PREFACE

SILIGURI MUNICIPAL CORPORATION

PradhanMantriAwasYojana (PMAY) aims at Providing Housing for All (HFA) by 2022 when the Nation Complete 75 years of its independence.

The urban homeless persons contribute to the economy of the cities and thus the Nation as cheap labour in the informal sector; yet they live with no shelter or social security .The urban homeless service with many challenges like no access to elementary Public Services such as health, education, food, water and sanitation.PradhanMantriAwasYojona (PMAY) also aims at providing a pucca house to every family with water connection, toilet facilities, 24 X 7 electricity supply and access.

The Mission seeks to address the housing requirement of urban poor including slum dwellers through "In Situ" Slum Redevelopment, Affordable Housing through credit linked subsidy, Affordable Housing in partnership and subsidy for beneficiary led individual house. Under the mission, beneficiaries can take advantage under one component only.

Total beneficiaries of the scheme are 2000nos from 108 nos. slum and 29 nos. of Non Slum projected for the year 2016-17 .

Total cost of the project is **Rs. 8096.00Lakhs**as per relevant department & P.W.D. schedule of rates.

Introductory Note by Mayor:

Siliguri is the head quarter of the plains Sub Division of Darjeeling District of West Bengal and is situated 392 feet above mean Sea level and in the foot hills of the Himalayas on the bank of the river Mahanand. A part of the city spreads over neighboring Jalpaiguri district. It is located in the Siliguri Corridor a narrow strip of land linking mainland India to its north eastern states.

Siliguri, situated as it is in the plains at the base of the Himalaya Mountains, connects the hill stations such as Gangtok, Darjeeling,

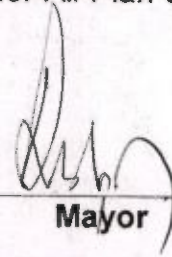

Siliguri is the trade and commerce centre and the gate way to the North East India. Siliguri acts as a transit point for air, rail and road, connecting the neighboring countries like Nepal lies in the west of the city 10 km from Bagdogra), Bhutan (on the North East about 40 km and Bangladesh (in the south of Fulbari) The strategic location of the city makes it a base for essential supplies to the above regions. The four 'T's -Tea, Timber, Tourism and Transport -are the main businesses of Siliguri. It is a principal commercial, tourism, transportation, and educational centre in the northern part of West Bengal.

Today Siliguri is in the process of preparing the Housing For All Plan of Action (HFAPoA), By the demand survey and with the help of the people, we have tried to address the problems of urban poor & slums keeping the aspirations of people and development objectives and targets in mind. At some point we have been successful in realizing the dreams of the people while in others we were not. Preparation of Housing For All Plan of Action along with, its implementation and monitoring opened a new challenge to us – the challenge of providing all basic services to all poor people and ensuring equitable socio-economic development of the people of Siliguri.

Development is not a one point agenda. With the complex social, political and economic situation it is indeed a daunting task. However we believe that we are progressing in the right direction with the support of Government of West Bengal and Ministry of Housing

Development is not a one point agenda. With the complex social, political and economic situation it is indeed a daunting task. However we believe that we are progressing in the right direction with the support of Government of West Bengal and Ministry of Housing and Urban Poverty Alleviation, Government of India we will be able to achieve the desired objectives.

It's an honour and privilege to present before the people of Siliguri, the 1st Housing For All Plan of Action which offers to provide development of all slums and ensure that new slums do not come up and thereby developing Siliguri into a vibrant economy. Learning from the past we look forward towards achieving long term benefits, perspectives and convergences rather than short term goals. The Housing for All Plan of Action has been prepared and we look forward for a great future.

Mayor

Working Definitions

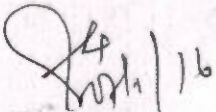

Affordable Housing Project:	Housing Projects where 35 % of the houses are constructed for EWS category
Beneficiary	A beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all-weather dwelling unit) either in his//her name or in the name of any member of his/her family in any part of India
Carpet Area	Area enclosed within the walls, actual area to lay carpet. This area does not include the thickness of the inner walls.
Central Nodal Agencies	Nodal Agencies identified by Ministry for the purposes of implementation of Credit Linked subsidy component of the mission
Economically Weaker Section(EWS)	EWS households are defined as households having an annual income up to Rs 3, 00,000(Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre
EWS House	An all-weather single unit or a unit in a multi storeyed super structure having carpet area of upto 30 sq.m. with adequate basic civic services and infrastructure services like toilet , water, electricity etc. States can determine the area of EWS as per their local needs with information to Ministry
"Floor Area Ratio" (FAR)/FSI	<p>The quotient obtained by dividing the total covered area (plinth area) on all the floors by the area of the plot:</p> $\text{FAR} = \frac{\text{Total covered area on all the floors} \times 100}{\text{Plot area}}$ <p>If States/Cities have some variations in this definition, State/City definitions will be accepted under the mission</p>
Implementing Agencies	Implementing agencies are the agencies such as Urban Local Bodies, Development Authorities, and Housing Boards etc. which are selected by State Government / SLSMC for implementing Housing for All Mission.
Low Income Group (LIG)	LIG households are defined as households having an annual income between Rs.3, 00,000 (Rupees Three Lakhs One) up to Rs.6, 00,000 (Rupees Six Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre.
Primary Lending Institutions (PLI)	Scheduled Commercial Banks, Housing Finance Companies, Regional Rural Banks (RRBs), State Cooperative Banks, Urban Cooperative Banks or any other institutions as may be identified by the Ministry
Slum	A compact area of at least 300 population or about 60-70 households of poorly built congested tenements, in unhygienic environment usually with inadequate

1. Situation assessment for Housing For All

1.1 Background

“Housing for All” Mission for urban area will be implemented during 2015-2022 and this Mission will provide central assistance to implementing agencies through States and UTs for providing houses to all eligible families/beneficiaries by 2022. The Mission will be implemented as Centrally Sponsored Scheme (CSS) except for the component of credit linked subsidy which will be implemented as a Central Sector Scheme.

A beneficiary family will comprise husband, wife, unmarried sons and/or unmarried daughters and the family should not own a pucca house either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission.

All 4041 statutory towns as per Census 2011 with focus on 500 Class I cities would be covered in three phases as follows:

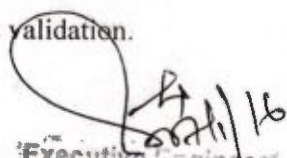

1. Phase I (April 2015 - March 2017) to cover 100 Cities selected from States/UTs as per their willingness.
2. Phase II (April 2017 - March 2019) to cover additional 200 Cities.
3. Phase III (April 2019 - March 2022) to cover all other remaining Cities.

Ministry, however, will have flexibility regarding inclusion of additional cities in earlier phases in case there is a resource backed demand from States/UTs.

1.2 Approach and Methodology

The HFAPoA for Siliguri has been prepared in accordance with the guidelines issued by Ministry of Housing and Urban Poverty Alleviation, Government of India. Overall approach adopted throughout the preparation of this HFAPoA has been based on four key principles,

- well rounded stakeholder consultations,
- continuous community involvement,
- providing innovative solutions and
- coordination & validation.

Executive Engineer
M.E. Dte, Govt. Of W.B.
Deputed at

Commissioner
Siliguri Municipal Corporation

Methodology adopted for preparation of HFAPoA is demonstrated in the below:

- 1) Taking Initiative for Demand Assessment Survey
- 2) Conducting Orientation Programme with elected representative and officers of ULB.
- 3) Conducting Orientation programme with Supervisors and Enumerators.
- 4) Conducting Demand survey and complete the work.
- 5) Conducting Data Entry of the survey form and complete the work
- 6) Analysis of the data.
- 7) Filling up the requisite formats.
- 8) Planning of project with elected representatives and officers of ULB.
- 9) Preparing investment requirement and Financial plan
- 10) Finalization of HFAPoA.

