Introductory Note by Chairman

Amongst the cities of west Bengal, the importance of Jalpaiguri is enormous. The town came into existence both as the Divisional and District Headquarters in 1869 and keeping in view the importance of the town. The Jalpaiguri Municipality was established in 1885.

Right from the inception, the Municipality is saddled with the responsibility of extending services to its residents. With this end in view, the Board of Councillors have taken up the responsibility of keeping up the tradition that begun a century and two decades back and is solely bent upon providing a better and dynamic trend of services to its tax-payers.

Notwithstanding manifold hurdles coupled with extreme financial constraints that confronted the Municipality very often, the Municipality has been relentlessly striving for inducting better reformed services. Through the wake of globalization, there has been a growing demand from the residents for providing better quality of services thereby making inroads of a number of many new problems.

In order to cope up with this challenge, the Municipality has endeavored to introduce in the field providing services some technology based modern and more dynamic method of functioning. But the infrastructure and the bulk of fund that are needed for these developments are absent since it is not possible for the Municipality alone to provide such a huge quantum of fund from its limited sources. It can be made possible only with the financial assistance from the State and Central Govt. and Statutory and non-Statutory Bodies dealing with Municipal affairs to help & create a better and comfortable environment for the public.

It is known to all that Jalpaiguri is endowed and replete with a number of religious and famous tourist spots and this heritage town itself can very well be made as a place for transition of tourists for visiting the nearest sites and temples, like Jalpesh Mandir, the temple of goddess Kali set up by Devi Chowdhurani, Tea gardens, Forests etc. of Dooars.

Today Jalpaiguri is in the process of preparing the Housing For All Plan of Action (HFAPoA). In the last 5 years, with the help of the people, we have tried to address the problems of urban poor & slums keeping the aspirations of people and development objectives and targets in mind. At some point we have been successful in realizing the dreams of the people while in others we were not. Preparation of **Housing For All Plan of Action** along with, its implementation and monitoring opened a new challenge to us – the challenge of providing all basic services to all poor people and ensuring equitable socio-economic development of the people of Jalpaiguri.

It's an honour and privilege to present before the people of Jalpaiguri, the 3rd Phase Housing For All Plan of Action which offers to provide development of all slums and ensure that new slums do not come up and thereby developing Jalpaiguri into a vibrant economy. Learning from the past we look forward towards achieving long term benefits, perspectives and convergences rather than short term goals. The Housing For All Plan of Action has been prepared and we look forward for a great future.

To sum up, the Municipality is trying hard to reach the goal in a well-planned and scientific way to translate the above visions into reality so that the fruits of its whole-hearted efforts percolate even to the humblest residents of the town.

Chairman
Jalpaiguri Municipality

Planning Team

- I. Shri. Mahon Bose, Chairman, Jalpaiguri Municipality.
- II. Shri.Sandip Mahato, Chairman-in-Council-Member, Jalpaiguri Municipality.
- III. Dr. Santanu Nandan Maitra, Executive Officer, Jalpaiguri Municipality.,
- IV. Shri Tapash Datta , OS , Jalpaiguri Municipality, (Nodal Officer for HFA)
- V. Shri. Tapan Roy, City Manager, DAY-NULM Jalpaiguri Municipality.
- VI. Shri Bhaskar Sarkar, City Manager, DAY- NULM ,JM
- VII. Shri Buddharup Ghosh, Urban Planner,JM

Annexure 7C
(Para 14.5 of the Guidelines)
Format for Project under Beneficiary Led Construction Or Enhancement

1	Name of the State:	:	West Bengal						
2	Name of the District:	:	Jalpaiguri						
3	Name of the City:	:	Jalpaiguri						
4	Project Name:	:	HFA-Jalpaiguri -2019-20						
5	Project Code:	:	19801640054N0						
6	State Level Nodal Agency:	:	State Urban Development Agency						
	Implementing Agency/ ULB	:	Jalpaiguri Municipality						
8	Date of Approval by State Level Sanctioning and Monitoring Committee (SLSMC)	:							
9	No. of location covered in project: No of Slum Area Covered & No of Non Slum Area Covered	:	Name of Location	No. of beneficiaries	Whether Slum / Non-Slum	If Slum, then Slum type	If slum, whether it gets completely rehabilitated		
		:	Jalpaiguri Municipal Area	550	Covering both Slum & Non-Slum area	Notified	No		
10	Project Cost (Rs. In Lakhs)	:							
11	No. of beneficiaries covered in the project	:	GEN	SC	ST	OBC	Total	Minority	Person with Disability
		:	290	241	1	18	550	18	
12	Whether beneficiary have been selected as PMAY Guidelines?	:	Yes						
13	No. of Houses constructed / acquired. Please specify ownership (Any of these)	:	Joint	Female	Male	Transgender			
		:	154	174	222				
14	No. of beneficiaries covered in the project	:	Male	Female	Transgender				
		:	376	174					
15	Whether it has been ensured that selected beneficiaries have rightful ownership of the land ?	:	Yes						
16	Whether building plan for all houses have been Approved?	:	Yes						
17	i. GoI grant required (Rs. 1.5 lakh per eligible beneficiary)	:	825.00						

	(Rs. in Lakhs)	
ii.	State grant, (Rs. in Lakhs)	: 1162.70
iii.	ULB grant (Rs. in Lakhs)	: 101.20
iv.	Beneficiary Share (Rs. in Lakhs)	: 138.00
v.	Total (Rs. in Lakhs)	: 2226.90
18	Whether technical specification / design for housing have been ensured as per Indian Standards / NBC/ State Norms?	: Yes
19	Whether it has been ensured that balance cost of construction is tied up with State Grant, ULB Grant & Beneficiary Share ?	: Yes
	Whether trunk and line infrastructure is existing or being provisioned ?	:
i.	Water Supply	: Yes
ii.	Sewerage	: No
iii.	Road	: Yes
iv.	Storm Water Drain	: Yes
v.	External Electrification	: No
vi.	Solid Waste Management	: No
vii.	Any Other	: No
viii.	In case, any infrastructure has not been proposed, reason thereof.	: No
20	Whether disaster (earthquake, flood, cyclone, landslide etc.) resistant features have been adopted in concept, design and implementation of the project ?	: Yes
21	Whether Demand Survey Completed for entire city ?	: Yes
22	Whether City-wide integrated project havebeen formulated ? If not reasons thereof ?	: Yes
23	Whether validation with SECC data for housing condition conducted ?	: Yes
24	Whether Direct Benefit Transfer (DBT) of fund to individual bank account of beneficiary ensured in the project ?	: Yes

