NOTE SHEET

SUDA

Construction of 22 (twenty two) SUHs have been completed and of which 14 (fourteen) SUHs have been made functional. During visits to this facilities and based on the feedback received from the operating NGOs, it is absolutely essential to construct a boundary wall enclosing the entire perimeter of the land allocated for the construction of the SUHs. This is essential not just to ensure the safety and security of the inmates but also to enable the SUHs to raise a kitchen garden and / or a work shed for some economic activities. A model estimate for a meter of boundary wall has been prepared by MED along with a cross section of the boundary wall (placed on the cp side) put at Rs.10,522 (Rs. ten thousand five hundred & twenty two only. The following decision points may kindly be accorded.

1. An in-principle approval for construction of boundary wall may be given at all SUHs which are completed / ongoing.
2. Infrastructure of 22 (twenty two) SUHs have been completed and 20 (twenty) SUHs are in progress. Therefore the boundary wall would have to constructed at 42 (forty two) sites.
3. The concerned ULBs may be required to prepare a vetted estimate based on the perimeter of the allotted land and submit the same to SUDA for according administrative approval and financial sanction.
4. The proposal so received and approved may be placed at the Project Sanction Committee for post facto approval.
5. The cost for the boundary wall may be charged out of the NULM fund.

Santipur Municipality.

Sir,

The land for the proposed "Shelter for Urban Homeless under NULM" has been inspected by Sri S. K. Chanda, Assistant Engineer of this office alongwith the technical person of your ULB, Sri Anup Banerjee, on 24/01/2018 and it was found that the land is not suitable for the said construction. The land is filled up with garbage of about 2.0m to 2.5m in height, moreover, the land is a low laying area. So huge amount of additional fund may be required for foundation work & land filling as well.

This is for your information & necessary action please.

Thanking you.

Yours faithfully

## **PREFACE**

The National Urban Housing & Habitat Policy (NUHHP), 2007 aims at promoting sustainable development of habitat in the country with a view to ensuring equitable supply of land, shelter and services at affordable prices to all sections of the society. However, the most vulnerable of these are the urban homeless.

The Urban homeless persons contribute to the economy of the cities and thus the nation's cheap labour in the informal sector; yet they live with no shelter or social security protection. The urban homeless survive with many challenges like no access to elementary public services such as health, education, food, water and sanitation.

National Urban Livelihoods Mission (NULM) aims at providing permanent shelter equipped with essential services to the urban homeless in a phased manner under the Scheme of Shelter for Urban Homeless (SUH).

The objectives of the Shelter for Urban Homeless (SUH) component of NULM scheme are to:

- ✦ Ensure availability and access of the urban homeless population to permanent shelters including the basic infrastructure facilities like water supply, sanitation, safety and security.
- ✦ Cater to the needs of especially vulnerable segments of the urban homeless like the dependent children, aged, disabled, mentally ill and recovering gravely ill, by creating special sections within homeless shelters and provisioning special service linkages for them.
- ✦ Provide access to various entitlements, viz. social security pensions, PDS, ICDS, identity, financial inclusion, education, affordable housing etc. for homeless populations.

✦ Formulate structures and framework of engagement for development, management and monitoring of shelters and ensuring basic services to homeless persons, by state and civil society organisations including homeless collectives.

In pursuance of the decision taken by the West Bengal State Urban Livelihood Mission for setting up a "Shelter for Urban Homeless (SUH)" under National Livelihood Mission in Santipur and with a view to providing shelter to the homeless people living in this town, the Board of Councillors' in this Municipality has decided in its meeting held on 08.11.16 that a proposal would be sent to the SULM for setting up a shelter for urban poor in this town.

A survey was conducted for ascertaining the status of the urban homeless and 30 (fifty) homeless persons have been identified as poorest of the poor among 30. A project has been prepared in conformity with the objectives and a guideline issued in this regard, which includes interalia, construction of a four storied building with the provision of all amenities as envisaged in the scheme.

It is believed that the proposed project would not only provide shelter to the homeless people belonging to the most vulnerable segment of the society but also could ensure availability and access of those urban homeless people to various other entitlement like social security etc besides the basic civic services like water supply, sanitation, electricity and primary health care etc.

### Town at a glance

Santipur under the Ranaghat Sub-Division in the District of Nadia in West Bengal is a place of ancient culture, religion, tradition and it has glory of its own. Lord Sri Chaitannya comes to Santipur at Adwaita Path (known as Babla) to take lesson of Sanskrit from Adwaitya Acharya. It may be added herein that Lord Sri Chaitannya when he was going to Sri Khetra (Puri) came to Santipur and stayed seven (7) days with Adwaitya Acharya at Adwaita Path. It was the sacred place where Lord Bijoy Krishna Goswami passed his glorious days of life with religious activities. Its geographical situation is 23°14'24" North latitude and 88°29'06" longitude. Its situation is very near to the tropic of cancer. There are 10 numbers of Gram Panchayet and 1 Municipality named Santipur Municipality under Santipur Police Station.

Its formation has been made by the silt of River Hooghly or Bhagirathi. Its soil is sandy and no low high hills, heap or any up and down land are found here. There are no gravel in the soil of it. Babul, spinach and the trees with prickles are its normal plants.

Why its name is Santipur that cannot be said rightly. Normally it is said that in 8th century (probably in 737 Christian era) one high ranking saint named "Shantiban" or "Shantomuni" lived here. According to his name its name is "Santipur". On the other hand a lot of persons remarked that this place is called as Santipur because of its clam quite and crowdless condition. This place was very healthy. It may be stated that newly formed chief of the East India Company or Governor William Hedge came twice at Santipur by boat in 1682 and 1683 and stayed at night.

#### **Location :**

The town is situated on the flat terrain of the Gangetic West Bengal and the type of soil is alluvial. The difference of altitude of the highest and the lowest part of the town is not more than three feet. The climatic character is tropical by nature.