1.2.1 Stakeholders Consultative Workshop / Meetings

Commissioner
Siliguri Municipal Corporation

With an objective to develop a detailed understanding of the provisions and procedures of Housing For All (HFA) as stipulated by Ministry of Housing and Urban Poverty Alleviation (MoHUPA), GoI a number of workshops and capacity building programmes were organised by the SUDA, GoWB both at the state level as well as ULB level. Details of the workshop and capacity building programmes organised by ULB..

1.3. City Profile and Overview

Siliguri, the gateway to North-East India, is not only of vital importance to the state of West Bengal but to India as a whole. It is signified by four T's – tea, timber, tourism and transport in north Bengal. Its hinterland consists of North Bengal, Sikkim, Bhutan, Nepal and Assam. It is one of the most rapidly

1.1	Planning Area (Sq. Km)	1267	1267	1267
1.2	Municipal Area (Sq. Km)	41.9	41.9	41.9
1.3	Area of Slums(Sq. Km)	13.18	15.45	15.45
2	Number of Municipal Wards	47	47	47
3	Population and Households			
3.1	Total Population (no's in millions)	4,72,374	5,13,264	5,30,500 (appx.)
3.2	Number of Households	98,202	1,15,957	1,20,000 (appx.)
3.3	Density of Population	11,273	12,250	
3.4	Slum households as percentage of total Households in city	29%	48%	
3.5	Current (2015) Population (Year of Survey) (no's in millions)	5,13,264 (as per the report of Census-2011)		
3.6	Current Number (2015) of Households (Year of survey)	1,15,957 (as per the report of Census-2011)		
3.7	Slum population as percentage of total population in city	26.53% (as per USHA survey)		

1.4. Housing and Physical Infrastructure profile

As per Census 2011, the city had 1.69 lakh census houses. Residential houses account for 66% of the total houses in the city, followed by shops/offices with 19%. Factories/workshops/work sheds account for 1% of the total houses, and remaining use accounts for 14% of the total houses.

Quality of housing stock

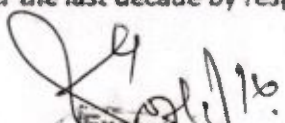

As per Census 2011, the city had nearly 1.69 lakh census houses under residential and residential cum other use categories. Of this, nearly 0.75 lakh houses (65%) were in a good condition, and around 0.35 lakh houses (30%) were in a liveable condition. Only 0.06 lakh houses (5%) were in a dilapidated condition.

Table: 2 Quality of housing in the city

Good			Liveable			Dilapidated			Total		
2001	2011	Change	2001	2011	Change	2001	2011	Change	2001	2011	Change
0.48	0.75	55%	0.38	0.35	-7%	0.11	0.06	-45%	0.97	1.16	19%

Source: Census 2001 & 2011

Thus, the number of dilapidated houses has decreased over the last decade, which indicates the focus on housing sector over the last decade by respective departments.

Land Use

Land is a vital resource and the most important natural resource in the Municipal. Due to increasing urban population pressure the urban local bodies are facing threat of overuse land and abuse of the land resource.

The development plan provides necessary detail and intended action in the form of strategies and physical proposals for various policies depending upon the economic and social needs and aspiration of the people. The existing land use in the SMC has been summed up by adding the land use of different wards. SMC wards being divided throughout two districts, 32 wards lie in the Darjeeling district and the remaining 15 wards lie in the Jalpaiguri District. Around 20.11 sq. km of SMC Area falls in the Darjeeling District and the remaining 21.79 sq. km of SMC area is in the Jalpaiguri District.

As per the land use Distribution in the SMC 50% of the total SMC area is residential land use. 7% of the total Land in the SMC region is of Commercial Use while Industrial Use is just 1%. Public & Semi Public as well as Recreational Land Use is 4% each. Transport and open land use including unused land are 13% each, Land in Agriculture & Water Bodies has a share of 8% in the total land use of the SMC.

Table - 3: Land Use of the SMC region

Land use category	SMC Land use (Sq.Km)	Land Use (%)
Residential	20.66	50%
Commercial	2.93	7%
Industrial	0.42	1%
Public & Semi Public	1.68	4%
Recreational	1.68	4%
Transport & Communication	5.45	13%
Open & Unused land	5.45	13%
Agriculture & Water Bodies	3.35	8%
Total Developed Area	41.92	100%

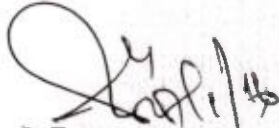

Source: Draft Development Plan 2008,, SMC

Issues of the present land use Distribution:

The present land use distribution brings in certain issues which could be analyzed on the city level. The land use and the issues relating to it are discussed in the Table 26 below:

Table 4: Land use and relating issues:

Sl. No.	Land Use	Issues/Problems
1	Open, unused land/undeveloped land	These types of lands are predominantly found in very few wards. Open/ undeveloped lands are mainly used for dumping of wastes.
2	Public parks, squares and garden, Playgrounds	There are couple of parks which can be renovated like the renowned Surya Sen park maintained by SMC. In rainy season the some of the playgrounds get water logged or mucky. These needs to be controlled.
3	Drainage network and outfalls.	The drainage network problem is acute in some wards. The problem of drain blockage is severe in almost all the wards
4	Disaster prone area (Flood, etc.)	Due to a good natural slope this is not a problem. But flash floods in the rivers may create problem of flooding.

Physical Infrastructure profile

Water Supply

Water supply in SMC was first introduced in the year 1968. In the year 1994, the Comprehensive Water Supply project was taken up for execution to increase supply to the older wards (no. 1-30) and introduce household connections instead of exiting roadside taps, introduce piped water supply to households in the added area (wards 31 to 44 and nos. 45, 46 and 47 added later in).

During the time of preparation of Comprehensive Water Supply Project, not all the then existing problems were addressed. Those issues still exist and some has increased manifold even as the execution of the above mentioned project is going on, These details are discusses in the further subchapters.

Source: CDP, SMC

Sewerage and Sanitation

The city does not have 100% coverage of sewer lines. Also, the existing system is not organized as the drainage flows into the Mahananda, Fuleshwari and Jorapani. Majority of the households lack connectivity to the network and dispose the sewage into septic tanks.

The conservancy department is in charge of overall sewerage management. The system is decentralized at ward level and each ward committee appoints safai karmachari or sanitary workers to provide door to door service. SMC also deploys these workers for any septic tank cleaning request from outside SMC for the same charge. The detailed assessment of the existing sewerage system includes sewerage generation, sewerage network, treatment facility and sanitation system in the city is discussed in the section below. Further, the section highlights the key issues in the sewerage and sanitation system.

Figure 5: Flow chart showing value chain of sewerage services

Existing Sewerage System:

The sewerage and solid waste management in the corporation area is governed under the Conservancy department. The five boroughs are in-charge for the provision and maintenance of the services, as mentioned in the Act 2009. The Safai Karmacharis, appointed under each ward committee provides the door-to door service for collection and maintenance of the sewerage and solid waste management.