25	Whether there is provision in DPR for tracking/monitoring the progress of individual houses through geo-tagged photographs ?	:	Yes
26	Whether any innovation/cost effective / Green technology adopted in the project?	:	Yes
27	Comments of SLAC after techno economic appraisal of DPR	:	Project covers the most needy beneficiaries
28	Project brief including any other information ULB/State would like to furnish	:	The project covers all wards
29	Project Submission Date to SLSMC	:	

It is hereby confirmed that State/UT and ULB have checked all the beneficiaries as per guidelines of HFA. It is also submitted that no beneficiary has been selected for more than one benefit under the Mission including Credit Linked Subsidy Scheme (CLSS) component of the Mission.

Working Definitions

Affordable Housing Project:	Housing Projects where 35 % of the houses are constructed for EWS category
Beneficiary	A beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his//her name or in the name of any member of his/her family in any part of India
Carpet Area	Area enclosed within the walls, actual area to lay carpet. This area does not include the thickness of the inner walls.
Central Nodal Agencies	Nodal Agencies identified by Ministry for the purposes of implementation of Credit Linked subsidy component of the mission
Economically Weaker Section(EWS)	EWS households are defined as households having an annual income up to Rs 3, 00,000(Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre
EWS House	An all-weather single unit or a unit in a multi storeyed super structure having carpet area of upto 30 sq.m. with adequate basic civic services and infrastructure services like toilet , water, electricity etc. States can determine the area of EWS as per their local needs with information to Ministry
“Floor Area Ratio” (FAR)/FSI	The quotient obtained by dividing the total covered area (plinth area) on all the floors by the area of the plot:

	<p style="text-align: center;">Total covered area on all the floors x 100</p> <p style="text-align: center;">FAR= -----</p> <p style="text-align: center;">Plot area</p> <p>If States/Cities have some variations in this definition, State/City definitions will be accepted under the mission</p>
Implementing Agencies	Implementing agencies are the agencies such as Urban Local Bodies, Development Authorities, and Housing Boards etc. which are selected by State Government / SLSMC for implementing Housing for All Mission.
Low Income Group (LIG)	LIG households are defined as households having an annual income between Rs.3, 00,000 (Rupees Three Lakhs One) up to Rs.6, 00,000 (Rupees Six Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.
Primary Lending Institutions (PLI)	Scheduled Commercial Banks, Housing Finance Companies, Regional Rural Banks (RRBs), State Cooperative Banks, Urban Cooperative Banks or any other institutions as may be identified by the Ministry
Slum	A compact area of at least 300 population or about 60-70 households of poorly built congested tenements, in unhygienic environment usually with inadequate infrastructure and lacking in proper sanitary and drinking water facilities.
State Land Nodal Agencies (SLNAs)	Nodal Agency designated by the State Governments for implementing the Mission
Transfer of Development Rights (TDR)	TDR means making available certain amount of additional built up area in lieu of the area relinquished or surrendered by the owner of the land, so that he can use extra built up area himself in some other land.

1. Situation assessment for HFAPoA

1.1 Background

“Housing for All” Mission for urban area will be implemented during 2015-2022 and this 1.1 Mission will provide central assistance to implementing agencies through States and UTs for providing houses to all eligible families/beneficiaries by 2022.

Mission will be implemented as Centrally Sponsored Scheme (CSS) except for the component 1.2 of credit linked subsidy which will be implemented as a Central Sector Scheme.

A beneficiary family will comprise husband, wife, unmarried sons and/or unmarried daughters. 1.3 The beneficiary family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

States/UTs, at their discretion, may decide a cut-off date on which beneficiaries need to be resident 1.4 of that urban area for being eligible to take benefits under the scheme. Mission with all its component has become effective from the date 17.06.2015 and will be 1.5 implemented upto 31.03.2022.

All 4041 statutory towns as per Census 2011 with focus on 500 Class I cities would be covered in three phases as follows:

Phase I (April 2015 - March 2017) to cover 100 Cities selected from States/UTs as per their willingness.

Phase II (April 2017 - March 2019) to cover additional 200 Cities.

Phase VI (JULY 2019 - March 2022) to cover all other remaining Cities.

Ministry, however, will have flexibility regarding inclusion of additional cities in earlier phases in case there is a resource backed demand from States/UTs.

1.2 Approach and Methodology

The HFAPoA for Jalpaiguri has been prepared in accordance with the guidelines issued by Ministry of Housing and Urban Poverty Alleviation, Government of India. Overall approach adopted throughout the preparation of this HFAPoA has been based on four key principles,

- ❖ Well rounded stakeholder consultations,
- ❖ Continuous community involvement,
- ❖ Providing innovative solutions and
- ❖ Coordination & validation.

Methodology adopted for preparation of HFAPoA is demonstrated in the below:

- 1) Taking Initiative for Demand Assessment Survey.
- 2) Conducting Orientation Programme with elected representative and officers of ULB.
- 3) Conducting Orientation programme with Supervisors and Enumerators.
- 4) Conducting Demand survey and complete the work.
- 5) Conducting Data Entry of the survey form and complete the work
- 6) Analysis of the data.
- 7) Filling up the requisite formats.
- 8) Planning of project with elected representatives and officers of ULB.
- 9) Preparing investment requirement and Financial plan
- 10) Finalization of HFAPoA.

