INTRODUCTORY NOTE BY THE CHAIRMAN

Ratan Ranjan Roy, Chairman, Taherpur N.A.A

The Taherpur Notified Area Authority was established in the year of 1993 and is about 23 years old. At present the municipality comprised total area of 2.01 sq.km having population of 20894 as per census 2011.

We have tried to address the problems of urban poor & slums keeping the aspirations of people and development objectives and targets in mind. At some point we have been successful in realizing the dreams of the people while in others we were not. Preparation of Housing for All plan of action under PMAY opened a new challenge to us.

We believe that we are progressing in the right direction with the support of Government of West Bengal and Ministry of Housing and Urban Poverty Alleviation, Government of India we will be able to achieve the desired objectives.

As the Chairman of Taherpur Notified Area Authority, I acknowledge the contribution of all the members of the Planning team of our ULB, our councillors, our staffs and the officers of SUDA. Director of SUDA. As well as MED. It is needless to mention about the pain that has been taken by all the ward committee members in preparation of DPR for HFA for the year 2019-20.

After long movement under Taherpur People, the government accepted the demand of people to promote the administrative status of Taherpur from Gram Panchayat to Notified Area.

PMAY

To give pucca house for every family is currently on the global agenda. One of the Millennium Development Goals (MDGs) is to 'achieve significant improvement in the lives of slum dwellers, by 2022. Similar goals are set forth by Pradhan Mantri Awas Yojana in 2022, to create pucca house for every family.

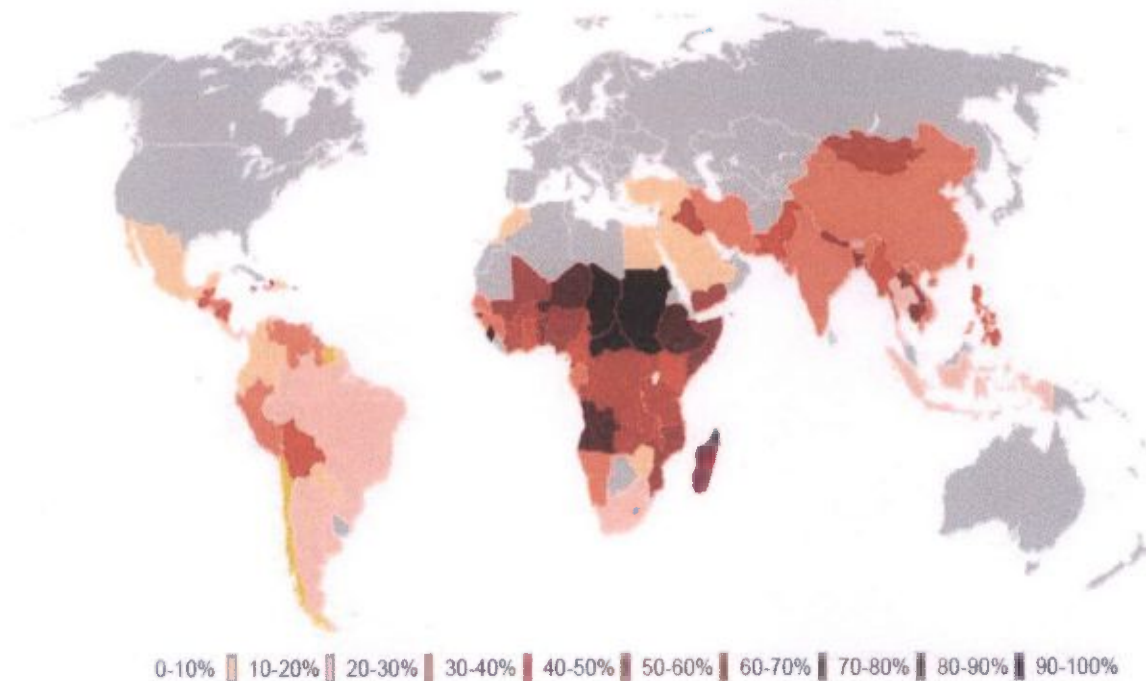

ULB undertake a demand survey through suitable means for assessing the actual demand of housing. While validating demand survey, Cities should consider possible temporary migration from rural areas to the city just to take advantage of housing scheme and exclude such migrants from list of beneficiaries. On the basis of demand survey and other available data, cities prepare Housing for All Plan of Action (HFAPoA). HFAPoA should contain the demand of housing by eligible beneficiaries in the city along with the interventions selected out of four verticals. The information regarding beneficiaries is collected by ULB in suitable. While preparing HFAPoA, ULB and Implementing Agencies should also consider the affordable housing stock already available in the city as Census data suggests that large number of houses are vacant.