At present the city doesn't have 100% sewerage network in place. Majority of the buildings have their own septic tanks/cess pools. As per the survey conducted in 2008 for GIS mapping of the city, there are total 87,000 septic tanks. The waste from the septic tanks is collected by the Safai Karmacharis within 48 hrs of intimation by the users. SMC has also introduced Tatkal service for the cleaning of septic tanks within 24 hrs of intimation. However, an extra charge Rs. 1000 is collected from the user for availing the tatkal service. The collected untreated waste is disposed in the dumping ground on Eastern By-pass, located 1 km away from the city. At present SMC owns 5 cesspools emptier and 2 emptier are taken on rent. The service charges for cleaning the septic tanks are given below:

- Rs. 700 per 3000 liters per trip
- Rs. 300 per 3000 liters per trip for low-cost latrine, inside corporation area
- Rs. 200 per 3000 liters per trip for low-cost latrines outside corporation area and community toilets.

The total cess pool collection by the borough for the year 2011-12 is given in the Table 44 below:

Table 5 : Total Cess-pool collection for 2011-12

Borough	Collection (in Rs)	Total No. of trips
Borough I	6.04	909
Borough II	6.26	894
Borough III	12.92	965
Borough IV	8.11	1047
Borough V	9.76	1183
Total	42.37	4998

Existing sanitation system

As per the present scenario 94% of the households have latrine facility within the premises. 61% of the Households have connection to the Septic tanks while only 10% use the piped sewerage system facility. To the households which do not have latrine within the premises, 2% use the public latrine facility while 4% go for open defecation, which is a major concern. Kuchha Homes in "Slum" areas has common two-pit Toilets for every 4-5 Houses, Each house has a family of 5 persons, so total 20-25 people sharing the toilet. As shown in the figure below, these toilets are constructed along the water bodies and wet lands.

Figure 6 : Toilets constructed in wet lands in Siliguri

Table 6 : Service level indicators: Sewerage

S. No	Indicator	Value
1	Coverage of toilets (87000 septic tanks, as per 2008 survey)	At present the city doesn't have any sewerage network in place. Each building has its own septic tank. As per the survey conducted in 2008 for GIS mapping of the city, there are total 87,000 septic tanks. The waste from the septic tanks is collected by the Safai Karmacharis within 48 hrs of intimation by the users. SMC has also introduced Tatkal service for the cleaning of septic tanks within 24 hrs of intimation.
2	Coverage of waste water network services	
3	Collection efficiency of waste water network	
4	Adequacy of waste water treatment capacity	
5	Quality of waste water treatment	
6	Extent of reuse and recycling of waste water	
7	Extent of cost recovery in waste water management Rs. 700 per 3000 liters per trip Rs. 300 per 3000 liters per trip for low-cost latrine, inside corporation area Rs. 200 per 3000 liters per trip for low-cost latrines outside corporation area and community toilets.	
8	Efficiency in redressal of customer complaints	
9	Efficiency in collection of sewerage related charges

Solid Waste Management

Solid Waste Management is looked after by the Conservancy Department of SMC. It is executed in a decentralized manner where each ward has its own ward level SWM committee (different from the ward committee). This system was developed and made operational in 2005 by SMC after multiple case studies and ground level surveys once "The Municipal Solid Waste (Management & Handling) Rules, 2000" came into being. Generation of solid waste is curtailed by banning plastic from the city. On World Environment Day 2010, 5th June, SMC has banned plastic carry bags in Siliguri. Households and commercial establishments are charged a monthly fee for door to door collection and this fee is utilised for primary collection, street cleaning, transportation to and dumping at the disposal ground. At the beginning, compost and plastic selling from the dumped waste also generated some income

Solid Waste Management is overseen by the Conservancy Department of SMC. Households and commercial establishments are charged a monthly fee for door to door collection and this fee is utilized for primary collection, street cleaning, transportation and dumping at the disposal ground.

Figure 7 : Flow chart showing value chain of services in SWM services

Source: City Development Plan

Waste generation

Siliguri is a rapidly growing city with a strong trade and commerce based economy. It is a gateway to North East India and to Sikkim, Bhutan and Nepal. Every tourist to Sikkim needs to change mode of travel at Siliguri. In addition, Siliguri draws a significant floating population for business and trade activities. According to SMC, the daytime floating population is almost 2-3 lakhs every day, which is 40%-60% of Siliguri's resident population. The generation of waste due to this is enormous. From 2005, SMC has taken various steps to assess the ground level MSW scenario and measures to tackle it. The data is available for over a period of time and format, not necessarily all compatible with each other. The source of Municipal solid waste is detailed in the Table 47 below.

3	Hotels	10
4	Markets	55
5	Commercial establishments	20
6	Street sweeping / drain silt	29
7	Hospital and nursing – all waste except bio-medical waste	5
	Total	300

In March-2006 an "Implementation plan for MSW Collection & transportation Strategy for Siliguri" was prepared SMC through IDFC with the funding of USAID-INDIA. This ground level study assessed the then existing SWM techniques and proposed micro level measures of improvement in terms to manpower distribution, length of street covered per sweeper with respect to the congestion and land use of the neighborhood. The studies referred to in this report estimated the combined per capita generation at 463gm/day. A subsequent report from around 2009 or 2010 from SMC estimates the solid waste generated at 400 TPD in normal time and 450 TPD in the season of cauliflower, pineapple and during festivals in this city of approx. 5 lakhs population. As per the discussion with SMC officials during Ministry of Urban Development the time of preparation of CDP, this number was supported and was attributed to the additional daytime floating population of 3-4 lakhs from neighboring states, especially Sikkim. A status report by SMC (upto 30.09.2013) estimates the same volume at 300-350 TPD. This aspect can be further investigated.

1.5. Assessment of Present Status of Slums

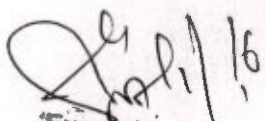

Slums are located along the Mahananda, Fuleshwari, and Jorapani rivers, on railway lands, and in the heart of the city near the railway station. Ineffective development control regulations have led to the development of slums.

80% of the slum dwellers are migrants from Bihar, Assam, West Bengal, Bangladesh, and Nepal, and 69% of them have been staying in the city for more than 10 years in the city. Except for some slums on railway land, all other slums are notified slums. 76% of the households live in kutcha houses, and 18.3% live in semi-pucca houses.

Slum dwellers are mainly non-agricultural labourers, auto rickshaw drivers, rickshaw and van pullers, vendors, and other informal sector workers, contributing significantly to the informal economy and making the city competitive in the labour market. Generally, in slums, more than one person in the family works in to meet daily requirements.

In Siliguri, the average earning persons per household is 1.3, and in 10% of the households, women are the only earning member in the family. In spite of employment generation programmes, 20% of the slum population is unemployed and 34% is underemployed.

A slum survey (as part of socio-economic survey) conducted by SMC revealed that the slum population of SMC is 32% of the total population of 513,264 (as per Census 2011).

1.5.1. Summary of Findings of Demand Survey

Housing for All (HFA) Scheme has since been launched by the Ministry of Housing & Urban Poverty Alleviation (MoHUPA), Govt. of India in Mission mode which envisages provision of Housing for All by 2022 when the Nation completes 75 years of its Independence. The Mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- a) Redevelopment of slums with private participation
- b) Promotion of affordable Housing for weaker section through credit linked subsidy
- c) Affordable Housing in partnership with public sectors
- d) Subsidy for beneficiary-led individual house construction.

