

We have received a communication from Chairman of North Dum Dum Municipality for placing of additional fund for procurement of ELISA machine with reader to be installed at Matri Sadan hospital. This may be treated as a preventive measure of suspected dengue diseases entirely spread over the whole urban areas in earlier year and presumed to be out broken in this year also. They have claimed for Rs. 3,20,000/- for such procurement.

Since, there is no such provision of fund in our hand for the aforesaid purpose; we may provide the said fund out of UPHCS unutilized balance mainly released by Deptt. of UD & MA for payment of Honorarium / Salaries and others, if approved.

Options for procurement are:

- Considering the urgency we may agree to the proposal of Chairman and release fund of Rs. 3,20,000/- (Three Lakhs twenty hundred only).
- Or, write them to procure the machine in the same line and condition as given by us previously in case of Strengthening of MH services which includes procurement of the machine by observing the West Bengal Financial rule.
- Or, there are huge difference of amount requisitioned between Bidhannagar, Durgapur and North Dum Dum. Hence, we may write to DHFW for fixing standardization of machine quality and ~~cost~~ of ELIZA machine.

Submitted for kind decision.