Bank account number and Aadhaar number/Voter ID card/any other unique identification details of intended beneficiaries or a certificate of house ownership from Revenue Authority of beneficiary's native district will be integrated in the data base of HFAPoA for avoiding duplication of benefit to one individual family. Beneficiaries is validated by ULBs thereby ensuring their eligibility at the time of preparation of the projects and approval of projects

On the basis of HFAPoA, States/Cities subsequently prepare the Annual Implementation Plans (AIPs) dividing the task upto 2022 in view of the availability of resources and priority. For larger cities, HFAPoA and AIPs is prepared at sub-city (ward/zone etc.) level with the approval of concerned State/UT Government. The result of demand survey, draft HFAPoA and draft AIP is discussed with the local representatives including MLAs and MPs of that area so that their views are adequately factored in while finalising the plans and beneficiary list.

Cities which have already prepared Slum Free City Plan of Action (SFCPoA) or any other housing plan with data on housing, utilise the existing plan and data for preparing "Housing for All Plan of Action" (HFAPoA). Houses constructed under various schemes should be accounted for while preparing HFAPoA

Introduction to Pradhan Mantri Awas Yojana (PMAY)

Pradhan Mantri Awas Yojana (PMAY), a path breaking scheme for the slum dwellers and urban poor envisages a 'Pucca house to every family' through encouraging States to tackle the problem of slums in a holistic manner. It calls for a multi-pronged approach focusing on:

- Bringing existing slums within the formal system and enabling them to avail of the same level of basic amenities as the rest of the town
- Redressing the failures of the formal system that lie behind the creation of slums.
- Tackling the shortages of urban land and housing that keep shelter out of reach of the urban poor and force them to resort to extra-legal solutions in a bid to retain their sources of livelihood and employment.
- Enactment of a set of reforms at the state and city level related to inclusive planning, regulation and financing, which would ensure that adequate fresh housing stock and services get created on an ongoing basis to address both current and future needs of cities.
- An integrated approach covering shelter, services and livelihoods for poor slum communities

The duration of Pradhan Mantri Awas Yojana [PMAY] 2015 TO 2022

Allotment of dwelling units will be in the name of the female member of the . Alternatively, it can be allotted in the name of husband and wife jointly. Ownership of land required for every Beneficiary

A EWS beneficiary family will comprise husband, wife and unmarried children. The beneficiary family should not own a pucca house (an all weather dwelling unit) either in his/her name or in the name of any member of his/her family in any part of India to be eligible to receive central assistance under the mission. EWS households are defined as households having an annual income up to Rs.3,00,000 (Rupees Three Lakhs). States/UTs shall have the flexibility to redefine the annual income criteria as per local conditions in consultation with the Centre

Following infrastructure will be considered for support under PMAY

- Water connection
- Toilet facilities
- 24 x 7 Electric facilities
- Roads

Need for Projects

This development project models will give benefits in the city One of the key objectives of developing the Projects is to incentivize innovation and encourage new approaches and solutions that can demonstrably improve the quality and quantity of shelter and services for the poor. Such innovation could encompass

- Projects wise strong community participation i.e. Slum up gradation/ redevelopment projects initiated/spearheaded by the community; or with their demonstrable involvement and participation in design, planning and implementation
- New models of public-private partnerships whereby the private sector can be encouraged to take up affordable housing for the EWS/LIG.
- Innovations in planning, demonstrating integrated livelihoods, shelter and services; or convergence
- Innovative or cost effective and green building design and technologies
- Financial innovations in delivering the city/state wide programme

Vision and Objectives

Vision

The mission seeks to address the housing requirement of urban poor including slum dwellers through following programme verticals:

- Slum rehabilitation of Slum Dwellers with participation of private developers using land as a resource
- Promotion of Affordable Housing for weaker section through credit linked subsidy
- Affordable Housing in Partnership with Public & Private sectors
- Subsidy for beneficiary-led individual house construction

Objectives

The project has been designed keeping in mind the following objectives

- Integrated development of all existing slums, notified or non-notified, i.e., development of infrastructure and housing in the slums/rehabilitation colonies for the slum dwellers/urban poor, including rental housing.
- Development/improvement/maintenance of basic services to the urban poor, including water supply, sewerage, drainage, solid waste management, approach and internal road street lighting.
- The Creation of affordable housing stock, including rental housing with the provision of civic infrastructure and services, on ownership
- Encouraging Public Private Partnership by having pay and use toilets and educate the slum dwellers for keeping the environment clean and hygienic

State PMAY Mission Director

The Nodal Ministry and National Mission Directorate is Ministry of Housing & Urban Poverty Alleviation, Government of India.

