For the project to be feasible in the long run Howrah Municipal corporation will give the following support / forwarding of proposal to the concerned Department of Govt. of west Bengal for the project of renewal of energy by DARVESH 1909.

GM E W
15/11/16

1. Municipal Waste contract of 25 years between Howrah Municipal Corporation & Darvesh ensuring free delivery of 1200 tons waste per day by Howrah Municipal corporation to the above dumping site + accumulated garbage of 2000 ton per day.
2. Darvesh shall charge no Tipping fees to Howrah Municipal corporation for 25.
3. Darvesh shall give subsidized power rates to the Electricity Distribution board for 25 years (subject to discussion).
4. As regarding cash rebates the matter will be referred to the concerned department of State Government for 5 Rs per Kg or 5000 Rs per metric ton on compost production for a period of 25 Years in this waste to Energy plant.
5. Power purchase agreement will be signed with State Electricity Distribution Authority with a Lien on Escrow account for a period of 25n years backed with a counter guarantee of the sate government for the entire electrical and thermal power being generated by this project subject to approval of concerned Department of the Government of West Bengal.
6. As regarding substantial investment in the scheme the State Government will be requested for 5 years moratorium and 25 years repayment period as a scheme has been classified as an infrastructure project.
7. Registration of the Dumping Site to Darvesh at no cost and exemption of additional charges will be placed before the Government of West Bengal for consideration. Dumping sites will be leveled for building the infrastructure by Howrah Municipal corporation.
8. As regarding buying the compost, Government will be requested to issue necessary orders to the neighboring industries for buying the compost from Darvesh.
9. The application for NOC by Darvesh will be duly forwarded to State Pollution Control Board for approval.
10. The Government will be requested by Howrah Municipal corporation to issue necessary assurance for continuous site operation without any hindrance.
11. the proposal of subsidized rates of Power & Water for this project to start production of energy / power will be forwarded to the State Government for consideration.

12 & 13. are to be considered by the Government of West Bengal.

Commissioner
Howrah Municipal corporation

To,
Minister in Charge Municipal Affairs & Urban Development
Government of West Bengal - India

Subject: Largest Renewable Energy Project in West Bengal, by Darvesh -1909

Respected Sir,

Greetings:

This correspondence is being done from Darvesh -1909, a 1.2 Billion USD Conglomerate.

Our technical and commercial team has visited the dumping site of 130 acres of dumping site at Dhapa-Kolkata for the waste to energy project with the Make In India team.

The current facilities being used are not able to deliver the desired results expected by the Government as it involves a substantial Capital investment in infrastructure development and importing of highly advanced " PATENTED " technological equipments.

This proposal includes MRF and the generation of renewable energy as the earlier LOI sent was for only MRF (Material Recoverable Facility).

Following are the Socio Environmental benefits of this project:

1. Employment Generation.
2. Reduction of landfills.
3. Green and Clean city.
4. Better health conditions.
5. Reduction of Pollution and Odour.
6. Government shall be appreciated by "AAM AADMI" for promoting better living conditions.
7. Generation of Clean Energy.
8. Saving ground water, fertile soil from contamination.
9. Public awareness for cleaner surrounding.

Keeping the above into consideration, Darvesh - 1909 is committed to do this substantial investment into the renewable energy sector to generate/ produce and supply clean energy through the Make In India initiative by our Honorable Prime Minister Shri Narendra Modi Ji.

DARVESH
CREDIBILITY SINCE 1909

For the project to be feasible in the long run we would require the following support, consideration and approval on the below mentioned points from the State Government of West Bengal.

1. Municipal Waste contract of 25 years between Kolkatta Municipal Corporation & Darvesh ensuring free delivery of 3500 tons waste per day by Kolkatta Municipal Corporation to the above dumping site.
2. Darvesh shall charge NO Tipping fees to Kolkatta Municipal Corporation for 25 years.
3. As a social cause Darvesh shall give subsidized power rates to the State Electricity Distribution board for 25 years (subject to discussion).
4. Cash rebates to be given by State Government of 5Rs/KG OR 5000RS/MT on Compost production for a period of 25 Years in this Waste to Energy plant.
5. Power Purchase Agreement (PPA) to be signed with the Kolkatta Electricity Distribution Authority with a Lien on Escrow account for a period of 25 years backed with a counter guarantee of the State government for the entire electrical and thermal power being generated by this project.
6. As this project requires a substantial investment , request State Government approval of this project for the 5.25 Bank funding scheme (5 years moratorium and 25 years repayment) being classified as an Infrastructure project.
7. Registration of the above land/ dumping site to Darvesh at no cost and exemption of additional charges, if any, like Stamp duty (dumping site should be levelled for building our infrastructure).
8. Binding instructions to be given by the government to the neighboring industries for buying the compost from Darvesh.
9. NOC from State pollution control Board.
10. Government assurance for continuous site operations without any hindrances from the nearby villages.
11. Subsidized rates of Power & Water for this project till we start our production of energy/power.
12. Subsidized Interest Rates to be proposed by State government to the state/nationalized banks for this waste to energy project being a highly capital intensive project.

DARVESH

CREDIBILITY SINCE 1909

13. Requesting a one-time Cash Incentive by State Government of INR 2 Crs for each MW which shall be generated in a period of one financial year from the date of commencement of production of electrical and thermal power through waste to energy means in this project.

We would request your consideration and approval on the above mentioned points which shall enable us to fast track our investments and sign a MOU with the State of West Bengal as Darvesh intends to start production into 2-3 years of signing of the MOU.

We at Darvesh are committed in making West Bengal "The Clean Energy Capital" of India under the vision of Shrimati Mamata Banerjee, Honorable Chief Minister of State of West Bengal.

Looking forward for your positive reply and a long term beneficial business alliance.

Wishing you a Happy Diwali and Prosperous New Year.

Sincerely,

Talib.H. Darvesh