In compliance with the objective and as per direction of the Ministry of Housing & Urban Poverty Alleviation (MoHUPA) and State Urban Development agency(SUDA), West Bengal was undertake a demand survey through suitable means for accessing the actual demand of housing. For this mission Siliguri Municipal Corporation undertook Demand survey on 21.09.2015. From this survey, different information have been took off. Summary of findings of survey have been given below:

Siliguri Municipal Corporation

Commissioner
Siliguri Municipal Corporation

From the above table, it is noticed that out of total 29039 households falls under the scheme. From that only 89 households require enhancement of house and 28950 household require new house construction. Ward-wise details are given in the table.

In summarizing In the case of Siliguri Municipal Corporation, SMC takes only three verticals i.e. Beneficiary Led Construction, Credit link Subsidy and Affordable Housing. From present Demand Assessment survey for Housing for all (HFA), it is noticed that, 29039 household covering under this project. Out of these 24531 houses will be constructed through "Beneficiary-led-Construction", 808 houses will be constructed through "Credit -link-Subsidy" and 3699 houses will be constructed Under "Affordable Housing". Each beneficiary will get 1.5 lakh from central assistance. For this project, Siliguri Municipal Corporation conducted Demand Assessment survey for getting total requirement of houses in the ULB. From this survey, the total survey form received 29039. From 29039 forms, all form under format B. Out of 29039, 26510 forms received from slums and 2529 forms received from non slums.

1.6. Tenability Analysis

Having assessed the status of slums with respect to physical location and land use characteristics, all 64 listed slums in Siliguri Municipal Corporation are analysed with regard to their tenability in order to determine prioritization of slums and slum development options i.e. whether planned service provision will be undertaken through in-situ up-gradation /redevelopment or resettlement. The objective of this exercise is to classify slums as Tenable or Untenable and any slums which are classified as Semi-Tenable were further analysed to classify them as Tenable or Untenable. HFA guidelines prescribe the following criteria for classifying the slums as tenable, semi-tenable or un-tenable are provided in the box below:

Tenable Slums:

1. All slum pockets located on non-objectionable and non-hazardous sites as obtained from NBO formats.
2. As per "Model Property Rights to Slum Dwellers Act, 2011"- All slums settlements which do not fall within the definition of untenable settlements are considered as tenable and fit for in-situ redevelopment / improvement.

Semi-Tenable Slums

Commissioner
Siliguri Municipal Corporation

All slum pockets located on sites which are earmarked for non-residential uses as per Master Plan are categorized as semi-tenable for further analysis and review. Finally, the semi tenable slums are either is categorized as Tenable or Untenable.

Untenable Slums

(i) As per NBO format, slum pockets in the following locations may be considered as untenable

Major storm water drains, Other drains, Railway line, Major transport alignment, River or water bodies Bank, River or water bodies Bed and others (hazardous or objectionable) including high tension lines.

However, slums on other drains may be examined for being included in the category of semi tenable or tenable

Slums depending on the exact location of the slum and the possibility of in-situ development through sustainable engineering solutions

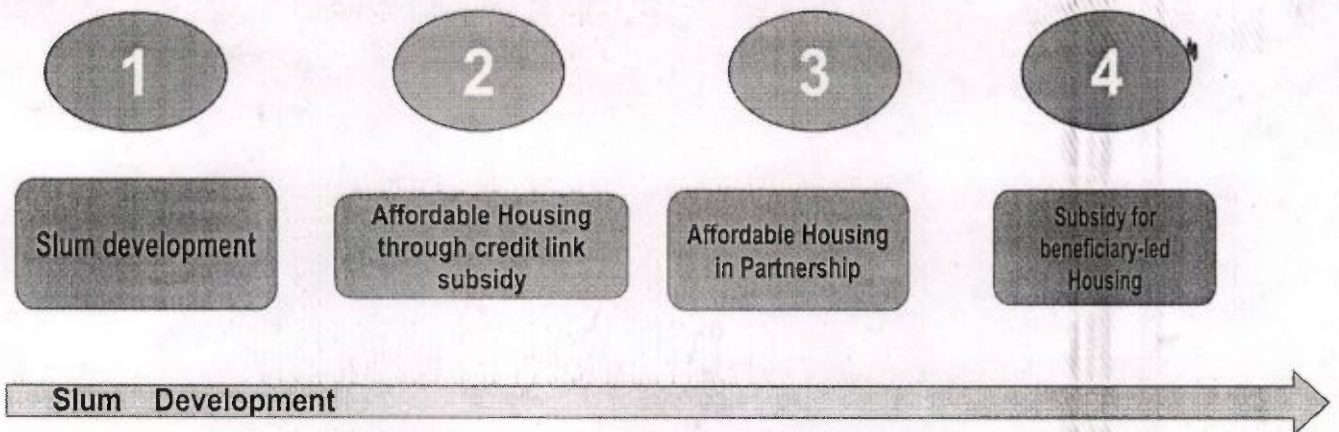

(ii) As per "Model Property Rights to Slum Dwellers Act, 2011"

Those settlements which are on environmentally hazardous sites, ecologically sensitive areas, prohibited areas around heritage sites and land marked for public spaces, utilities, services and infrastructure.

2. Identification of four Options available under Mission

The Mission will be implemented through four verticals giving option to beneficiaries, ULBs and State Governments. These four verticals are as below:

Central Sanctioning and Monitoring Committee (CSMC)

- An inter-ministerial committee under Chairpersonship of Secretary (HUPA) for implementation of the Mission, approvals there under and monitoring.

Indicative Functions of CSMC

- Overall review and Monitoring of the Mission
- Assessing resource requirement based on HFAPoA and AIP submitted by States/UTs
- Approval of central releases under various components of the Mission
- Approval of Capacity Building Plans of States/UTs
- Devising financial and other norms for various activities undertaken as part of the Mission
- Approval of Annual Quality Monitoring Plans, Social Audit plans etc.
- Any other important issues required for implementation of the Mission.

State Level Sanctioning and Monitoring Committee (SLSMC)

Indicative functions of SLSMC

- Approval of Housing for All Plan of Action (HFAPoA)
- Approval of Annual Implementation Plan
- Approval of DPRs under various components of the Mission
- Approval of Annual Quality Monitoring Plans
- Reviewing progress of approved projects in the State and cities
- Monitoring of implementation of Mission
- Any other issues required for effective implementation of the Mission.

4.6. Project Monitoring and Social audit

Mission will be monitored at all three levels: City, State and Central Government. CSMC will monitor formulation of HFAPoA, Annual Implementation Plans (AIPs) and project implementation. Suitable monitoring mechanisms will be developed by the Mission. States and cities will also be required to develop monitoring mechanism for monitoring the progress of mission and its different components.

Broad infrastructure status in slum areas

Existing Scenario

The individual houses in the slum pockets are in general temporary in nature, without having a permanent roof structure. Proper sanitary facilities are absent which is not only endangers the individual health, but also the environmental conditions of the slum and consequently the town area is general.

1 Water Supply:

Existing Scenario

The existing water supply facilities in the slum pocket are inadequate. Although the slums have sufficient source of water in the form of either tube wells or existing municipal water sources, they lack a proper distribution system for efficient use of the water, In order to solve this problem, a network of distribution lines in slum pockets have been proposed. This will reduce their inconvenience for procurement of water from a distant place as well as improve their personal health & hygiene.

2 Drainage:

Existing Scenario

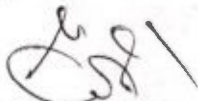

Haphazard growth and settlement in the slum area has blocked the natural drainage courses, which in turn causes water logging and stagnation in different parts of the slum. This accumulated water causes to generate public health problems. The proposed drainage system by means of construction of new drains will help to provide relief to the slum dwellers by means of efficient and effective disposal of storm water through the outfall channels. This drain will carry both sewerage and storm water. The outcome of this scheme will by and large enhance the quality of civic life by way of promotion and safeguarding the public health and environmental pollution.

