This will help to ensure that polio gets eliminated decisively and more quickly.

Since a majority of the migratory populations live in the urban and peri urban areas. November 2007 SNID will cover Kolkata district as a whole along with peri-Kolkata areas of districts- Howrah (Uluberia & Bally Municipality, Howrah Municipal Corporation), 24 Parganas -North (Barrackpore Sub-division) & 24 Parganas -South (Budge Budge, Baruipur, Maheshtala, Rajpur-Sonarapur, Pujali - Municipality and 7 rural blocks - Budge Budge I & II, Bishnupur I & II, Bangore I, Sonarpur and Thakurpukur-Maheshtala Block) of the State with an objective to immunize all under five children

Resolution of District Task Force Meeting held on 26/10/07 in connection with the forthcoming SNID 4<sup>th</sup> Nov.2007

- This SNID is for migratory population (mostly from Bihar, UP etc) and also for all the population of Barrackpore sub Division (16 Municipalities, 1 cant. Board, 2 Rural Blocks) who are at risk from these migratory population
- It has been decided by The D.M and CMOH that Booth activity will be held on 04/11/07 and Transit Team activity will also be held on 04/11/07 only and house to house activity will be from Monday 05/11/2007 (for 4 to 7 days as per need, following the GOVT. norms).
- Timings - for Booth activity - 9 AM to 4 PM
- Transit team activity will be conducted in shifts (where applicable). Each member of the team must have separate set of logistics & must be proactive to cover both side of the road etc.  
Officer of the corresponding ps must be intimated so that traffic police extend there help in working for the TPT members.
- This time Monovalent Vaccine type 1 (MOPV1) will be used for this SNID instead of Trivalent vaccine (TOPV).

SNID = Sub National Immunisation Day

- Care must be taken to preserve the MOPV1 Vaccine vials separately in a poly bag in the ILR and in no way it should get mixed up with the trivalent vaccine.
  - All the under five children must be immunized with the MOPV1 vaccine only during this SNID round.
  - After completion of the round, unused and partially used MOPV1 vaccine vials must be returned back to the ACMOH/District Office/source of Vaccine receipt.
  - IEC -
1. Miking - to be done from 02/11/07 to 04/11/07 extensively from morning to evening to cover all the areas, especially at/around the places of people's gathering. Slow moving vehicle to be used and simple messages be given in local language inviting all children to the Pulse Polio booths. Kindly announce the booth location and also appeal the guardians to extend Cooperation to search out the left out children and to get them immunized during house to house activity even if the team has to visit the houses at odd hours of the day.
  2. IPC - Workers should start giving information about the SNID activity through whispering campaign from now on at every contact point.  
Communicate the school/Madrasa teachers to convey the message to the guardians through there students.
  3. Cable Network - to be used to spread the message regarding the round & to bring all the <5 yr children to the Polio-booth
  4. PVC banner will be provided ( at least one for each booth ). Local measures may be taken to make hand written posters, leaflets etc.
  5. Fixed Miking from Mosques, railway stations, bus terminus, Ferry ghats, jute mills, industries and Hospital PA system etc may also be utilized from now on.
    - House to House activity will start from Monday onwards
    - Rationalise the house load for each team day ( around 100 houses per day per team ).
    - Hospital supdt.s, without hampering the hospital services, must involve & get their colleagues involved throughout the process in consultation with Muni.HO.
    - One supervisor will supervise 5 teams per day ( should not be more than 6 teams). Supervision must start always along with the day's vaccination activity.
    - Microplan - to be prepared in the formats provided and submitted to the District by 31/10/07 Wednesday through the special messenger.
    - Trained manpower only should be utilized for the activity.
    - Training of vaccinators and supervisors to be done before the activity. Prepare a training schedule and inform the District/ ACMOH office accordingly.
    - Newly recruited ICDS workers may be deployed wherever necessary after proper training. They should preferably be deployed in teams along with a trained/experienced worker.
    - Information regarding MOPV1 vaccine must be given in the training. Also Brief the vaccinators regarding the key questions to be asked during house visits, VVM, House marking, finger marking, revisit of X houses and other operational aspects. Approach of H-t-H activity would be "search and immunize"
    - X - house generation has been a problem in quite a few municipalities; this indicates an average quality of activity. Vaccinators to be briefed properly regarding X - house markings and also revisit of X- houses needs to be stressed upon for X to P conversion.
