Ref No. SUDA-120/96(Pt-IV)/404

Date ..08.04.2004

From : Dr. Shibani Goswami
Project Officer
Health, SUDA

To : The Mayor ,
Asansol Municipal Corporation

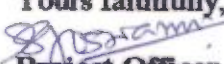

Sub : Attachment of Thermal Printer to USG Machine

Sir,

With reference to your communication bearing memo no. 100/R.C.H./AMC dt. 31.03.2004 on the above subject , this to inform you that the Competent Authority has accorded approval to your proposal for purchase of Thermal Printer to be attached to the USG Machine which was supplied to you for use in the Diagnostic Centre, R.C.H. Sub-Project, Asansol .

The procurement may be done from your end at the earliest maintaining the State Govt. norms at a cost not exceeding Rs.70000 (Rupees Seventy Thousand) only as estimated by you. The cost is to be met out of R.C.H. Sub-Project, Asansol fund keeping provision by drawing in advance the said amount and treating it as committed expenditure. The expenditure is to be booked under the head " Operating Cost".

SOE accordingly may be forwarded to this office in due course.

Yours faithfully,

Project Officer

08.04.2004

SUDA-120/96(Pt-IV)/404(1)

CC

Project Director, R.C.H. Sub-Project, Asansol & ADM, Asansol.

Project Officer

Sub : Approval for attachment of Thermal Printer to the
USG Machine under R.C.H. Sub-Project, Asansol.

Placed below is the copy of communication bearing memo no. 95/R.C.H./AMC
dt. 22.03.2004 from the Health Officer, Asansol Municipal Corporation on the
above subject.

One USG machine has been provided to the Asansol Municipal Corporation for
use under R.C.H. Sub-Project, Asansol where instant photography mechanism is
not available. As a result, USG done by the Doctor requires assistance of Radio
technician for developing and fixing the plates for obtaining the photographs
during time hours of 12 noon to 4 p.m. (working time of Radio technician). The
total cost for the purpose per USG plate comes around Rs. 175/-. Charge for
USG has been fixed at Rs. 150/- in case of BPL population. There is a deficit of
Rs. 25/- per case.

If the Thermal printer could be attached to the USG machine, it can run anytime
of the day by the Doctor without any Radio technician as well as developer and
fixture, where the automatic print out of the photographs will come out. The cost
per plate in this case will be Rs. 90/- with a savings of Rs. 60/- per case. Though
initial cost involvement for the Thermal printer is Rs. 70000/- (Rupees Seventy
thousand) only, this will be cost effective in the long run, as also less burden to
the State Govt. exchequer.

There is adequate fund provision. If approved, the procurement will be done by
Asansol Municipal Corporation and will keep provision by drawing in advance
the said amount and treating them as committed expenditure.

Submitted for kind perusal and approval please.

31 MAR 2004

Madam,

Ref: 95/RCH/AMC dated 22.3.04

Sub: Attachment of Thermal Printer to the USG machine.

With reference to the above this is to inform you that attachment of a Thermal Printer to the USG machine will make the USG unit at ESOPD/MH at ward no -9 more cost effective .

Yours faithfully

Mayor

Asansol Municipal Corporation

Memo No: 96/R-11/1A11CDated: 22/3/04

To
The Project Officer
SUDA, Kolkata.

Madam,

Sub: Attachment of Thermal Printer to the USG machine.

This is for your kind information that the performance of the USG with camera ,supplied from your end to RCH sub Project is excellent. However providing USG reports with photos in hard plates is not at all cost effective at the specified rates.

As such ,if a thermal printer with necessary accessories is attached to the USG machine ,the unit can be run in a more cost effective and professional manner . In this context it may be informed that the approximate cost of the said attachment is Rs. 70,000/- (Seventy Thousand only).

It will be of immense help if necessary arrangement is made from your end.

Yours faithfully

Health Officer

Asansol Municipal Corporation