3 Roads:

Existing Scenario

The existing road network system of the slum has become inadequate to cope up with the present and ever increasing needs. In order to bear the additional load due to enhanced civic, economic and commercial activities of the slum, existing road network system in several places are required either to be upgraded or widened and new roads are also be constructed in a number of places where the network is inadequate. The project is intended to ease at the movement of slum dwellers and smooth flow of pedestrian and light vehicle, which will enhance the quality of civic amenities in the slum. As a result, the quality of life in the slum will also improve substantially.

4 Boundary Wall:

Executive Engineer
M.E. Dte. Govt. Of W.B.
District of
Municipal Corporation

Commissioner
Siliguri Municipal Corporation

Existing Scenario

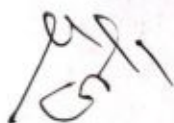

The slum dwellers and their children do not have adequate suitable spaces for carrying on various games and sports activities. The slums do not have any fencing or other type of boundary. As such, trespassing cannot be checked and the slum's internal security and privacy gets frequently breached, there are spaces in almost every slum of the municipality.

5 Livelihood Centre: Existing Scenario

There are many slum dwellers are Potter and they do this work in their own place. Shortage of place the slum dwellers conducting their business or occupational activities within the slums as far as possible.

6 Informal Market: Existing Scenario

There are many slum dwellers are green vegetable seller. Shortage of dwellers conducting their business or occupational activities within the possible.

Jawaharlal Nehru Nation Urban Renewal Mission (Jnnurm)

Government of India has decided to launch Jawaharlal Nehru Nation Urban Renewal Mission (JNNURM) with an aim to encourage reforms and fast-track planned development of identified cities. The focus is majorly on efficiency in urban infrastructure and service delivery mechanisms, community participation and accountability of ULBs/parastatal agencies towards citizens. Solid Waste Management Best performing city.

Overview:

It would be worthwhile to note that there are two submissions under JNNURM, Sub-Mission-I, titled Urban Infrastructure and Governance (UIG), will be administered by the Ministry of Urban Development through the Sub-Mission Directorate to deal with up-gradation/renewal of basic infrastructure in the selected cities and towns and implementation of various reforms pertaining to improved municipal governance including sustenance of development activities.

The Sub-Mission-II, titled Integrated Housing & Slum Development Programme(IHSDP), will be administered by the Ministry of Urban Employment and Poverty Alleviation through the Sub-Mission Directorate to deal exclusively for urban poor living in slum/squatter settlements in cities and towns. The focus of IHSDP is to improve the living conditions of the urban poor by way of providing housing along with infrastructure, with a view to gradually removing slums/squatter settlement from cities and towns.

IHSDP Schemes of JNNURM under SILIGURI MUNICIPAL CORPORATION

IHSDP PHASE-I

Project Name :	IHSDP Scheme for the Town of Siliguri Municipal Corporation
Date of Sanction :	31.03.2007
Project Cost (Rs in Lakh) - DU	Rs 2148.27 Lakhs
Project Cost (Rs in Lakh) - ID	Rs 2083.70 Lakhs
Number of Dwelling Units	1998 No's Rs. 2148.27 Lakh

IHSDP PHASE-II

Executive Engineer
M.E. Dept. Govt. of W.B.
Deputed at

Commissioner
Siliguri Municipal Corporation

Project Name : IHSDP Scheme for the Town of Siliguri
Municipal Corporation
Date of Sanction : 12.05.2008
Project Cost (Rs in Lakh) - DU Rs 1255.34 Lakhs
Project Cost (Rs in Lakh) - ID Rs 764.87 Lakhs
Number of Dwelling Units 1206 No's Rs 1255.34 Lakhs

IHSDP PHASE-III

Project Name : IHSDP Scheme for the Town of Siliguri
Municipal Corporation
Date of Sanction : 19.01.2009
Project Cost (Rs in Lakh) - DU Rs 2106.55 Lakhs
Project Cost (Rs in Lakh) - ID Rs 1739.74 Lakhs
Number of Dwelling Units 1859 No's Rs. 2106.55 LakH

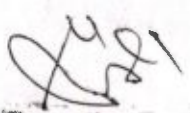

Swarna Jayanti Shahri RozgarYojana (SJSRY):

SJSRY is a centrally sponsored program and it mainly emphasizes on the poverty reduction through employment generation. Maintarget groups of the program are: Urbanpoor, Women, SC/ST, Disabled etc.

Integrated Housing and Slum Development Program (IHSDP):

IHSDP was under Jawaharlal Nehru Urban Renewal Mission (JNNURM) beginning from the year 2005-2006. The major objectives for the IHSDP program are:-

- Focussed attention to integrated development of basic services to the poor. The basic services include ecurity of tenure at affordable price, improving housing, water supply and sanitation.
- Secure effective linkages between asset creation and asset management so that the basic services to the urban poor created in the cities, are not only maintained efficiently but also becomes elfsustaining ove rtime.

Summary of Investment

Project Costing

The costing for the individual sectors has been made on the basis of applicable Schedule of Rates. The details of each of the sub-projects have been provided in the respective sections.

The cost components include:

Infrastructure: Cost of infrastructure development/ up-gradation including, storm water drainage, roads & drainage, etc.

Housing: Construction Costs would need to be arrived from the various components that are proposed to be implemented and would vary depending on the development option identified.

Other costs

Administrative overheads and engineering design: In addition to the cost of infrastructure, calculated at the current market prices, areas on able cost should also be estimated for administrative overheads and engineering design.

Land: Own land of Beneficiary.

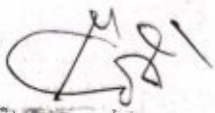

GOI Contribution:

PMAY scheme guidelines stipulate that, 1.5 lakhs of the unit cost of dwelling unit.

The Central share would be available as per milestones set out in Memorandum of Agreement (MoA).

Beneficiary Contribution:

In order to ensure beneficiaries interest, financial contribution by the beneficiaries is critical. The share of beneficiary contribution in housing is proposed to be a minimum of 35000/- As per PMAY guidelines, no contribution from the beneficiaries is expected in infrastructure improvements.

Executive Engineer
M.E. Dte, Govt. Of W.B.
Deputed at
Siliguri Municipal Corporation

Commissioner
Siliguri Municipal Corporation

State Contribution:

The decision would be left to the remaining share would have to be arranged by the State. State will contribute 5% of total Dwelling cost for infrastructure.

ULB Contribution:

ULB have no contribution on dwelling unit cost. ULB will contribute 5% of total Dwelling cost for infrastructure.

In the 1st Meeting of SLSMC of West Bengal it has been decided that the fowing funding pattern should be adopted for implementation of PMAY until further revision.