The Nodal Department for West Bengal is Municipal Affairs Dept. (M.A. Department), Government of West Bengal. The state level Nodal Agency is State Urban Development Agency (SUDA) under M.A. Department. State Urban Development Agency was set up in 1991 with a view to ensuring proper implementation and monitoring of the centrally assisted programmes for generating employment opportunities and alleviation of poverty throughout the State. SUDA is a Society registered

- Central share 1.5 LAKHS of total cost of dwelling unit
- Beneficiary share 0.25 LAKHS of total cost of dwelling unit
- State share rest of total cost of dwelling unit
- State + ULB bear the cost of infrastructure
- State share for infrastructure to be minimum 5%
- ULB share for infrastructure to be minimum 5%
- Cost of infrastructure 10 % of sum total cost of dwelling unit

Approvals & Release of Funds

Releases and approvals to be on the basis of DPRs which need to be submitted with approval of State Level Sanctioning and Monitoring Committee

Innovative projects to be considered for sanction even in the preparatory stage. Central Funds to be released in three installments to the State Governments/SLNA; central assistance under different components will be released to the state / UTs after the approval of CSMC and with concurrence of the integrated Financial Division of the Ministry. Central share would be released in three installment of 40%, 40% and 20% each.

Project Cost and Financing Strategy:

A. For Dwelling Unit:

- B. Total no of Dwelling unit = 1000 Nos
- C. Rate per Dwelling unit = 3.68 Lakhs
- D. Total Cost of Dwelling unit = $1000 \times 3.68 = 3680$ Lakhs
- E. Central Share = 1000×1.5 Lakhs = 1500 Lakhs
- F. State Share = 1000×1.93 Lakhs = 1930 Lakhs
- G. Beneficiary Share 1000×0.25 Lakhs = 250 Lakhs
- H. ULB Share = NIL

B. For Infrastructure:

- C. 10 % of total Dwelling unit cost = 3680 Lakhs $\times 10\% = 368$ Lakhs
- D. Central Share = NIL
- E. State Share = $50\% \times 368$ Lakhs = 184 Lakhs
- F. Beneficiary Share = NIL
- G. ULB Share = $50\% \times 368$ Lakhs = 184 Lakhs

The total project cost will be 4080 Lakhs

Out of these 3036 Lakhs is the cost of Housing Infrastructure. The following table shows the share of cost between housing infrastructure & Physical Infrastructure.

Table: Cost Break up between Housing & Infrastructure

SINo.	Component	Cost on Lakhs
1.	Housing Cost(1000) Dwelling Units)	3680
2.	Infrastructure Cost	368
	Total	4048

Materials of construction:

- PCC (1:3:6) for foundation
- RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- HYSD Steel
- 1st Class Brick Masonry
- 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls

Definition of Slum for Housing

Different definitions of a slum exist in different statutes and in urban poverty literature. For the purpose of HOUSING SCHEME, it is proposed to adopt the definition given in the 2001 Census, which is as follows:

- a. All areas notified as 'Slum' by State/Local Government and UT Administration under any Act;
- b. All areas recognized as 'Slum' by State/Local Government and UT Administration, which have not been formally notified as slum under any Act;

'Slum' or 'Slum Area'– is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

‘Slum’ or ‘Slum Area’– is a compact settlement of at least 20 households (For NE & Special Category States it is 10-15 households) with a collection of poorly built tenements, mostly of temporary nature, crowded together usually with inadequate sanitary and drinking water facilities in unhygienic conditions.

Situation Appraisal

The people living in the slums all have kutcha (182) housing. In certain cases where pucca housing is available, they are usually in dilapidated condition. The kutcha houses are in very poor condition and require extensive repairs. Most of the houses have tiles on roof. While during the survey some of the houses have been noted to be in average condition, the quality of these houses is also speedily deteriorating.

Proposed Intervention

In line with the vision to **‘housing for all’**, an integrated housing programme is proposed to be implemented. The target will be all the slum /Non Slum dwellers in the pocket.

Building Plan

The buildings are proposed to cover an area of approximate 32 Sq.mt along with provision of 2rooms, kitchen and sanitation facility. The layout, size and type design of housing dwelling units depends on the local conditions and the preferences of the beneficiary. The houses, has been designed in accordance with the desire of the beneficiaries, keeping in view the climatic conditions and the need to provide ample space, kitchen, ventilation, sanitary facilities, etc. and the community perceptions, preferences and cultural attitude

In line with the scheme, carpet area of the house will be not less than 25 sq. mts and preferably two room accommodation plus kitchen and toilet should be constructed

Compliance with Municipal Bye laws

All designs & drawings are created keeping in line with the municipal bye laws

Building material

- PCC (1:3:6) for foundation
- RCC M-20 for substructure & superstructure (Column, Beam, Slab)
- HYSD Steel
- 1st class Brick Masonry

- 1:6 (Cement: Sand) plaster – 10 mm on soffit of beam & slab, 15 mm on internal walls & 20 mm on external walls

Structural Design

Following are the general considerations in the analysis/design.