1.2.1 Stakeholders Consultative Workshop / Meetings

RAY envisages continuous involvement of all stakeholders with specific reference to the community members for the preparation of HFAPoA. With an objective to develop a detailed understanding of the provisions and procedures of RAY as stipulated by Ministry of Housing and Urban Poverty Alleviation (MoHUPA), GoI a number of workshops and capacity building programmes were organized by the SUDA, GoWB both at the state level as well as ULB level. Details of the workshop and capacity building programmes organised by ULB (refer Annexure A-1 for photographs taken during workshop):

Chairperson Jalpaiguri informing participants about the HFA

Board of Councillors during Stakeholder Workshop

1.3. City Profile and Overview

History:-

Jalpaiguri is one of the most important districts in West Bengal. The Jalpaiguri District formed in the year 1869 and starting its activities as a Divisional Head Quarter of Rajshahi-Koch Behar Division since 1875 and as Rajsahi Division from 1883. With the formation of District, the tea plantation played key role in the field of Socio-Economic reforms in the district since 1877. In view of the above, a new Township has came out in the district as "Jalpaiguri Town" in the year 1869. The administration and tea planters of the district felt it necessary to set up a Urban Local Body. And "Jalpaiguri Union" was formed and performed the municipal activities till 1st. April 1885. The "Jalpaiguri Municipality" came into begin with a population of 7936 in the year 1886-87 under the Chairmanship of Deputy Commissioner of the District and Vice-Chairmanship of Civil Medical Officer. The first non official Chairman was elected in the year 1916-17. The municipal area was then divided into 7 wards, consisting with 19 commissioners. After independence, the municipal area was divided into 19 single member constituency wards in the year 1967 with a functioning area 10.095 sq. K.M. Subsequently, in 1995, the municipal area has been expanded to 12.95 sq.K.M.

Administrative Boundaries

The municipality is bounded by Tista River in its Eastern side, Kharia and Aurobindo Gram Panchyat in its Western side, Paharpur villages in the north and Kharia in the Southern side. River Karala passes from its northern side to the south eastern side. SH 12 A passes Jalpaiguri Municipality from its East to West From Siliguri town to Maynaguri Town. Jalpaiguri Municipality is very near to the International border of Bangladesh in south.

Jasoprakash Debbar
✓
Sub-Assistant.Engineer
Jalpaiguri Municipality..

Temperature

Normal temperature in the area varies from 37°C max to 7°C min. The following bar diagram shows the maximum and minimum temperature from 2000 to 2004

Soil

Very deep, poorly drained, fine loamy soils on level to nearly level recent alluvial plain with loamy surface, associated with very deep, moderately well-drained, coarse loamy soils.

Ground Water

The area is having wide seasonal fluctuations in groundwater storage and movement. Aquifers are characterized by highly assorted materials. Groundwater occurs in water table (unconfined condition). Static water level is within 4 m. below ground level. Total dissolved solids is around 150 ppm and aquifer thickness tapped is around 50 m. or so.

(Source – *Geohydrological Map of India – published by GSI, 1969*)

Geomorphology

Jalpaiguri town is situated at an altitude of 77.60 – 84.35 m. above m.s.l. on the western bank of river Teesta. River Karala is one of the major tributaries of Teesta dividing the Municipality in parts. The river Dhardhara is a tributary of river Karala. The river Gadadhar drains the water of Jalpaiguri town partially. The terrain is basically flat and blanketed by river borne sediments consisting of fine to coarse sands, silts and clays, constituting the lower piedmont flood plain of North Bengal. The upper plain is occasionally marked with pebbles and gravels drained down from the upper catchment.

(Source – Record GSI Publication – Vol.No.121, Part 2-8

“Quaternary Geology and Geomorphology of Tista-Torsa interfluve area –
A brief review”)

Ecology

Tista river plays a very important role on the local ecology. As per river basin atlas ,1985 Tista is suitable for propagation of fisheries as a result the municipality has an important role to maintain Tista River basin ecology.

A number of tea gardens are situated in the north of Jalpaiguri particularly Karalavalley Tea Gardens.

As Jalpaiguri Municipality is situated in the international border zone, there is massive rise of population due to immigration leading to acute shortage of food and water. Intensive search for alternative food and water resources has forced for modification of physio-chemical parameters. Continuous habitat loss is taking place due to human intervention and change in landuse pattern. The ULB documents its concern for this and has been putting continuous endeavour for restoration of ecology.

Linkages (Rail, Road and Air)

Jalpaiguri being the one of the oldest and important Municipality of North Bengal, is well connected by rail and road with the State capital, Kolkata as also with the major towns of West Bengal. Jalpaiguri is about 500 KM from Kolkata. The town is connected by North Eastern Railway Siliguri Haldibari Line and few important trains pass through Jalpaiguri. The town has direct railway and road links with the neighbouring towns, like Siliguri,

Moinaguri, Lataguri, Dhubguri etc. State Highway 12-A passes through the Municipality. The nearest air base is at Bagdogra.

Jalpaiguri Municipality has developed around 160 K.M. of road. In the area, Zilla Parishad has developed roads of 7 K.M. and PWD of 15 KM. Entire area of the Municipality is connected with roads. Regional connectivity linkage with the municipality is shown in the map as below. Regular maintenance of these roads is in practice.

Regional linkage & connectivity Map

Drainage

Jalpaiguri is situated on the western bank of Teesta river. A number small rivers and nala are passing through the municipal area. The Karala river is the natural drainage channel of Jalpaiguri Town is one of the tributaries of Teesta and more or less bifurcates the town in the eastern side. Another natural drainage is river Gadadhar which is connected to river Panga in the south. The high rain water from the upland portion of Jalpaiguri town and its adjoining area is causing water logging in certain portion of the city. All these need desilting and other forms of drudgery to reduce water logging and overflow during the peak monsoon period, in particular. Overall drainage system of the ULB has been hindered because –

- Siltation of natural drainages due to deforestation in upper catchment of Tista.

- River Karala fails to drain the total storm water in the river Tista as Tista is not in a position to take total discharge of river Karala during flood season.
- Most of the lateral drains are not connected with the peripheral drains
- Unplanned construction
- Drains are choked by wastes (polythene etc.)

However, the ULB has taken several remedial measures to overcome these problems.

Solid Waste Management

The ULB has started implementing Solid Waste Management scheme in the recent years. Municipality already covered 18 wards and remaining wards will be covered within coming years. Solid wastes from residential and commercial complex, medical units, wastes after sweeping the roads, drain wastes etc are removed every day.