Type of City/Towns as per 2011 census	Componen t	Contribution of			
		Centre Rs.(Lakhs)	State Rs.(Lakhs)	ULB Rs.(Lakhs)	Beneficiaries Rs.(Lakhs)
Total cost of Beneficiary LED Construction	Housing	1.5	1.83	Nil	0.35
	Infrastructure	Nil	5 %	5 %	Nil

Project Cost and Financing Strategy For Dwelling Unit

Total no of Dwelling unit = 2000 Nos

Rate per Dwelling unit = Rs. 3.68 Lakhs

Total Cost of Dwelling unit = 2000 x 3.68 = Rs. 7360 Lakhs

Central Share = 2000 x 1.5 Lakhs = Rs. 3000 Lakhs

State Share = 2000 x 1.83 Lakhs = Rs. 3660 Lakhs

Beneficiary Share = 2000 x 0.35 Lakhs = Rs. 700 Lakhs

ULB Share = NIL

For Infrastructure

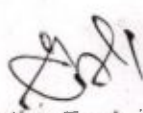

10 % of total Dwelling unit cost = 7360 Lakhs x 10% = Rs. 736 Lakhs

Central Share = NIL

State Share = 50% x 736 Lakhs = Rs. 368 Lakhs

Ben eficiary Share = NIL

ULB Share = 50% x 736 Lakhs = Rs. 368 Lakhs

Executive Engineer
M.E., Dte, Govt. Of W.B.
Deputed at
Siliguri Municipal Corporation

Commissioner
Siliguri Municipal Corporation

The total project cost will be Rs. 80.96 crores

Out of these Rs. 7.36 Crores is the cost of Housing Infrastructure. The following table shows the share of cost between housing infrastructure & Physical Infrastructure.

Table: Cost Breakup between Housing & Infrastructure

SINo.	Component	Cost on Crore
1.	Housing Cost (2000) Dwelling Units)	Rs, 73.60 crore
2.	Infrastructure Cost	Rs, 7.360 crore
		Total Rs . 80.96 crore

Key Findings—Slums under Siliguri Municipal Corporation

➤ Housing :

Individual houses, which are katcha / temporary in nature and in dilapidated condition, have been identified from the survey and proposed for provision of Housing. In Siliguri MC, the authority has identified such 2000 Units for 2015-16, which needs for reconstruction. The implementation is restricted to slum pockets only. The target group of this scheme is mainly from BPL & EWS categories. The houses under the scheme are pucca type. The walls are made of brick and the roof is made of RCC.

➤ Cement Concrete Road:

Existing roads in slum of Siliguri MC are not so good. Maximum Roads are narrow and katcha. So the monsoon rains creates water logging problem in low lying areas of slum. For 2000 nos. of beneficiaries , 10821 m of Roads is proposed to be constructed of 2.5 m wide in financial year 2015-16 including Slums & Non Slums.

➤ Drains :

In slum areas too, open surface drains are in existence. However, there are areas, which have not yet been covered under Drainage network. The slums have 5 Km surface drain total. For 2000 nos. of beneficiaries , 12809 m of Drains is proposed to be constructed in financial year 2015-16 including Slums & Non Slums.

IMPACT & REMEDIES

1.	Utilization of alternative material Characteristics and availability of alternative material	Locally available bricks etc. will be used.
2.	Rehabilitation of water bodies & measures for maintaining surface runoff smoothly	No water body is affected by the alignment of road. The road side open C. C. / Brick masonry drains have been provided for free flow of storm water.
3.	Measures for Erosion Control	Not applicable for the slum area.
4.	Conservation of Topsoil a. Extent of loss of topsoil b. Area requirement for topsoil conservation c. Inclusion of conservation of topsoil d.	Not applicable for the slum area.
5.	Impact on Heritage & Culture a. Identification of locally significant cultural properties b. Assessment of likely impacts on each cultural property due to project implementation c. Possible measures for avoidance i) Identification of alternative routes ii) Relocation of Culture property in consultation with the local community iii) Common Property iv)	Question does not arise.
6.	Location of Natural Habitants	It will not be disturbed
7.	Construction of site office / Camp	Temporary construction of camp / office shall be established by contractor and since the project is small and scattered, the temporary impact on environment for Construction Camp / office at the time of execution of work is negligible.
8.	Quarrying of Materials a. Sourcing of materials from quarries b. Lead from various existing quarries c. Adequacy of material for the project in these quarries	The construction materials require for the project shall be procured from : a) Stone metal : from the existing. b) Bricks : From the existing brick fields nearby the project site. c) Sand : From the nearest source. All the materials are sufficiently available.
9.	Water Requirement; Identification of potential sources of water	Water required for the construction of work will be available from ground water. There is no scarcity of water in the region.
10.	Location of Waste Water Disposal : a. Location for disposal of waste water	The surface drain have been proposed in the slum for disposal of waste water.
	b. Outfalls locations for longitudinal drains i) Outfall level and back flow	Natural slope of the ground will be maintained for waterways for discharge of surface runoff. No possibility of back flow except in the case of heavy flood.

[Signature]
Executive Engineer

Commissioner
Siliguri Municipal Corporation

	ii) The outfall is in natural stream; measures shall be taken to prevent sediment into the stream.	The storm water drain of the slums will discharge the water to the main high drain of the town.
11.	Air Pollution during construction work	Work shall be carried out by equipments like concrete mixer machine vibrator etc. at this time of concerting work only for which air pollution will be negligible.
12.	Identify locations susceptible to induced development	Locations vulnerable to induced development: In such location the Municipality has committed not to allow building construction activity. a. Lands within 50 m of junctions b. Agricultural lands with enforce restriction on building activity on either side of road. Stretches within 100m of worship places, weekly fairs and locations of community mass gatherings.
13.	Roles and responsibilities of municipality in regulating development	The municipality shall lay down restrictions on building activities along the by-pass roads : 1. Municipality will enforce restriction on building activity on either side of road. 2. Development of Residential sites outside Existing Settlement. Appropriate measure towards the removal of encroachments onto the public land to be taken.
14.	Traffic Congestion and related air & noise pollution	As the road passes through the slum area of the town and two wheelers, Three wheelers, light vehicle will move hence there will not be any traffic congestion, related air & noise pollution.
15.	Opportunity in economic activities due to ease of transportation system	The benefits due to this project are : 1. Generation of Man days 2. Improvement in Household or population sector i.e. Improvement of personal health, hygiene, socio- economic condition, education etc.

Sector wise Monitoring and Implementation Plan

Background

A strong implementation plan and administration frame work is required for the implementation of the identified projects that require strengthening of the Municipal Corporation and evolution of a Community Structure.

Accurate assessment of investment requirements and devising a suitable financing strategy are the key components of any sustainable slum rehabilitation program.

Executive Engineer
M.E. Dte, Govt. Of W.B.
Deputed at

Siliguri Municipal Corporation

Commissioner

Siliguri Municipal Corporation

Implementing bodies must recognize and measure the various costs of developing infrastructure and housing, including the costs for subsequent maintenance. As the scheme is a collaborative effort of multiple stakeholders, with a few of them contributing financially as well, it is important to estimate the required capital expenditure for developing the infrastructure and improving the housing stock as accurately as possible.

National Level

d

PMAY Mission Directorate

There shall be a PMAY Mission Directorate under the charge of a Joint Secretary under the Ministry of Housing and Urban Poverty Alleviation, supported by staff and a Programme Management Unit with experts having expertise in the areas of survey and statistics, computerization and MIS, GIS, Planning, Project engineering, Social development, Monitoring and evaluation etc. for ensuring effective co-ordination with State Governments for expeditious processing of the State Slum-free Po As and project proposals and providing hand holding support to States/UTs.

State PMAY Mission Director

The State Level Nodal Agency for PMAY/SUDA, West Bengal will have coordination of all scheme and reform-related activities more than one department handling Urban development, Local self government, and Housing. SLNA. The Mission Directorate supported by a team of dedicated professionals having expertise in the fields of GIS, MIS, town planning, community development, project engineering, capacity development etc

Commissioner
Siliguri Municipal Corporation

Siliguri Municipal Corporation

The Municipality shall act as the implementation agency for the project. Keeping in mind the criticality of the project, a dedicated '**Bustee Works Management Committee (BWMC)**' has been setup for implementation and operation & maintenance (O&M) of the proposed infrastructure under the scheme.