- For all structural elements, M20 grade concrete and Fe 415 grade of steel is used.
- Plinth beams passing through columns are provided as tie beams.
- Pedestals are proposed up to ground level.
- Beam Centre-line dimensions are followed for analysis and design.
- For all the building, walls of 250 mm and 125mm thick with 20 mm External plaster and 12 mm thick internal plaster are considered.
- Seismic loads are considered acting in the horizontal direction along either of the two principal directions

Design data

- Live load: 2.0 kN/m² at typical floor
- 1.5 kN/m² on terrace (With Access) : 0.75 kN/m² on terrace (without Access)
- Floor finish 50mm (0.05*24) = : 1.2 kN/m²
- Ceiling plaster 12mm (0.012*20.8) : 0.25 kN/m²
- Partition walls (Wherever Necessary) : 1.0 kN/m²
- Terrace finish: 1.5 kN/m²
- Earthquake load: As per IS-1893 (Part 1) - 2002
- Depth of foundation below ground: ,0.7 m

IMPLEMENTATION SCHEDULE

A Monitoring & Evaluation team has to be formed to know the post project impact on the slums and to document the best practices

Health

Slum population as percentage of total urban population is roughly 34%. As mentioned somewhere in the report that IHSDP programme is being implemented in 54 slums. There are altogether 10 primary schools located in slums. The location and distance of nearest primary schools lies between 500 m to 1000 m approximately. Similarly, the location and distance of nearest primary Health Centre / UHP / UFWC lies between 1000 m to 3000 m approximately

Housing Infrastructure

The individual houses in the slum pockets are in general temporary in nature, without having a permanent roof structure. Proper sanitary facilities are absent which not only endangers the individual health, but also the environmental conditions of the slum and consequently the town is general

Water Supply

The existing water supply facilities in the slum pocket is inadequate. Although the slums have sufficient source of water in the form of either tube wells or existing municipal water sources, they lack a proper distribution system for efficient use of the water. In order to solve this problem, a network of distribution lines in slum pockets have been proposed. This will reduce their inconvenience for procurement of water from a distant place as well as improve their personal health and hygiene

Drainage

Haphazard growth and settlement in the slum area has blocked the natural drainage courses, which in turn causes water logging and stagnation in different parts of the slum. This accumulated water causes to generate public health problems. The proposed drainage system by means of construction of new drains will help to provide relief to the slum dwellers by means of efficient and effective disposal of storm water through the outfall channels. This drain will carry both sewerage and storm water. The outcome of this scheme will by and large enhance the quality of civic life by way of promotion and safeguarding the public health and environmental pollution.

Roads

The existing road network system of the slum has become inadequate to cope up with the present and ever increasing needs. In order to bear the additional load due to enhanced civic, economic and commercial activities of the slum, existing road network system in several places are required either to

be upgraded or widened and new roads are also be constructed in a number of places where the network is inadequate. The project is intended to ease at the movement of slum dwellers and smooth flow of pedestrian and light vehicle, which will enhance the quality of civic amenities in the slum. As a result, the quality of life in the slum will also improve substantially.

Street Light

After successful implementation of the scheme will remove prevailing darkness in slum area after sunset. This will ultimately alleviate inconvenience faced by slum dwellers during night.

Primary Education :

Existing facilities for pre school education, non formal education, adult education are not suite adequate but there are a few number of primary education centers in the slum area, with admission rates not suite satisfactory. Moreover every year the dropout rates of student from such primary education is quite significant.

Sishu Siksha Kendra, Mid-day Meal Programme will reduce the dropouts from the school and increase number of school goes at primary level.

Formulation and implementation of O & M Plan

The assets created in project are required to be properly used and maintain The following steps will be taken of the ' Operation and Maintenance of plan for slum and non slum:

- i. The ULB along with the CDS working in the Slum where infrastructure works were performed will arrange a meeting(1st)with all slum dwellers of that particular slum.
- ii. At this meeting the Local Councillor ,Chairman-in-Councilor Chairman-in-Council of slum development work, Municipal Engineers,Town Project Officer,Community Organiser, CDS members and RCV that particular slum will be present. Other members/ officials as also be present.
- iii. At this meeting the need for formation of Bustee Works Management Committee (BWMC)for looking after,'Operation and Maintenance Plan for Slum Level Infrastructure work' will be explained to the slum dwellers.
- iv. The stock of work done and assets created under slum level infrastructure works of that particular slum will be listed at this meeting.
- v. At this meeting the ULB will brief the slum dwellers about the constitution ,role and functions of the BWM C.
- vi. A similar next meeting(2nd) will be held at which the BWMC will be lected as per constitution through informal election. If one meeting is not sufficient more such meetings may be arranged.Minute of each meeting with signature of the participants should be maintained