Cleanliness and Beautifications

To maintain cleanliness and beautifications of Jalpaiguri, the ULB has taken enormous efforts with the help of its stakeholders to provide miscellaneous nature of services under its jurisdiction such as Roads, Peripheral Drainage, Electrification, Solid Waste Management, Conservancy, beautifications of parks and open spaces etc. In all spheres of activities, the Municipality imposes importance as regards its cleanliness and maintenance of overall greenery. Every day over 24 Mt garbages are removed from municipality.

Sanitation

Since its inception, Jalpaiguri Municipality is concerned about the sanitation. Growing population demands better and modern sanitation facilities. Keeping this in view, 3 Nos. community toilets have been constructed in the Municipal area. Continuous efforts are making to improve the services further. However modernized sewerage system is in need within near future.

Health

Since its inception, Jalpaiguri Municipality is improving gradually in its health services in different forms. Health services programme IPP-VIII (Extn) is being implemented for further betterment. There is one general Hospital, one Clinic, one Dispensary and one Family Welfare Centre. The ULB possesses two Ambulances for constant services.

Education

As per District Handbook 2005, Government of West Bengal, there were 73 primary schools, 4 middle schools, 5 high schools, 13 higher secondary schools and 3 colleges in the Jalpaiguri Municipal area, along with 18 professional and technical institutions. Also, there are 13 public libraries and 13 free reading rooms. Percentage of literacy in the area is 91% for male and 83% for female.

The authorities are in constant touch with the progressive themes with the advent of future scenario of the Municipality. Proper care has been taken to provide minimum facilities in the educational centres, like sanitation, drinking water etc as also adequate teaching aids through trained teachers. Separate projects are being taken for adult education, education for handicapped and drop out children in the coming years.

Population and development are intrinsically interrelated and progress in any component can catalyze improvement in others. In recognition of this awareness the CDP seeks to integrate the population perspective with all development policies to be undertaken in the plan. The population statistics is provided below:

Table 1: Population of Jalpaiguri

Sl. No.	Item	Jalpaiguri
1	Total population (Census 2011)	107341
2	Decadal Growth (Census 2011) (%)	6.96
3	Density	8289

Source: Census of India, 2011

The combination of high population growth and density, poverty, and limited resources makes the developing urban areas distinctive as in the case of Jalpaiguri. This population will not only require additional area for settlement to keep the density in check but also increasing infrastructural facilities to lead a minimum standard of life. The population projection is important because the services and facilities provided by the municipality ought to increase at the same ratio as the population growth. The projected population in the next 5 to 10 year should have the infrastructure and the economic stability and social standing for a good and healthy life. Thus a systematic development of the basic infrastructure is the need of the day.

Table 2: Projected Population Jalpaiguri

Jalpaiguri Municipality	Area 12.95 s.q.k.m	Projected Population in lakhs

1.4. Housing and Physical Infrastructure profile

Housing profile

50% of the households live in a house/hut with only one room in the district of Jalpaiguri Municipal area. In context of Jalpaiguri, 35% of households live in semi- pucca or partially pucca houses¹. Housing condition in its slums is not in good shape as 85% houses are either Katcha or semi-pucca. Considering the above, municipality has already initiated construction of beneficiary led houses in 77 slums spread over 25 wards on a piecemeal basis leveraging ISHDP scheme in a phased manner. In the First phase (2008-2012) total 625 houses were constructed in 77 slums spread over 25 wards. Infrastructure projects like Road, Drain and pipeline work were also completed.

Land Use

Land is one of the most important scarce natural resources. The importance of land use planning, therefore, plays a vital role due to large population growth day by day.

Table below shows Land use distribution of Jalpaiguri.

Table 5: Land Use pattern in Jalpaiguri

Land Categories	Area in hectare	% of the Total area
Residential	786.3	61.42
Open land	132.0	10.31
Agriculture	112.0	8.75
Roads	79.0	6.17
Public Parks /	36.2	2.83
Drainage	34.6	2.70
Institutional	28.3	2.21
Mixed	24.6	1.92
Commercial	22.0	1.72
Lakes / Tanks	14.5	1.13
Hazardous	6.4	0.50
Railway	4.0	0.31
Industrial	0.22	0.02
Total	1280.12	

Ward wise population density of the Jalpaiguri Municipality is shown in the map as below. It shows that the wards situated in the central parts of the town mainly west of Karala River and near the Railway station the density is very high only exception is ward no. 9 at the south of the municipality.

Table 6: Other Land categories

Land Categories	Area in hectare	% of the Total area
Agriculture	112	36.28
Roads	79	6.17
Public Parks / Garden	36.2	2.83
Drainage	34.6	2.70
Commercial	22	1.72
Lakes / Tanks	14.5	1.13
Hazardous	6.4	0.50
Railway	4	0.31

Land use pattern of Jalpaiguri is broadly influenced by the main Road and rail route and the proximity to Kolkata. As a result the main residential, commercial and public-semi-public areas are concentrated along the transport route but mostly concentrated towards north. The agricultural and plantation areas are mostly concentrated towards the southern fringe areas. Image below shows the land use characteristics of the Jalpaiguri city.

Existing Landuse Map of Jalpaiguri Municipality

Map No - 7

Housing Typologies

As on September 2015, the population of Jalpaiguri was 115000 of which number of persons residing in slums are 26418, which is about 22.97% of the total population. As per

the USHA total household in 77 slums are 9107 and as per demand survey for housing for all by 2022 undertaken as part of preparation of HFAPoA and validated by ULB and community, 2396 household living in semi pucca house and 4017 household living in kuchha house. On the other hand 715 household are living in non-slum area having semi pucca and katcha house. From present Demand Assessment survey for Housing for all (HFA), it is noticed that 7128 household covering under this project. Out of these 7128 houses, 6511 houses will be constructed through “Beneficiary-led-Construction” and 572 houses will be constructed through “Credit to Link Subsidy”. Under “Beneficiary-led-Construction” each beneficiary will get 1.5 lakh from central assistance.