The BWMC will have representatives of local councillor, Chairman-in-Council, municipal engineers,

Town project officer, community organizers and member from the local slum dwellers. Some of the responsibilities of BWM Care listed below:

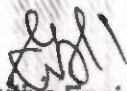

- i. Delineation of poverty pockets in this town to execute the scheme.
- ii. Recruitment of community organizers
- iii. Guiding and assisting the community organizer to form neighbourhood group (NHG) and for identification of RCVs.
- iv. Formation of NHCs and CDs.
- v. Constitution of town level planning and monitoring committee (TLPMC).
- vi. Liaison with CMOH and other concerned district level officers and NGOs for conference.
- vii. Regular contact with SUDA and Department of Municipal Affairs.
- viii. Convening meeting of TLPMC to take stock of programme implementation and convergence.
- ix. Dovetail all poverty alleviation programmes with IHSDP.
- x. Obtain regular feedback from CDS and send the required monthly progress report to SUDA by the end of first week of the next month in the prescribed MIS format.

Participation through Beneficiary committees

People's participation in municipal planning and development is critical and shall be ensured

Through of Ward Committees in each ward irrespective of their population and size.

The Ward Committee Rules have also been framed in such a way so as to ensure

Executive Engineer
M.E. Dte, Govt. Of W.B.
Deputed at

Siliguri Municipal Corporation
Commissioner

involvement of the members of the Ward Committees in the overall municipal administration and resource mobilization. The Ward Committee created especially for the purpose of PMAY will be headed by the Councillor of the Ward, who would return submit their part of progress to BWMC.

Some of the responsibilities the Ward Committee will be:

- i. Supervision of the physical progress of the work under the project
- ii. Designating in-charge, who would be held responsible for individual scheme under the project
- iii. Collecting user charges for operation and maintenance (O&M) activities
- iv. Ensuring proper maintenance of each of the assets that is created under the project

Participation through Community Based Organization

Participation of poor families in planning and implementation of slum level Basic Infrastructure Development as well as Socio-Economic Development has been ensured through formation of Community Based Organization. The Ward Committee will also have representative of weaker community. Similar structure have also been involved by the municipalities in providing civic services like conservancy services, maintenance of street light, etc. municipal administration and resource mobilization.

However, basic guide lines, which will be followed in implementation of the projects, are been laid down below:

Monitoring & Evaluation

PMAY will be monitored at three levels: City, State and Government of India. In particular,

- Ministry of Housing and Urban Poverty Alleviation will periodically monitor the scheme.
- State Nodal Agency would send Quarterly Progress Report (on-line) to the Ministry of Housing and Urban Poverty Alleviation.
- Upon completion of a project, the State Nodal Agency, through the State

Executive Engineer
M.E. Dte, Govt. Of W.B.
Deputed at
Siliguri Municipal Corporation

Commissioner
Siliguri Municipal Corporation

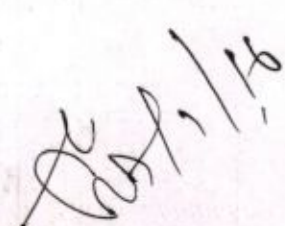

Government, would submit completion report to the Central Government.

- Central Sanctioning-cum-Monitoring Committee will meet as often as required to sanction

And review/monitor the progress of projects sanctioned under the Mission.

- States/Cities will be facilitated through independent quality control/assurance/thirdparty teams at various levels that may be outsourced to specialized/technical agencies.
- Monitoring of projects by States/Urban Local Bodies by conducting Social Audit in conform it with guideline to be prescribed, right from the stage of project preparation.
- The processes of implementation will be monitored by under taking concurrent evaluation

Through reputed independent institutions to ensure that corrections to distortions, oversights or short coming scan be made in time.

Siliguri Municipal Corporation

Annexure 7C
(Para 14.5 of the Guidelines)

Format for Projects under Beneficiary led Construction or Enhancement

1.	Name of the State	:	West Bengal					
2.	Name of the City	:	Siliguri					
3.	Project Name	:	Housing for All					
4.	Project Code *	:	19801638014					
5.	State Level Nodal Agency	:	State Urban Development Agency					
6.	Implementing Agency/ ULB	:	Siliguri Municipal Corporation					
7.	Date of approval by State Level Sanctioning and Monitoring Committee (SLSMC)	:						
8.	Project Cost (Rs. in Lakhs)	:	8096.00					
9.	No. of beneficiaries covered in the project	:	Gen	SC	ST	OBC	Minority	Total
			154 0	340	40	60	20	2000
10.	(i) No. of Beneficiaries (New Construction)	:	2000					
	(ii) No. of Beneficiaries (Enhancement)	:	NIL					
11.	Whether selected beneficiaries have rightful ownership of the land?	:	Yes					
12.	Whether building Plan for all houses have been approved?	:	Yes					
13.	i) GoI grant required (Rs. 1.5 lakh per eligible Beneficiary) (Rs. In Lakhs)	:	3000.00					
	ii) State grant, if any (Rs. In Lakhs)	:	4028.00					
	iii) ULB grant, if any (Rs. In Lakhs)	:	368.00					
	iv) Beneficiary Share (Rs. In Lakhs)	:	700.00					
	v) Total (Rs. In Lakhs)	:	8096.00					
14.	Whether technical specification/ design for housing have been ensured as per Indian Standards/NBC/ State norms?	:	Yes					
15.	Whether disaster (earthquake, flood, cyclone, landslide etc.) resistant features have been adopted in concept, design and implementation?	:	Yes					
16.	Brief of project, including any other information ULB/State would like to furnish	:	Yes					

It is hereby confirmed that State/UT and ULB have checked all the beneficiaries as per guidelines of HFA. It is also submitted that no beneficiary has been selected for more than one benefit under the Mission including Credit Linked Subsidy Scheme (CLSS) component of the Mission.

8	Ordinary Cement concrete (mix 1:1.5:3) with graded stone chips (20 mm nominal size) excluding shuttering and reinforcement if any, in ground floor as per relevant IS codes. (i) Pakur Variety SOR, PWD, P-14, T -7(i)	3.940	cu.m.	6851.66	26995.54
9	Reinforcements for reinforced concrete work in all sorts of structures including distribution bars, stirrups, binders etc. including supply of rods, initial straightening and removal of loose rust (if necessary), cutting to requisite length, hooking and bending to correct shape, placing in proper position and binding with 16G black annealed wire at every inter-section. complete as per drawing and direction. (a) For works in foundation, basement and upto roof of ground floor / upto 4m. (i) Tor steel/Mild steel. SOR, PWD, P-27, T -15(i)	0.309	MT	60705.93	18775.74

