<p>Comments:- In DPR 2 nos. deep tube well and distribution line 1990 m have been mentioned. The municipal area is covered by street hand tube well for drinking water purpose. During the DPR preparation time it was planned that water supply at ULB area to be covered through another project and IHSDP water supply component will connect with main line. Water supply project started through UIDSSMT. After completion of that project this pipe line component will start.</p>