Physical Infrastructure profile

Water Supply

Water supply was introduced to the municipality during 1934 and subsequently water supply system was divided into 5 zones namely I, II, III, IV and V. Apart from the above 5 zones there are two more zones namely composite complex and Maskalai Bari – Arobindo nagar Sector.

Table 7: Status of Water Supply service levels benchmark

Sl.No.	Indicators	Present status	MOUD Benchmark
1	Coverage of water supply connections	20%	100%
2	Per capita supply of water	30 LPCD	135 LPCD
3	Extent of metering of water connections	0 %	100%

Treatment capacity	0.00 MLD	0.00 MLD	0.00 MLD	25.00 MLD	25.00 MLD
Elevated Storage capacity	0.0 MG	0.0 MG	0.0 MG	11.0 MG	11.0 MG
Distribution network coverage	30 Km	0 Km	30 Km	150 Km	120 Km

Source: Municipality Database.

Jalpaiguri Municipality is a water supply deficit municipality amounting 25 MLD in 2016. Within the areas served with piped water supply, the population does not get water as water supply is intermittent throughout the town and available for only 6 hours a day .

Keeping in consideration of the above gap, Jalpaiguri Municipality has proposed to taken up a water supply project to improve the situation in all 25 wards of the Municipality

Drainage and Sanitation

The drainage system of the area plays an important role in carrying out water including storm water. Topography of the land is flat except some elevated land in the central part of the Municipal area. Water logging and drainage problem in some parts of the town still persist due to back flow of flood water of river Teesta through Karala. The rainwater from the upland of Jalpaiguri town and its adjoining area is causing water logging at Bill Para area, Arabindanagar area, Kamteswari Pond area, New Circular road area, Newtown Para area and Karmakar Para area. The Gadadhar river is unable to drain out this run-off.

Moreover, river Karala is affected seriously by deposition of silt.

The drainage network of the Municipality is 339 km in total length and is mainly of two types- Kancha and Pucca (Length of Kancha drain - 284 Km & pucca drain – 55 Km). The topography of the town helps very much in natural drainage.

The sanitation system of the town is poor. The table below presents a service level standard of Jalpaiguri in terms of coverage of the city with respect to sanitation and sewerage.

Community toilet	-	3 nos.
Pay & Use public toilet	-	4 nos.
Types of sanitary in the municipal area		
▪ Septic Tank with soak pit	-	85%
▪ Septic Tank without soak pit	-	15%
▪ Kuncha Latrine	-	Nil

Table 11: Benchmarks: Sewerage and Sanitation in Jalpaiguri as on 2011

Sewerage & Sanitation Services	Benchmark	National Average	Current Service Level Benchmarks in Jalpaiguri
Toilet Coverage	100%	85.8	85%
Sewerage network coverage	100%	48.5	0%
Waste water collection efficiency	100%	41.9	10%
Wastewater treatment adequacy	100%	48.8	0%
Quality of wastewater treatment	100%	58.8	0%
Extent of reuse & recycling of treated MSW	20%	6.8	0%
Cost recovery - waste water	100%	38.3	0%
Collection efficiency	90%	42.5	0%
Complaints redressal	80%	76.4	0%

Source: MoUD, GoI and Jalpaiguri Municipality

Above table clearly shows though toilet coverage of the town is reasonably good, but lot of interventions are required to improve sanitation and there is no household level drainage facility leading to unhygienic environment in slums.

Solid Waste Management

At present, SW collection exists in ward nos. 4, 5, 6, 7, 8, 10, 15, 17, 18, 19 , 22 and 24.

Balance wards need to be brought under SWM system. The waste is transported with the

help of tractor, to the dumping site in Fakirapara Danga 14.5 acres. No. of collection vehicles involved are;

1) Truck	5 Nos. (5 Mt capacity)
2) Tructor	3 Nos
3) Trailor	1 No. (1.5Mt)
4) Covered Trailor	
Cum Vat	a) 11 Nos.(0.5 mt) b) 12 Nos (2.5Mt)
5) Tricycle Van	58 Nos.
6) Buckets	14000 Nos
7) Compactor	02 Nos.

The solid waste is being taken to the landfill area of Fakirapara Danga.

Road Coverage and Condition

Road network in Jalpaiguri has grown to a total of 160 km. While more than 85% of roads are black topped and concrete, around 5% of the road network is still katcha road and 10% is brick Roads. Most of the existing arterial roads are narrow with two lane carriageways and needs to be widened to cater for the increasing vehicular traffic.

1.5. Assessment of Present Status of Slums

With an objective to formulate appropriate Slum Development Model for each of the slums, availability of latest and reliable baseline data on all the slums is instrumental. This baseline data encompassing indicators including socio-economic, geographical/spatial, physical etc. shall help develop an overall portrait of the slums in Jalpaiguri. This shall help in identifying development need for slums and formulating slum specific development strategies.

As on September 2015, Jalpaiguri had a total of 77 slums spread across all the 25 wards of the municipality. The population of Jalpaiguri is 115000 of which number of persons residing in slums are 40981, which is about 35.64% of the total population. . As per the USHA total household in 77 slums are 9107 and as per demand survey for housing for all by 2022 undertaken as part of preparation of HFAPoA and validated by ULB and community, 2396 household living in semi pucca house and 4017 household living in kuchha house. On the other hand 715 household are living in non- slum area having semi pucca and katcha house. From present Demand Assessment survey for Housing for all (HFA), it is noticed

that 7128 household covering under this project. Out of these 7128 houses, 6511 houses will be constructed through “Beneficiary-led-Construction” and 572 houses will be constructed through “Credit to Link Subsidy”. Under “Beneficiary-led-Construction” each beneficiary will get 1.5 lakh from central assistance.

Following maps show the location, status (notified/non-notified) and age of all the 77 slums in Jalpaiguri.

Total	77	6413	26418	100%	25%	13884	12534

Source: Demand survey-2015

Maximum concentration of population has been observed in ward no. 2 and 9 (5 & 7 slums respectively) with their share of slum population to total recording around 6.95% each, followed by four wards (1, 14, and 17) with their contribution to total slum population being about 4.50% each.