SL No.	Description of Works	Quantity	Unit	Rate (Rs.)	Amount (Rs.)
10	Hire and labour charges for shuttering with centring and necessary staging upto 4 m. using approved stout props and thick hard wood planks of approved thickness with required bracing for concrete slabs, beams, columns, lintels curved or straight including fitting, fixing and striking out after completion of works. (upto roof of ground floor). (When the height of a particular floor is more than 4 m. the equivalent floor ht. shall be taken as 4 m. and extra for works beyond the initial 4 m. ht. shall be allowed under 12(e) for every 4 m. or part thereof.) SOR, PWD, P-66, T -12(a)				
	25 mm. to 30 mm. thick wooden shuttering as per decision & direction of Engineer-in-charge. Ground Floor	37.063	M ²	360.00	13342.68
11	Plaster (to wall, floor, ceiling etc.) with sand and cement mortar including rounding off or chamfering corners as directed and raking out joints or roughening of concrete surface, including throating, nosing and drip course where necessary . In ground floor. A) With 6:1 cement mortar. a) Inside wall 20 mm thick plaster SOR, PWD, P-151, T -2 (i)(b)	116.940	sq.m.	181.00	21166.14
	b) Out side Wall, 15mm th. SOR, PWD, P-151, I -2 (i)(c)	111.950	sq.m.	156.00	17464.20
	B)10mm th ceiling plaster (4:1) SOR, PWD, P-151, I -2 (i)(c)	23.330	sq.m.	140.00	3266.20
12	Neat cement punning about 1.5mm thick in wall, dado, window, sills, floor, drain etc. SOR, PWD, P-152, I -8	26.700	sq.m.	38.00	1014.60
13	Artificial stone in floor,dado, staircase etc. with cement concrete (4:2:1) with stone chips laid in panels as directed with topping made with ordinary or white cement (as necessary) and marble dust in proportion (2:1) including smooth finishing and rounding off corners and including application of cement slurry before flooring works, using cement @ 1.75 kg./sq.m. all complete including all materials and labour. In ground floor. 3 mm. thick topping (High polishing grinding on this item is not permitted) with ordinary cement. 20mm thick SOR, PWD, P-40, I -3 (i)	26.490	sq.m.	265.00	7019.85
14	Supplying, fitting & fixing MS clamp for fixing door and window frame made of flat bent bar, end bifurcated, fixed in cement concrete with stone chips (4:2:1)a fitted and fixed omplete as per direction. 40mm x 6mm x 125 mm length. (Cost of cement concrete will be paid separately) SOR, PWD, P-90, I -18 (c)	34	each	22.00	748.00
15	Wood work in door and window frame fitted and fixed complete including a protective coat of painting at the contact surface of the frame other Local wood SOR, PWD, P-85, T -1(i)	0.213	cu.m.	46171.00	9834.42
16	Panel Shutter of door & Window (each Panal Consisting Of single Plan without Join) 25 mm thick shutter with 12 mm thick Panal of size 30 to 45 cm. Other Local wood SOR, PWD, P-105, I -84 (iv)c	8.520	sq.m.	1567.00	13350.84
17	Iron butt hinges of approved quality fitted and fixed with steel screws, with ISI mark. a)75mm x 47mm x 1.70mm SOR, PWD, P-91, T -20(iv)	32.000	each	34.00	1088.00
18	Iron Socket Bolt of approved quality fitted and fixed complete. i) 150 mm long x 10 mm dia SOR, PWD P-93, I-25,c	11.000	each	71.00	781.00
19	White washing including cleaning and smoothening surface thoroughly (5 parts of stone lime and 1 part of shell lime should be used in the finishing coat). Two Coats SOR, PWD, P-155, I -3 (b)	124.960	%sq.m	1887.00	2358.00
20	Colour washing with ella with a coat of white wash priming including cleaning and smoothening surface thoroughly external surface One Coat SOR, PWD, P-155, I - 4(ii)(a)	100.560	%sq.m	1514.00	1522.48

**ANNEXURE-IV Cost Estimate for 2 Nos Leach Pit for single unit Dwelling Unit
P.W.D Schedule of Rates effect from 1st July 2014**

(ANNEXURE-II)

Sl No	Description of Items	Quantity	Unit	Rate	Amount
1	Earth work in excavation of foundation trenches or drains in all sorts of soil (including mixed soil but excluding or stacking the spoils within a lead of 75 m. as directed. The item includes necessary trimming the sides of trenches leveling dressing and ramming the bottom boiling out water as required complete. Depth of excavation not existing 1500mm P.No-1, I-2(a)	2.552	%Cu.M	12047.00	307.44
2	Cement concrete with graded jhama Khoa ballast (30 mm size) excluding shuttering. In ground floor and foundation (a) 6:3:1 proportion.	0.050	Cu.M	5803.06	290.15
3	Brick work with 1st class bricks in cement mortar (6:1). a) In foundation & Plinth P.no-29, I-21(a)	0.011	Cu.M	5719.00	62.91
4	125 mm. thick brick work with 1st class bricks in cement mortar (4:1) G.Floor	3.000	SqM	714.00	2,142.00
5	Controlled Cement concrete with well graded stone chips (20 - mm nominal size) excluding shuttering and reinforcement with complete design of concrete as per I : 456 and relevant special publications submission of job mix formula after preliminary mix design after testing of concrete cubes as per direction of Engineer-in charge Consumption of cement will not be less than 300 Kg of cement -with Super plasticiser per cubic meter of controlled concrete but actual consumption will be determined on- the basis of preliminary test and job mix formula. -In ground floor and foundation. [Using concrete mixture] M 20 Grade	0.154	Cu.M	6871.54	1,058.22
6	Reinforcement for reinforced concrete work in all sorts of structures incl. Distribution bars, stirrups, binder etc. incl. supply of rods, initial straightening & removal of loose rust (if necessary), cutting to requisite length, hooking etc P.no-27, I-15(a)(i)	0.011	M.T	68508.00	753.59
7	Supplying, fitting and fixing UPVC down pipes A type and fittings conforming to IS 13592-1992 with necessary clamps nails including making holes in walls, etc. and cutting trenches in any soil, through masonry concrete structure etc. if necessary and mending good damages including jointing with jointing materials (Spun yarn, valamoid / bitumen / M. seal etc.) complete. i) UPVC Pipe 110 mm dia P.no-173, I- ii) UPVC Bend 87.5 degree 110 mm dia P.no-174, I-	4.000	Mtr	291.00	1,164.00
		2.000	Each	162.00	324.00
8	Jaffri brick work 125 mm. thick with 1st class bricks in cement mortar (4:1) including 12 mm. thick cement plaster (4:1) in all faces in ground floor P.no-32, I-35	2.000	SqM	792.00	1,584.00
Cost of 2 no leach pit					7,686.31
Total=					7,686.00

Annexure - VI

Format - A

(Format for Rate Analysis of Cement Concrete Item)

Item 7. Ordinary Cement concrete (mix 1:1.5:3) with graded stone chips (20 mm nominal size) excluding
Consumption of Stone aggregate (Page B-59)

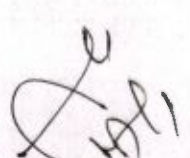

20 mm = 0.573 Cum

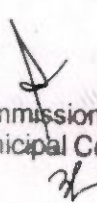

10 mm = 0.287 Cum

Distance of site considered =

10 Km

Steps	Quantity	Unit	Rate	Amount
Step - 1 Rate of item as per relevant section of this Schedule A =	1.00	CUM	5389.00	5389.00
Step - 2 Add cost of stone aggregate of different grading as per consumption required for one cum of concrete. (As per table:T-1)				
Station : kalyani				
20mm Nominal Size:	0.573	CUM	1463.00	838.30
10mm Nominal Size:	0.287	CUM	1296.00	371.95
Total B =				1210.25
Step - 3 Add cost of carriage of stone aggregate as per consumption required for one cum of concrete. (As per table:T-2)				
20mm Nominal Size:	0.573	CUM	178.50	102.28
10mm Nominal Size:	0.287	CUM	178.50	51.23
Total C =				153.51
Step - 4 Add cost for loading and unloading of stone aggregate (As per table:T-3)				
20mm Nominal Size:	0.573	CUM	58.00	33.23
10mm Nominal Size:	0.287	CUM	58.00	16.65
Total D =				49.88
Final Rate of Item = [Rs. A - Rs.B + Rs.C + Rs.D] = Rs.				6802.64