There is no gender imbalance in terms of population of male and female in slums of Jalpaiguri recording almost 1:1 ratio.

Similarly maximum concentration (10% or more than 10% of the total) of households is observed in five wards (5, 8, 9, 10 and 16), while, in rest of the wards, number of households comes around less than 200 .

Table below represents ward wise distribution of all the slums along with their ownership status, and age.

As can be observed

- ❖ Jalpaiguri has uneven distribution of slums in its 25 wards with 5 wards having 5 or more than 5 slums, while, in other wards, number of slums is 3 or less than .
- ❖ Out of total 77 slums, based on status, population and area is provided in Annexure B-1.
- ❖ Out of total 77 slums, 22 slums are non- notified slums.
- ❖ Average age of the slums is around 125 years and the age varies from 15 years to maximum of 125 years.

1.5.1. Slum Profile and its Location

Slum status as per Location

Location wise analysis shows that 12 slums are situated in core area² of the municipality, all slums are notified slums. Remaining 65 slums are situated in fringe area³ of the city out of which 43 slums notified slums and 22 slums are non-notified slums.

Going by location of slums ward-wise, it is observed that all the slums located in 4 wards (3, 11, 15 and 17) are under core area, whereas, slums under another 6 wards (2, 4, 9, 13, 14 and 16) are completely under fringe area. Rest of the wards have slums under both core and fringe area. Status of Slums in Jalpaiguri as per Location has been presented in the table below:

Table 17: Status of Slums in Jalpaiguri as Per Location

Status of Slums	Core Area				Fringe Area				Slum Population in % terms of total population of slums	Slum HHs in % terms of total number of slum HHs
	No. of Slums	No. of HHs	No. of Persons	Area (Sq. Km)	No. of Slums	No. of HHs	No. of Persons	Area (Sq. Km)		
Notified	12	1428	4871	0.44	43	3326	12589	3.18	66%	67%
Non-Notified	0	0	0	0	22	2374	8958	6.82	34%	33%
Total	12	1428	4871	0.44	65	5700	21547	10	100%	100%

Source: USHA Survey and MIS data validation report

² Core Area: Area having a population (based on the previous census) of at least 50,000 persons in the case of a Census Metropolitan Area (CMA), or at least 10,000 persons in the case of a Census agglomeration CA.

³ Fringe Area: Fringe includes all population centers within a CMA or CA that have less than 10,000 persons and are not contiguous with the core or secondary core.

- Total 66% populations are in slum area in terms of total population of slums in notified area and in non-notified slums there are 34% population.

Land Value Analysis

- Owing to geographical nature of the municipality as mentioned in the above section, land values in slums are observed to be of varying nature. Based on information on land values at different areas of Jalpaiguri received from West Bengal Valuation Board (WBVB), all the slums⁴ have been categorised into four zones in order of increasing market value. The zones are: i) Z1 (High), ii) Z2 (Moderately High), iii) Z3 (medium) and iv) Z4 (Low). (Refer annexure B-4 for land values in four zones).
- Distribution of slums in the four zones has been presented in the figure 2 and image below. It is observed from the image that

Figure 2: Number of Slums across four zones

- Majority of slums located in fringe area of the municipality have relatively lower land value zone (Z3 and Z4). This is primarily attributed to the rural characteristics of this part of the municipality with a significant presence of agriculture and plantation area.

Table 18 : Land use Pattern, Area Land Value of all the 77 slums of Jalpaiguri

Sl No.	Ward Number	Slum Code	Slum Name	Land Use	Land Value (Z1 is high and Z4 is low)
1	1	10001	INDIRA GANDHI COLONY(S-001)	Residential	z3
2	1	10002	HOSPITAL PARA SLUM(S-002)	Residential	z3
3	1	10003	SHANI MANDIR BUSTEE (S-003)	Residential	z3

⁴ In Jalpaiguri, most of the slums are located on private land with very small holding size. Accordingly, land value and land ownership are not being considered for identifying the slum redevelopment model.

Population Density

Based on demographic analysis for 77 slums, it is found that 13 slums (20%) have low population density i.e. upto 3000 persons per sq. km and 17 slums (27%) have medium density ranging between 3000- 6000 persons per sq. km, whereas 16 slums (25%) have density ranging between 6000-9000 persons per sq. km. Remaining 18 slums have high density of more than 9000 persons per sq. km. Table below shows ward wise distribution of slums with respect to population density per sq. km.

Fig:- 03 Ward wise Population Density

Land Tenure Status

Security of tenure was assessed on the basis of slum households having patta and possession certificates.

Table 19: Indicator for assessing security of tenure

No. Indicators	Score	1	2
		More than 60	Less than equal to 60
1. Land Tenure: Percentage of Households with Patta & Possession Certificate

Source: USHA Survey and MIS data validation report

Key observations from the above table are:

- Majority of slum dwellers of Jalpaiguri enjoy secured tenure status. In notified and non notified slums 3706 households hold patta and 1936 households Possession Certificate/Occupancy Right with them.
- On the contrary, 626 households have no secure tenure status in notified and non notified slums as they are reported to have encroached private land and 1101 household have encroached public land for homestead purpose.

1.5.2. Summary of Findings of Demand Survey

Housing for All (HFA) Scheme has since been launched by the Ministry of Housing & Urban Poverty Alleviation (MoHUPA), Govt. of India in Mission mode which envisages provision of Housing for All by 2022 when the Nation completes 75 years of its Independence. The Mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

Redevelopment of slums with private participation

Promotion of affordable Housing for weaker section through credit linked subsidy

Affordable Housing in partnership with public sectors

Subsidy for beneficiary-led individual house construction.

In compliance with the objective and as per direction of the Ministry of Housing & Urban Poverty Alleviation (MoHUPA) and State Urban Development agency(SUDA), West Bengal was undertake a demand survey through suitable means for accessing the actual demand of housing. For this mission Jalpaiguri Municipality undertook Demand survey on 22.09.2015 and completed the survey on 01.10.2015. From this survey, different information have been took off. Summary of findings of survey have been given below:

Table 21: Distribution of family heads of the slum

Total				0	501	0	5912 6413

Source ; Demand survey,2015

From the above table, it is noticed that out of total 6413 households falls under the scheme. From that only 501 households require credit to link subsidy and 5912 household require new house construction. Ward-wise details are given in the table.

In summarizing the HFAPoA of Jalpaiguri Municipality, Jalpaiguri Municipality takes two verticals for implementation of the project i.e. “credit to link subsidy” and “Beneficiary –led – construction”. For this project, Jalpaiguri Municipality conducted Demand Assessment survey for getting total requirement of houses in the ULB. From this survey, the total survey form received 8128. From 7128 forms, all forms for Format B. Out of 8128, 6413 form received from 77 slums and 715 forms received from non slums.

1.5.3. Broad infrastructure status in slum areas

Status of all 77 slums in respect of the four infrastructure is detailed below:

Water

Slum households in Jalpaiguri have limited access to water connection inside their premises. Figure below shows the following

Access to Bathroom facility

- In terms of access to bathroom facilities, 33% households (Around 1900 Nos.) have bathroom facilities inside their own premise, of which around 70% households are from notified slums and rest from non-notified slums.
 - Rest of households do not have any bathroom facilities inside their premises, of which 26% use outside facilities and another 8% depend on community bathrooms.

Drains

Improper drainage system is one of the emerging challenges of Jalpaiguri Municipality, which leads to water logging condition in several slums every year during monsoons. None of 77 slums of Jalpaiguri have connectivity to city wide underground drainage/sewer line. Table below shows the status of connectivity to City-wide Storm-water Drainage System.

Table 26: Connectivity to City-wide Storm-water Drainage System

Source: USHA Survey and MIS data validation report

As can be observed from the above table:

- Out of 77 slums, 1595 households staying in 12 slums of Jalpaiguri are fully connected with drainage facility and all the 7 slums are notified slums
- Majority of the slums (36 slums) covering 62% of total HHs are partially connected as only part of their respective slum areas are reported to be connected with the facility
- Total of 77 slums, of which 22 are non-notified slums, are not at all connected with any kind of sewer/drainage system.

Roads

Accessibility to roads is an important parameter for development of slums. From the figure alongside, following key things can be ascertained

- About 10% households in slums have access to motorable pucca road and another 11% households to non-motorable pucca road.
- Rest of the households have access to katcha road, of which around 43% households have motorable katcha road facility and the rest 36% have access to katcha road, but non-motorable.

Figure 4: Accessibility to Roads

1.6. Tenability Analysis

Having assessed the status of slums with respect to physical location and land use characteristics, all 77 listed slums in Jalpaiguri Municipality are analysed with regard to their tenability in order to determine prioritization of slums and slum development options i.e. whether planned service provision will be undertaken through credit to link subsidy and beneficiary led construction. The objective of this exercise is to classify slums as Tenable or Untenable and any slums which are classified as Semi-Tenable were further analysed to classify them as Tenable or Untenable. HFA guidelines prescribe the following criteria for classifying the slums as tenable, semi-tenable or un-tenable are provided in the box below:

In addition, the tenability of slum was assessed on the following parameters

- **Land Use:** Jalpaiguri municipality has a Land Use and Development Control Plan (LUDCP) which prescribes the mixed land use characteristics for all the four identified development control zones. Looking into the mixed land use, location of the slums in Jalpaiguri is in conformity with the proposed land use.
- **Flooding:** Four slums out of 77 slums are prone to flood for more than 15 days and can be made tenable through sustainable engineering solutions like proper drainage system.

Accordingly, all the 77 slums in Jalpaiguri are considered to be tenable.

2. Assessment of Existing and likely Future Housing Shortage

2.1 Existing Housing Shortage (Slums and Non Slums)

Housing Shortage with regard to the Jalpaiguri Municipality has been analysed on the basis of information available through Demand Assessment survey, Census Records, Stakeholders' consultation, State level and National level reports and policies.

As prescribed by HFA Guidelines the housing shortage is assessed by adopting two pronged approach. They are:

- I. **Curative Approach:** The housing shortage or deficiency for the existing slums and non slum is worked out at 2218 units and is summarised in the following table:

Table 27: Housing Shortage- Curative Approach

S. No	Structure of the House	Number of Units
I.	Construction of Semi-Pucca House to Pucca Houses	1778
II.	Construction of Kuchha house to Pucca Houses	1945
	Total	3723

- II. **Preventive Approach:** The preventive approach is aimed at prevention of new slums by providing for adequate affordable housing for the migrant population and for the persons, who due to lack of affordable housing options may shift to slums. Preventive approach takes into consideration both the existing housing shortage and housing units that may be required in the future.

The Housing for preventive approach is calculated by considering the following parameters in the figure below.

Figure: 5 :Housing Shortage preventive approach

The housing shortage in each of the above components is calculated as follows:

A. Assessment of Current Housing Shortage

I. Obsolescence Factor:

According to the “Report of the Technical Group on Estimation of Urban Housing Shortage”, the households living in the dwelling units aged 80 years or more are deemed to be unfit for habitation”. The obsolescence factor is taken into consideration as dilapidated houses in census records.

The following table shows the housing condition of residential houses in the Jalapiguri District.

Table 28: Housing Condition- Jalpaiguri

Particulars	Good	Livable	Dilapidated	Total
Jalpaiguri- as per 2011 Census (Urban)	7833	7521	10,851	26,205

As Jalpaiguri has about 26205 households of the total urban population of Jalpaiguri District, the number of dilapidated dwelling units in Jalpaiguri is about 10158.

II. Houses with predominately katcha and Semi-Pucca roof

The following table shows the number of households by predominant material of roof for South 24 Parganas (Urban) as specified in census-2011

Table 29: Housing Structure by type of roof

District	Grass/ Thatch / Bambo o/Woo d /Mud etc:- (a)	Plastic :-(b)	Hand Made Tiles:- (c)	Machi ne Made Tiles:- (d)	Burnt Brick: -(e)	Stone /Slate :-(f)	G.I/Met al/Asbes tos Sheet:- (g)	Concr ete:- (h)	Othe r Mate rial:- (i)	Total Num ber of House holds
Jalpaiguri (Urban)	4017	0	2401	0	0	0	710	0	0	7128

Housing shortage on account of katcha roof structure for Jalpaiguri Municipality can be arrived as follows:

Table 30: Additional houses required for Katcha and Semi-Pucca roof structure

Particulars	Housing Units
Total Number of Households excluding Concrete, Stone/Slate, G.I/Metal/Asbestos Sheet for Jalpaiguri (Urban):- (A)=(a)+(b)+(c)+(d)+(e)+(i)	7688
Estimated Number of Houses for Jalpaiguri @ 2.57% of (A):- (B)	197
Number of houses considered under curative strategy:-(C)	4038
Number of additional houses required :-(D)= (B)-(C)	3453

The current housing shortage can be summarized as follows:-

Table 31: Current Housing Shortage

S. No	Structure of the House	Number of Units
I.	Construction of Semi-Pucca House to Pucca Houses	2290
II.	Construction of Kuchha house to Pucca Houses	1945
III.	Due to migration	3453
	Total	7263

2.2 Likely Future Housing Requirement

The future housing requirement is calculated to address the requirement due to increased population and migration till the year 2025.

I. Population Growth Requirements:

. The population for Jalpaiguri till year 2025 is projected as follows:

Table 32: Projected Population growth

Year	Population	Number of Households	Size of Household
1991	68732		0
2001	100348		0
2011	107341	26205	4.01
2015	115000	27000	4.01
2021	169000	28200	4.01

Note: For the year 2015 onwards size of household is assumed to be the same as in 2011 i.e. 4.01, the number of households has been arrived at by dividing the projected population with the household size.

The additional housing Requirement for the Jalpaiguri till 2025 is estimated as **10851 houses**

B. Housing Requirements under Preventive Strategy:

The housing requirement of Jalpaiguri for preventive strategy is summarised in the table below:

Table 33: Housing Shortage under Preventive Strategy

Parameter	Housing Units
Existing Housing Shortage up to 2015	1860
Housing Demand for 2015-2025	8991
Total Housing Units	10851

3. Identification of four Options available under Mission

The Mission will be implemented through four verticals giving option to beneficiaries, ULBs and State Governments. These four verticals are as below:

Figure 7: Four Implementation verticals

Non slums Urban Poor + Future Urban Poor

In the case of Jalpaiguri Municipality, Municipality takes only two verticals i.e. “ Credit To Link” and another vertical is “ Beneficiary led construction”. From present Demand Assessment survey for Housing for all (HFA), it is noticed that 7688 household covering under this project. Out of these 7128 houses, 6556 houses will be constructed through “Beneficiary-led-Construction” and 715 houses will be constructed through “Credit To Link”. Under “Beneficiary-led-Construction” each beneficiary will get 1.5 lakh from central assistance.

Table 34: Slum - wise Intervention strategies for Unaneble Slums and non PPP Slums

II. Slum- wise Intervention strategies for untenable and non-PPP slums

4. Intervention Plan an Central Assistance

In Intervention Plan, Jalpaiguri Municipality takes only two verticals i.e. i.e. "Credit To Link" and another vertical is "Beneficiary led construction". From present Demand Assessment survey for Housing for all (HFA), it is noticed that 7688 household covering under this project. Out of these 7688 houses, 6556 houses will be constructed through "Beneficiary-led-Construction" and 715 houses will be constructed through "Credit To Link". Under "Beneficiary-led-Construction" each beneficiary will get 1.5 lakh from central assistance.

Details of central assistance is given in the following tables:

5. Institutional Arrangements for Implementation of Development Options

The institutional arrangement of the mission is described below

Figure 9: Institutional Mechanism:

Roles and responsibilities of the Institutions:

Central Sanctioning and Monitoring Committee (CSMC)

- An inter-ministerial committee under Chairpersonship of Secretary (HUPA) for implementation of the Mission, approvals there under and monitoring.

Indicative Functions of CSMC

- Overall review and Monitoring of the Mission
- Assessing resource requirement based on HFAPoA and AIP submitted by States/UTs
- Approval of central releases under various components of the Mission
- Approval of Capacity Building Plans of States/UTs
- Devising financial and other norms for various activities undertaken as part of the Mission
- Approval of Annual Quality Monitoring Plans, Social Audit plans etc.
- Any other important issues required for implementation of the Mission.

State Level Sanctioning and Monitoring Committee (SLSMC)

Indicative functions of SLSMC

- Approval of Housing for All Plan of Action (HFAPoA)
- Approval of Annual Implementation Plan
- Approval of DPRs under various components of the Mission
- Approval of Annual Quality Monitoring Plans
- Reviewing progress of approved projects in the State and cities
- Monitoring of implementation of Mission
- Any other issues required for effective implementation of the Mission.

- I.** **RAY Nodal Officer:** Executive Officer of the Jalpaiguri Municipality has been designated as the HFA Nodal Officer for the Jalpaiguri Municipality demonstrate

II. 6. Project Monitoring and Social audit

Mission will be monitored at all three levels: City, State and Central Government. CSMC will monitor formulation of HFAPoA, Annual Implementation Plans (AIPs) and project implementation. Suitable monitoring mechanisms will be developed by the Mission. States and cities will also be required to develop monitoring mechanism for monitoring the progress of mission and its different components.

7. Conclusion

In summarizing the HFAPoA of Jalpaiguri Municipality, Jalpaiguri Municipality takes two verticals for implementation of the project i.e. “Credit to Link Subsidy” and “Beneficiary –led – construction”. For this project, Jalpaiguri Municipality conducted Demand Assessment survey for getting total requirement of houses in the ULB. From this survey, the total survey form received 7128. From 7128 forms, all forms for Format B. Out of 7128, 6413 form received from 77 slums and 715 forms received from non slums. Out of these 7128 houses, 6556 houses will be constructed through “Beneficiary-led-Construction” and 572 houses will be constructed through “Credit to Link Subsidy”. Under “Beneficiary-led-Construction” each beneficiary will get 1.5 lakh from central assistance .
